DR. EISDORFER

Eisdorfer Given Kleemeier Prize

For the second year in a row, a Duke professor has been named recipient of the Kleemeier Award from the Gerontological Society of the United States.

Dr. Carl Eisdorfer, professor of medical psychology and psychiatry and research coordinator and training director in Duke's Center for the Study of Aging, received the prize at the International Congress of Gerontology in Washington, D. C., last month.

Dr. Ewald W. Busse, professor and chairman of the Department of Psychiatry was the recipient of the first annual Kleemeier Award last year for his outstanding contributions to research in the field of aging.

Dr. Eisdorfer received an engraved Steuben star crystal and a cash award and delivered an address on a subject pertinent to his research at the meeting.

A native of New York City, Dr. Eisdorfer received his B. A., M. A., and Ph. D. degrees from New York University and his M. D. degree from Duke.

Dr. Helen Kotin, assistant to the vice president, research coordination

Dr. Kinney is a graduate of Duke, receiving his M. D. degree in 1937. He earned his bachelor's degree at the University of Pennsylvania.

Following teaching and hospital appointments at Yale, Boston University, Tufts and Harvard, Dr. Kinney was named professor of pathology at Western Reserve University until he came to Duke in 1960. In 1967, he was named the first R. J. Reynolds Tobacco Company Professor at Duke.

Author of more than 100 scientific papers and articles, Dr. Kinney is editor of the *American Journal of Pathology*, the official monthly publication of the American Association of Pathologists and Bacteriologists. He is a member of numerous medical organizations and professional societies relating to his specialty and is past president of the American Association of Pathologists and Bacteriologists.

He is principal consultant in pathology for the National Institute of General Medical Sciences of the National Institutes of Health, and is chairman of the Advisory Council on Pathology of the U. S. Veterans Administration. He is a member of the committee on pathology of the National Academy of Sciences, National Research Council, and is vice-president of Universities Associated for Research and Education in Pathology, and has recently been named chairman of the Automation in Medical Laboratory Sciences Review Committee of the National Institutes of Health.

Dr. Kinney has been active in developing medical education. He participated in the development of Duke University's new M. D. - Ph. D. Program and the new curriculum that has been widely praised by the medical profession. During the past year he helped organize and served as chairman of the National Conference on Graduate Medical Education which was sponsored by the Council of Academic Societies of the Association of American Medical Colleges. He is a member of the Executive Council of the Association of American Medical Colleges and past president of the Council of Academic Societies.

Mrs. Kinney, who holds a master's degree in nursing from Yale and a Ph. D. in microbiology, is an assistant professor of nursing at the University of North Carolina. The Kinneys have four children.

MR. AYLOR

O. R. Aylor Is Assistant DH Director

Duke Hospital has appointed a new assistant director.

Oscar R. Aylor, who recently completed his master's degree in hospital administration at the University of Alabama, assumed his position earlier this month. He is responsible for the operation of Duke's extensive outpatient department, emergency rooms and other out-of-hospital activities.

Mr. Aylor replaces Howard Veit, who left the Medical Center in April to take a research position with the federal Department of Health, Education and Welfare.

Specially trained in rehabilitation facility administration, Mr. Aylor served his administrative residency at Montgomery Baptist Hospital and Meadhaven Nursing Home and Central Alabama Rehabilitation Center in Montgomery. He received his B. A. degree from the University of Virginia in 1962.

Prior to his graduate training, Mr. Aylor was an instructor in the special education department of the Lynchburg, Va., city schools and was later an administrative assistant at Virginia Baptist Hospital in Lynchburg.

He is a member of the American Hospital Association, the National Rehabilitation Association and a nominee of the American College of Hospital Administrators.

Mr. Aylor is married and the father of two children.
