It will be off to the bowling lanes of New Orleans and international competition for Yvonne Ausley, Mary Lou Pate, Polly Jordan, and Mary Ann Lucas when they represent Duke Medical Center this spring in the WIBC Tournament.

It's a Strike for Duke

A city of chicoried-coffee, Creole aristocrats, and Cajun dialect will play host this spring to amateur bowlers from around the world.

The 1966 Woman's International Bowling League National Championship Tournament will be held in New Orleans during April and May.

And, for the first time, the Duke University Medical Center Bowling League will have a team entered in the competition. The five bowlers representing Duke will be: Mary Lou Pate, Assistant Director of Dietetics and captain of the team; Yvonne Ausley, head cashier in the Hospital Business Office; Polly Jordan, payroll clerk in the Maintenance Department; Mary Ann Lucas, secretary in Army Ordnance Research; and Jackie Mitchel, now executive secretary for Tomlinson Co., Inc.

The annual tournament is the top organized competition for amateur bowlers. It is somewhat like an amateur golf tournament in that participants compete in particular divisions and without the benefit of handicaps.

No Alley-bowlers These

An over-all team average of 751 has placed the team in the first division of the tournament. Individually, each member has an average above 150.

As this average would indicate, these are not beginners. Collectively, the five have won 47 trophies. Jackie has eleven to her credit, four first place; Polly can boast of 14, with six for first place; Mary Ann has

five, one first place; Yvonne has received nine, with six for first place; and Mary Lou has eight, with six for first place.

Although the Medical Center is helping to sponsor the team, the girls raised money for travel expenses by selling candy. The five sold 240 cans of candy, which boosted team morale and netted them \$80.

League Founded

The Medical Center Bowling League was organized during the summer of 1960, largely through the efforts of Mary Lou Pate and Laura Eller, both with the Department of Dietetics, and Margaret Stinnett, formerly employed by Dr. Joseph E. Markee. There were 20 charter members. Two are still active with the League—Mary Lou Pate and Yvonne Ausley.

The league is sanctioned by WIBC and is affiliated with the City Association of Durham-Orange County.

Now in its sixth season, the League has 6 teams. The number of teams has not increased since 1962 because there are no extra lanes available at Fairlanes Sportland, where the League is under contract.

If you visit Fairlanes Sportland on a Tuesday night at 6:30, you will notice a pre-dominance of Duke blue wearing apparel, for this is the League's bowling night.

The blue shirts are the same, but there the similarity almost ends. Distinctive team names set the bowlers apart. The 30 members are divided into: the
