

Another Nine-Story Dormitory Will Rise On South Campus

The second of a pair of high-rise dormitories for women at North Carolina College is scheduled to be occupied in September, 1968.

Bids for construction of the dormitory were opened at 2:30 p.m., Tuesday, July 11, and totaled \$1,119,980. Total cost of the building will be

\$1,360,000.

Participants in the institute traveled to Appalachian State University in Boone to view the new Audiovisual Center facilities.

Construction is expected to begin around September 1, depending in part on the sale of revenue bonds for the building.

The nine-story structure will be the twin of the 400-resident dormitory occupied in September, 1966, by freshman women at the school.

Contracts to be let following the July 11 bid opening are the general contract, electrical contract, plumbing contract, heating and ventilating contract and elevator contract.

Designed by the architectural firm of Harris and Pyne of Durham, the building will consist of nine full stories and a partial basement.

The first floor will contain offices, lounges and special use areas. Other floors will contain dormitory bedrooms.

Bedrooms are specially designed for two occupants. Desks, bookshelves and lighting are arranged for individual study, with study rooms on each floor available for group study.

Two fast elevators will whisk students to and from the ground floor in a matter of seconds.

The dormitory is to be built on George Street, adjacent to the new student union building now under construction. The other high-rise dormitory is just across George Street from the site of the new one.

Features of the dormitory will include individual mail boxes; a spacious, tastefully and colorfully furnished lounge; a social and game room; a study room on each floor containing a blackboard, bulletin board, typing desks, tables and chairs; and a laundry on each floor with coin-operated washer and dryer, plus ironing facilities.

NEW BUILDINGS—Shown above are, at left, Student Union Director Thurman Prescott and Dean of Students John L. Stewart examining blueprints of the new Student Union building being erected near New Residence "400". Behind them is the building under construction. At center is shown the architect's drawing of the new student union, which will replace the temporary student union adjacent to the new dining hall. The new building will house recreational facilities, student government offices, a snack bar, and other services facilities for students. At right the construction job is shown in the beginning stages. An additional dormitory, identical in appearance to New Residence "400" shown in the background, will be built next fall adjacent to the student union building. The new dormitory will also feature the conveniences now available to the freshman residents of "400," including group study rooms on each floor, built-in desks and beds, lounges and social rooms, laundry facilities and other special equipment.

Media Institute Students Examine New Materials

New instructional media, including instructional television and tape recordings, are the subject matter of the NDEA Institute for Advanced Study for Educational Media Specialists in the Audiovisual-Television Center here.

Participating in the institute are 35 teachers and audiovisual coordinators from seven states.

The institute, which began June 12 and ends August 4, divides the participants into five production areas—displays and exhibits, black-and-white photography, color slides and tape recordings, instructional television, and overhead projection transparencies.

Three courses are included in the program, as follows: Selection, Evaluation, and Utilization of New Instructional Media; Organization and Administration of Instructional Materials Centers; and Production of Instructional Materials.

Each course is taught by a team of teachers and teaching assistants under the direction of James E. Parker, director of the Audiovisual-Television Center.

Participants, who are experienced teachers with responsibilities in their respective systems for media instruction, are permitted to earn up to nine semester hours of graduate credit in the course but are not required to take the courses for credit.

Faculty members include Parker; Marvin E. Duncan, assistant director of the Audiovisual-Television Center; Robert F. Fredrickson, University of North Carolina at Greensboro; Dr. Norman C. Johnson, professor of education, NCC; Dr. Glen F. Ovard, Brigham Young University; Christopher M. Roynolds, Knoxville College; Dr. Lowell Thompson, Brigham Young University; and Webster L. Wallace, Virginia State College.

Lecturers

Guest lecturers who have appeared and will appear include Dr. Louis Forsdale, professor of English and principal investigator, Project in Educational Communication, Horace Mann-Lincoln Institute of School Experimentation, Teachers College, Columbia University, discussing 8 millimeter continuous loop film.

Palmer G. Friende, audiovisual director, Winston-Salem/

Forsyth County Schools, discussing city-county media programs; Miss Grace N. Lacy, director of the Cultural Understanding Enrichment project of the Division of Educational Communications, The University of the State of New York, the State Education Department, Albany, New York, discussing the Cultural Understanding Enrichment program and multimedia kits.

Mrs. Inga Millar, director of the Norwegian Productivity Institute, Oslo, Norway, a 1966 jury member of the Venice Film Festival, discussing film evaluation; Thomas F. Pinson, assistant professor of French, NCC, discussing language laboratories; and George Phillips, assistant professor of education and acting director of the Reading Skills Center, NCC, discussing reading skills and reading skills devices.

Five to Return

Five institute participants will spend next year on the NCC campus as members of the Experienced Teacher Fellowship Program. They are Clement V. Adams, Wake Forest High School, Wake Forest, N.C.; Beaufort O. Bailey, P. S. Jones High School, Washington, N.C.; Charles E. Brown, W. G. Pearson School, Durham, N.C.; James L. Bryant, Instructional Material Center, Waynesville, N.C.; Donald LaHuffman, E. E. Smith Senior High School, Fayetteville, N.C.; and James H. Warren, Hillside High School, Durham, N.C.

In 1967-68

16 Experienced Teachers To Attend On Fellowships

Sixteen elementary and secondary school teachers will study from September, 1967, through August, 1968, at North Carolina College under the U. S. Office of Education's Experienced Teacher Fellowship Program for Educational Media Specialists in Schools Predominantly Populated by Disadvantaged Youths.

The teachers will work toward a Master of Arts degree in educational media, under the direction of the NCC Audiovisual-Television Center and the college's Department of Education.

Each fellow will serve internships in the Durham area public schools and in the Audiovisual-Television Center.

Fellows will receive tax-free stipends of \$4,000 for the academic year from September, 1967, to June, 1968, and additional stipends of \$800 for the 1968 summer session.

Additional funds available to the students include allowances of \$600 for each dependent for the academic year and \$120 for the summer session.

The college will receive, in place of tuition and fees, \$2,500 per fellow. James E. Parker, director of the Audiovisual Center and director of the program, said the total budget, including stipends is approximately \$139,200.

The fellows are the following:

Clement V. Adams, Wake

Forest High School, Wake Forest; Beaufort O. Bailey, P. S. Jones High School, Washington; Levy J. Baker, May High and Pine Junior High Schools, Darlington, S.C.; Kenneth B. Brock, Fairbanks North Star Borough School District, Fairbanks, Alaska.

Charles E. Brown, W. G. Pearson Elementary School, Durham; Furney E. Brown, Fuquay Consolidated High School, Fuquay-Varina; James L. Bryant, Haywood County Instructional Material Center, Waynesville; James M. Davis, Havre de Grace High School, Havre de Grace, Md.; Evelyn C. Hall, Washington County Union School, Roper.

Dorothy Lee Jenkins, James Lewis Elementary School, New Orleans, La.; Samuel Reese Johnson, Salsbury Elementary School, Oak City; Donald Waddell La Huffman, E. E. Smith Senior High School, Fayetteville.

Larry N. Nolan, Glyn n Academy, Brunswick, Ga.; James H. Warren, Hillside High School, Durham; Elsie F. Whiteside, Marshall Public School System, Marshall, Tex., and George A. Yorkman, Cherry High School, Baltimore, Md.

Most of the fellows will be on leave of absence from their respective schools and will be under contract to return. A few plan to enter new employment situations in schools with high concentrations of disadvantaged youths.

INSTRUCTIONAL MEDIA—Media Institute students at left prepare display for classroom. At center, a student uses an overhead projector to enlarge an illustration for teaching purposes. At right, two students serve as instructors for other students preparing projection transparencies.
