Plant Tours Made At Globe, Anvil Brand

Recently a group of Anvil Brand personnel toured the Globe Furniture plant here and a few days later a group of Globe personnel were shown through Hudson and White divisions of Anvil Brand.

Aline Carter reported that both tours proved beneficial and particularly called attention to comments from one Globe employee who commented several times on the cleanliness of Anvil Brand's plants.

Aline said several of the Globe persons didn't realize the scope of Anvil Brand operations and were unaware that the large lines of play and utility clothes were produced locally.

Aline and Ossie Wright were in charge of the tour through the Anvil Brand plants.
