APRIL 23--Dr. John H. Knowles, General Director Massachusetts General Hospital, Boston, Massachusetts

APRIL 30--The Honorable Nick Galifianakis, Congress of the United States House of Representatives, Washington, D. C.

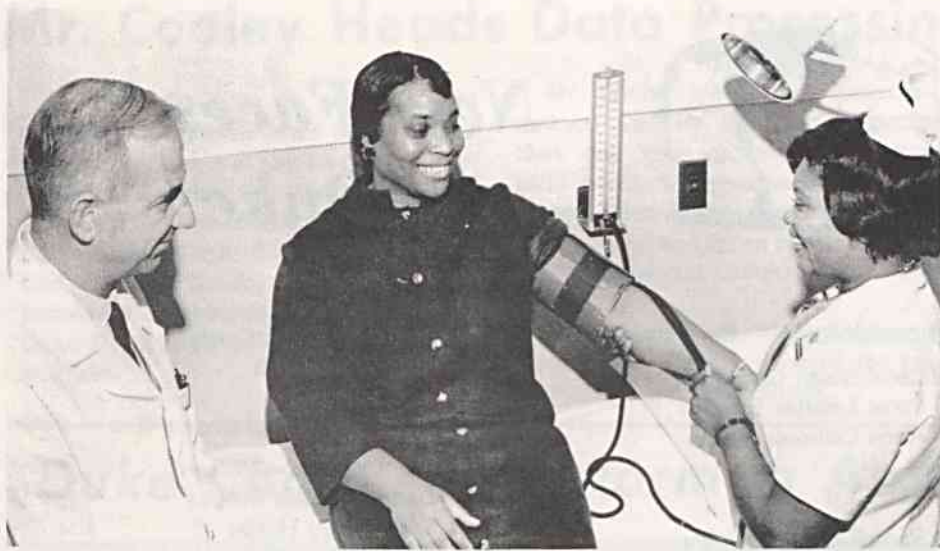

MAY 7--Mr. Julian Bond, Representative, State House of Representatives, State of Georgia, Atlanta, Georgia

Nurses Participate In Building Project

Registered nurses from District II of the North Carolina State Nurses Association are selling a variety of items to raise money to build a new state organization headquarters in Raleigh.

Nurses at Duke are offering stationery, recipe cards, cookbooks, stockings, and slippers for sale to anyone in the Medical Center.

If you are interested in seeing or purchasing any of these items for yourself or as a gift, contact Miss Evelyn Morgan on Rankin Ward, extension 2551 or 2554, or 3061.

PART OF THE EXAMINATION—Dr. Siegfried Heyden of Duke watches as Mrs. Mary Pointer, R. N., takes the blood pressure of Mrs. Adarene Jones of Durham. Mrs. Jones was a recent participant in the cancer detection clinic set up through the cooperation of Duke, Lincoln Hospital, and Operation Breakthrough. (photo by Dave Hooks)

Groups Cooperate in Cancer Clinic

A Duke physician, Lincoln Hospital personnel and seven members of Operation Breakthrough are working together to provide a free twice-weekly cancer detection clinic.

Held at Lincoln Hospital each Monday

Duke Auxilians Hold Workshop

Thirty-six members of the Duke Hospital Auxiliary attended the organization's first workshop at the Medical Center February 4.

The aim of the morning-long session, according to Auxiliary President Mrs. George Maddox, was to explain fully the goals and operation of the group to the members and hence develop more dedication and enthusiasm.

Auxiliary officers spoke to the group about membership, leadership, finances, projects, programs, and communications during the session.

The workshop was followed by a luncheon at the hospital.

Taking part in the program in addition to Mrs. Maddox were Mrs. Roland Wilkins, Mrs. H. Shelton Smith, Mrs. John Everett, Mrs. Harold Silberman, Mrs. Theodore Minah, Mrs. Samuel Wiley, Mrs. Alan Manchester, and Mrs. Charles Daugherty.

from 5 to 8 p.m. and each Thursday from 3 to 6 p.m., the clinic offers a free checkup for anyone. As part of the screening, each visitor receives a chest X-ray to reveal any signs of lung cancer, heart enlargement and tuberculosis.

The Durham County Health Department performs and covers the cost of the X-ray and laboratory work.

Dr. D. T. Moore, chief of obstetrics and gynecology at Lincoln; Dr. E. L. White, house officer at Lincoln, and Mrs. Mary Pointer, a registered nurse, are assisted by Dr. Siegfried Heyden, associate professor and head of the division of epidemiology at Duke.

The members of Operation Breakthrough are carrying the message of the clinic to the community by informing citizens that the free clinic is available to anyone.

The seven are Mrs. Bedine Wells, Mrs. Pearl Williams, and Mrs. Inez Gooch, health associates; Mrs. Rosa Lyons, Mrs. Doris McMillan, and Mrs. Shirley Thompson, health assistants; and Mrs. Louise Rend, coordinator of Operation Breakthrough's health program.

The physicians urge citizens to participate in the clinic since many of the cancer deaths reported in the U. S. each year could be prevented through early detection.
