

Medical Center Renovation

Wards

WARDS REFURBISHED—Workmen are continuing renovation of Strudwick ward. Cabell, which has just reopened, along with Drake, Holmes, Meyer and Welch, was also upgraded under the current hospital renovation program.

Bank

IN FIRST STAGES—The area for the proposed branch bank to be located near the lobby where the old snack bar used to be is presently undergoing renovation. When completed, the bank will provide regular banking services for hospital personnel.

Hammers are clanging and saws are buzzing around the medical center as renovation of hospital areas continues.

Facilities included range from a new branch bank near the hospital lobby to several of the patient wards.

Ten of the projects were grouped into one program called Renovation I. All were completed by one architect and contractor and the total price tag is approximately \$1 million.

Included in Renovation I were clinics, wards and labs in addition to the new bank and the chapel. The renovations were begun earlier this year.

Drake, Cabell, Holmes, Meyer and Welch wards made up a large part of this project. Strudwick ward, where electricians, painters and others are still at work, was redone under a separate \$65,000 contract.

Work on the wards included refurbishing and upgrading most of the present facilities. Patient bathrooms were redone and all areas were painted. In addition, wall-mounted TV sets were installed, new communications systems set up and new oxygen and vacuum connections were provided in all areas.

The branch bank, located where the old snack bar by the lobby used to be, is in the first stages of renovation. When completed, the bank will provide all

(This is the first article in a four-part series around the medical center.)

NEW FACILITIES FOR STUDENT NURSE headquarters, was renovated to provide new facilities. Student activity rooms were also redone.
