

College Many Faceted Environment

North Carolina College campus life is many faceted. The college offers the student a variety of curricular and extracurricular experiences. Some of those beyond the formal classroom are exemplified above

(left to right, top): the use of library facilities, a re-dedication to "truth and service" through Founder's Day, experiences in athletics, the offering of programs as the Black Identity Symposium of March (left, cen-

ter), experiences in the scientific laboratories and the use of audio-visual facilities, practice in modern dance, experience in computer operation, (center, bottom), and opportunities to participate in the drama.
