HENDERSON NCC FOUNDER'S DAY SPEAKER

North Carolina College's 19th annual Founder's Day Convocation is slated for Thursday, November 3. Dr. Vivian W. Henderson, economist and president of Clark College, Atlanta, Ga., will deliver the principal address.

The convocation, to be held in the college's B. N. Duke Auditorium beginning at 11 a.m., honors the memory of the late Dr. James Edward Shepard, who founded the institution in 1910 and was its president until his death in 1947.

Henderson, a native of Bristol, Tennessee, is a graduate of the Slater High School, Bristol. Holder of the B.S.C. degree from North Carolina College, with a major in business administration and economics, he earned the M.A. and Ph.D. degrees at the State University of Iowa in economics, receiving the doctorate in 1952.

His experiences include positions as a teacher of economics at Prairie View A and M College, North Carolina College, and Fisk University where he was professor and chairman of the Department of Economics and Business Administration from 1952 to 1965. He was a visiting professor at North Carolina State College, Raleigh, from 1962-64. In 1965, he accepted the presidency of Clark College.

At Fisk, Dr. Henderson served as director of the summer session from 1958 to 1963, director of the Race Relations

Department of the Board for Homeland Ministries of the United Church in 1965, director of a Phelps-Stokes institute for social studies teachers from 1956 to 1959, and director of an institute on economic education,

DR. VIVIAN HENDERSON

sponsored by the Joint Council on Economic Education, from 1953 to 1964.

A highly respected economist, he has written articles treating the economic status of Negroes and economic resources of the South appearing in various journals. A contributor to the books *Negro Employment*, by Arthur Ross and Herbert Hill, and *The Problems of Poverty*, published by Michigan State University, he is co-author of

several books, among them *Human Resources in the South*, *Principles of Economics*, and *Public Finance*, the last two published by the Pitman Publishing Company.

Dr. Henderson, who engages in continuous research on economic education and improvement of the teaching of economics in public schools as well as research on Negro buying power and Negro markets and manpower, is in wide demand as a consultant to organizations and agencies, including the U.S. Office of Economic Opportunity, the Phelps-Stokes Fund, the National Insurance Association, and the Southern Regional Council and its affiliates.

In 1960, he presented an economic analysis of factors underlying race relations in the U. S. on the NBC nationwide television program "White Paper." In its October 23, 1960, issue, *The Wall Street Journal* carried a profile of his professional and civic contributions in economics and race relations.

Dr. Henderson actively maintains a number of significant civic and church affiliations, including membership on the General Board of Christian Social Concerns of the Methodist Church, membership on a 14-man task force appointed by W. Willard Wirtz, Secretary of Labor, and the directorship of a special task force on economic security and welfare appointed by President Lyndon B. Johnson in 1966.

Commerce Club Outlines Plans

The Iota Tau Chapter of Phi Beta Lambda, the Commerce Club, organized for the year in September. Officers elected were Jerry Hawkins, president; Hugh Johnson, vice-president; Marjorie Dunstan, secretary; William Neal, treasurer; and Quentine Finch, reporter.

Iota Tau Chapter's plans for this year include the sponsorship of a movie scheduled for November 11; cooperation with the college Placement Bureau in compiling information about occupations for business and economic majors; trips to places of interest in Durham, in the state and elsewhere; the establishment of an award for an outstanding chapter member; presentation of a bulletin board display emphasizing how the chapter is fulfilling its purpose; publishing a newsletter featuring news and information for commerce majors; and the preparation of projects to exhibit in the state convention.

New members filled out their applications for admission to the chapter at a call meeting Thursday evening, October 6, and were given initiation instructions. Anyone interested in joining Iota Tau Chapter was to secure an application blank from Room 205 or Room 310 in the Commerce Building. Initiation for pledges was held on October 26 to 27, and was followed by a "welcoming party" in honor of new members.

The chapter elected Carolyn Hampton, a senior majoring in business education, as Miss Phi. See *Commerce Club*, Page 5-

Foundation Plans Science Awards

The National Academy of Sciences - National Research Council has been called upon again to advise the National Science Foundation in the selection of candidates for the Foundation's program of graduate and regular postdoctoral fellowships. Panels of outstanding scientists appointed by the Academy-Research Council will evaluate applications of all candidates. Final selection will be made by the Foundation, with awards to be announced on March 15, 1967.

Fellowships will be awarded for study in the mathematical, physical, medical, biological and engineering sciences; also in an-

thropology, economics (excluding business administration), geography, the history and philosophy of science, linguistics, political science, psychology (excluding clinical psychology), and sociology (not including social work). Application may be made by college seniors, graduate students working toward a degree, postdoctoral students, and others with equivalent training and experience. All applicants must be citizens of the United States and will be judged solely on the basis of ability.

Applicants for the graduate awards will be required to take (See *Foundation Plans*, Page 8)

BOOKS GIVEN TO SGA—Dr. Charles A. Ray (center), supervisor of NCC's Paperback Book Committee, gives the SGA charge of 3,000 paperbacks. Others shown are Reading Club President, Grova Bridges (left) and SGA President Samuel Thomas (right).

HAPPY ATTORNEYS—Daniel Sampson, center, dean of the North Carolina College School of Law, chats with two of his former students, the Michaux brothers—Henry M. Jr., left, and Eric, right—after the young attorneys were admitted to the North Carolina bar recently.

Henry, who holds the B.S. degree from NCC and is national president of the college's Alumni Association, received the LL.B. from the college in 1964. Eric, who received the bachelor's from Boston University, attended the NCC School of Law for 1 and a half years and then transferred to Duke University, where he was awarded the LL. B. degree in 1966.

Reading Club Elects Officers EST Announces Test Schedule

A group of persons who had previously expressed interest in attempting to stimulate reading for pleasure and to create a more intellectual atmosphere among the students on campus met in the Student Union Building on October 5 and organized a book club. The club is an outgrowth of the Cultural Reading Committee which is composed of faculty members and students.

During the first official meeting, several items of business were carried out. A proposed constitution was accepted; officers were elected; possible club projects were suggested; and a club name adopted. The members decided upon the name ExLibris (from the library) as the name for the club and decided to call themselves X-L's. Suggested club projects included informal book or movie discussions, film lectures, and theater trips. Officers for the year are Grova Bridges president; Aaron Graham, vice president; Brenda Carpenter secretary; Janice Blair, assistant secretary; and William Chapman, treasurer.

The advisor of the club is Dr. Sylvia Lyons Render, a professor of English and chairman of the Cultural Reading Committee.

Anyone interested in helping to promote the purpose of the club is invited to join.

NCC ENROLLS 3,184 STUDENTS

North Carolina College's total enrollment for the fall semester is 3,184 students, 404 more than for the 1965-66 school year, Brooklyn T. McMillon, the school's registrar, announced recently.

Distributed among the college's four schools, the student body consists of 2,898 undergraduates, 212 graduates, 21 li-

College seniors preparing to teach school may take the National Teacher Examinations on any of the four different test dates announced today by Educational Testing Service, a non-profit, educational organization which prepares and administers this testing program.

New dates for the testing of prospective teachers are: January 7, March 18, July 1, and October 7, 1967. The tests will be given at nearly 500 locations throughout the United States, ETS said.

Results of the National Teacher Examinations are used by many large school districts as one of several factors in the selection of new teachers and by several states for certification or licensing of teachers. Some colleges also require all seniors preparing to teach to take the examinations.

Leaflets indicating school systems and state departments of education which use the examination results are distributed to colleges by ETS.

On each full day of testing, prospective teachers may take the Common Examinations, which measure the professional preparation and general cultural background of teachers, and one of 13 Teaching Area Examinations which measure mastery of the subject they expect to teach.

Prospective teachers should contact the school system in which they seek employment, or their colleges, for specific advice on which examinations to take and on which dates they should be taken.

A Bulletin of Information containing a list of test centers, and information about the examinations, as well as a Registration Form, may be obtained from college placement officers, school personnel departments, or directly from National Teacher Examinations, Box 911, Educational Testing Service, Princeton, New Jersey 08540.
