

Med Students

(continued from page one)

and laboratory sessions and one in clinical work. The third and fourth years are made up of electives in both basic and clinical sciences. First-semester freshman courses include anatomy, physiology, biochemistry, neurological sciences and human behavior.

The four major purposes of the new curriculum, according to Dr. Long, are to provide relief to the overload of information to which medical students have long been subjected, to emphasize methodology and understanding of biological principles, to encourage an attitude of intellectuality and scholarship as a foundation for later learning experiences and to enable a student to make an earlier decision concerning his future career and direct his medical education more specifically to that end.

Included in Duke's new medical class are 12 students enrolled in the unique Medical Scientist Training Program which permits a student to pursue an M.D. degree and a Ph.D. in basic science simultaneously with both degrees awarded within six to seven years. Another freshman has enrolled in the Medical Historian program which provides for an M.D. degree and a Ph.D. in history within a period of approximately six years.

At Duke as elsewhere in the country, more applications were submitted to the medical school than ever before. The trend toward more applicants is expected to continue, according to the report by the Association of American Medical Colleges, because of the rise in the number of Americans in the graduate-school age group, the present Selective Service system and the continued popularity of the health professions.

The Duke Medical Admissions Office reports that applications for next year's class number nearly 100 more than the total at this time last year. Present plans call for continuation of the 86-student limit for the Duke freshman class until more space for classrooms and laboratories is created.

Students in the M.D.-Ph.D. scientist program include Nicholas Theodore Carnevale of Arizona, Paul J. Sides Jr. of Kentucky, Richard Ivan Schiff and Richard Atlee Weisiger of Maryland, Dale LeRoy Kessler of Michigan, Clifford George Andrew of Missouri, Miss Pamela Zoe Bowes of New York, Glenn C. Davis of North Carolina, John Kling Herpel and Lee Alan Sanders of Pennsylvania, John

Medical Technology Class Begins Clinical Practice

Twenty students from 14 states make up this year's class at the Duke University School of Medical Technology.

The trainees, who began their course work in July, are now participating in clinical laboratory rotation through the microbiology, chemistry, hematology and urology laboratories and the blood banks of both the Duke and the Veterans Administration hospitals.

In addition to their laboratory work, the students receive regular lecture and laboratory session in a variety of basic medical science courses. Following completion of the 12-month program, the graduates take the national registry examination and upon passage are certified as registered medical technologists with the American Society of Clinical Pathologists.

The Duke Medical Technology program, reorganized in 1964 under the direction of Dr. Thomas D. Kinney and associate director Dr. A. Wendell Musser,

Faulkner Morrow of Tennessee and Arnold S. Grandis of Virginia.

Taking part in the Medical Historian program is Robert Charles Powell of Florida.

The other medical students and their home states include:

California--Randall George Michel and Donald Michael Pehlke.

Connecticut--David Alan Levitin

Delaware--Clinton Frederick Miller II

Florida--David Ross Garr, George Randolph Robison, Clifford Baynes David Samuel Preston Martin and Miss Nancy Mae Welch.

Georgia--Charles Gettys McClure, John Weston Lane, John Radford McRae, John Walter Starr and Phillip Barnes Woodhall.

Illinois--John Milton Peterson

Indiana--Curt Norman Rausch

Louisiana--Dana Derward Copeland

Maryland--Lawrence Franklin Cohen and Donald Edward Bley

Massachusetts--Edward Matthew McMahon Jr., John Andrew Widness and Neal Gerald Bornstein

Michigan--Mrs. Jean Ellen Spaulding

Missouri--William Bruce Goodman, James Lewis Frey and Walter Jerry Oakes.

New Jersey--John Davis Butts Jr., Edmund George Lundy, John Gererd Migliori and Miss Mona Marlynn Shangold.

New York--Dana Kimball Andersen, Gene

requires applicants to have completed at least three years of college work.

This year's class of 16 women and four men was selected from nearly 60 applicants. "We hope to be able to enlarge the class to 25 as soon as housing space becomes available," Miss Linda Garriss, assistant registrar and instructor, says.

Students in this year's class include Michael Breard of Louisiana, Miss Cammie Cribb and Miss Marjorie Gibson of South Carolina, Miss Carolyn Cruz of Texas, Norman Eller, Willie Newell, Michael Phaup, Miss Jerri Phillips and Miss Frances Prigden of North Carolina, Miss Susan Erickson of Ohio, Mrs. Elizabeth Griffiths of Pennsylvania, Miss Karla Godale of Indiana, Miss Terrie Hazard and Miss Jeannine Smith of Michigan, Mrs. Patti Linkous of Georgia, Miss Barbara Matherly of Arkansas, Miss Wanda Morris of Colorado, Miss Dianna Newsom of Virginia, Miss Nancy Parker of Illinois and Mrs. Signe Roznek of Oklahoma.

S. Gordon, Glenn D. Arvan, David Bernard Jarrett, Morton Hill Levitt, Randolph Horner Lundberg, Mark Howard Pearlman, Glenn Robert Rhodes, Jim Charney, Phillip McKenzie Schmidt and John H. Wittig.

North Carolina--John Charles Alexander Jr., Michael Joseph Andrews Jr., James David Dalton, Charles Cecil Duncan Jr., Miss Susan Jean Engel, John Elmore Lawrence, George Staples Leight Jr., Miss Nancy Jeanette Tribbley, James McLean Love, Kenneth Scott McCarty, William Lyle Oelrich, Henry Baker Perry III and Clifton Cannady Wheeler.

Ohio--Daniel Harris Barco and Terry Lee Hankey

Oklahoma--Gerald Arthur Serwer

Pennsylvania--Miss Mary Kendra Lewis and Jeffrey W. Wilson

Rhode Island--Miss Dale C. Drennan

Tennessee--John Kelter Willis II

Texas--William George Andrade, Laurie Nelson Eckman, Brant Steven Mittler and Harvey Grant Taylor

Virginia--David Stevens Forth, John Constantine Gretes, Robert Sheldon Rixse and William Alan Somers

West Virginia--Thomas McConnell Ewald, Robert William Childs and David Kenton Wellman

Hong Kong--Tai Po Tschang
