

This 'n' That

Medicine

Medical PDC has lost two valued employees this spring. Kay Montague left in March to accept a position with the Duke Endowment Committee of Educational Institutions. Henry Bertrand left the first of April to assume managership of a Wilson, N. C. clinic.

Surgery

Dr. Robert Keppel has completed his training and gone into private practice in Hickory, N. C.

Medical Records

Welcome to two new employees, Anita Mitchell and Betsy Sellers.

Lena Mae Ellis, Admissions Unit clerk, is recuperating from an appendectomy.

Physical Therapy

The Physical Therapy Department was gratified to receive a grant of \$25,027 from the National Foundation to continue its research in interdisciplinary teaching, research and patient care. This grant will permit expansion of the present program which has been carried on with the

Departments of Neurology and Pediatrics.

Bill Schmidt, who was on the staff last summer, is again working part time. In April Em Villanueva—a 1959 graduate of the Duke University Program in Physical Therapy—will join us after working a year and a half in Puerto Rico.

The department participated again this year in N. C. Physical Therapy Week. Students interested in learning more about the profession attended an all day session on March 22, Physical Therapy Day at Duke. On the 20th, department students appeared on the Peggy Mann TV Show to talk about physical therapy.
