

Recruiter

(Continued from page 1)

given him the opportunity to observe nursing in all areas—from surgery to the hyperbaric chamber.

After this recruitment is well underway, he will then branch out into recruiting for other areas.

A native of Glassboro, New Jersey. Mr. McQuade was associated with the American National Insurance Company before coming to Duke. He received an M.A. in School Administration in 1964 at the University of North Carolina at Chapel Hill.

His wife, Jane, is employed in the Department of Biochemistry at U.N.C. The McQuades presently live in Chapel Hill.

New recruiter, Mr. Paul J. McQuade, meets with members of the Nursing Service recruitment committee, Barbara Elwell, Inez James, and Marjorie Hemphill.

PROFESSIONAL NEWS

DR. MADISON S. SPACH, chief cardiologist in Pediatrics, was elected president of the N.C. Heart Association. ● At the 57th annual meeting of the American Association for Cancer Research, held in Denver, DR. JOSEPH W. BEARD reported on results of a series of experiments in which chickens were inoculated with a strain of virus called MC-29. These were the first experimental findings implicating viruses as a cause of cancer of the liver. Dr. Beard is director of the virus-cancer research laboratories and James B. Duke Professor of Surgery and Virology. His findings were reported as he delivered the sixth annual G.H.A. Clowes Memorial Lecture, which honors one of the founders of the AACR. His lecture was entitled "Evolution of Viral Neoplasia: From Hens to Men." ● DR. DAVID C. SABISTON, chairman of the Department of Surgery, gave the George Richardson Lecture at Harvard Medical School and was visiting professor of surgery at the Massachusetts General Hospital. ● It has recently been announced that the Department of Surgery will join a group of other institutions throughout the country in evaluating various new chemotherapeutic drugs in treatment of solid malignant tumors. The program will be under the direction of DR. WILLIAM W. SHINGLETON, chief of the Division of General Surgery, who has participated in similar studies during the past five years. ● The Piedmont Orthopaedic Society, made up of men trained in orthopaedics at Duke, met in Durham during May before going to Puerto Rico for the annual meeting to present a portrait of DR. LENOX D. BAKER, chief of the Division of Orthopaedic Surgery, to the university. The portrait was painted by Rolf Stoll of Lake Worth, Fla. ● Professor of nursing, DR. VIRGINIA STONE, is attending the International Congress on Gerontology in Vienna, Austria. After the congress adjourns on July 17, Dr. Stone will visit Prague and, she hopes, will travel into Russia. Her return trip will be via Amsterdam. Throughout her trip she plans to study the health programs of older people. Others attending the congress from Duke

include Drs. Ewald Busse, Carl Eisdorfer, Walter Obrist, Morton Bogdonoff, Jack Botwinick and Frances C. Jeffers. ● DR. ROBERT J. REEVES, professor and former chairman of the Department of Radiology, was the only Duke faculty member elected this year to membership in Alpha Omega Alpha honorary medical society. Faculty members are elected when their professional attainments ten or more years after graduation justify their election. They may also be elected when they have attained wide recognition in their respective field of medicine. Fourteen medical students were initiated into membership. ● DR. NORBERT B. ENZER, who holds a double appointment in Pediatrics and Psychiatry, presented a paper on the child guidance approach to the multiproblem family at the 93rd Annual Forum of the National Conference on Social Welfare, held in Chicago. ● At the annual meeting of the American College of Obstetricians and Gynecologists, several members of the Duke Medical Center faculty participated: DR. GEORGE WILBANKS, JR., presented a paper; DR. C. D. CHRISTIAN moderated a panel on which DR. YOUNGER, LONG, HUNEYCUTT, and COPELAND were participating; and DR. F. BAYARD CARTER moderated a panel discussion of the topic "What Can We Do to Up-date our Abortion Laws?" ● DR. WALTER B. CHERNY, associate professor of Obstetrics and gynecology, visited Northwest Tennessee Academy of Medicine to deliver a paper. ● GLADYS HART, IDELL PARRISH and HELEN KAISER reported on a pilot program of physical therapy for mentally retarded in the Durham city and county schools at the American Association for Mental Retardation in Chicago. ● A book written by DR. JOHN BUETTNER-JANUSCH, associate professor of anatomy and zoology, has been published by John Wiley and Sons, Inc. of New York. Entitled *Origins of Man*, the book is a synthesis of modern physical anthropology and traces the evolution of man from the time 65 million years ago when the Primate Order split into several families, one of which would eventually include our own modern image. To date the book has been adopted by a number of universities. ● DR. PHILIP HANDLER, chairman of the Department of Biochemistry has been elected to the American Academy of Arts and Sciences. Dr. Handler is on sabbatical leave from Duke until September. In May Dr. Handler attended the 50th anniversary of the Academia
