## Provost Announces

# 41 Faculty Named at Med Center

Three full professors, three associate professors, and 35 assistant professors have been named to the Medical Center faculty.

They were announced by Duke Provost John O. Blackburn.

The full professorship appointments came in the School of Nursing, the Department of Physiology-Pharmacology, and the Department of Radiology.

Dr. Ruby L. Wilson has been appointed professor of nursing. She recently returned to the United States after a stay in Thailand where she helped to organize a new teaching hospital at the University of Mahidol in Bangkok.

She earned her nursing diploma from Allegheny General Hospital in Pittsburgh, Pa., in 1951 and her B.S. degree from the University of Pittsburgh in 1954.

She later completed work for her master's degree at Case Western Reserve University in Cleveland and her doctorate in education at Duke.

In the Department of Physiology-Pharmacology, Dr. Leon Lack was promoted from associate professor to professor.

A native of Brooklyn, N.Y., Dr. Lack earned his B.A. degree from Brooklyn College, his M.D. from Michigan State and his Ph.D. in biochemistry from Columbia University.

He came to Duke for the first time as a postdoctoral fellow in 1953. After teaching at the Johns Hopkins Medical School in Baltimore for several years, he returned to Duke in 1964 and was named associate professor in 1966.

Dr. Fearghus O'Foghludha was named professor of radiology in the radiation physics division.

Dr. O'Foghludha earned his B.Sc., M.Sc., and Ph.D. degrees from the National University of Ireland. He taught at University College in Dublin before moving to a post as professor and

chairman of the radiation physics division at the Medical College of Virginia in Richmond.

Associate professors were named in the departments of biochemistry—genetics, community health sciences, and physiology-pharmacology.

In biochemistry, Dr. Robert E. Webster was appointed associate professor from a post as an assistant professor in the Department of Genetics at the Rockefeller University in New York City.

He has a B.A. degree in biology from Amherst College in Massachusetts and a Ph.D. in microbiology from Duke.

Dr. Robert A. Gregg, an associate professor of physical medicine at Duke since 1961, has been named associate professor of community health sciences in rehabilitation.

Dr. Gregg attended the Citadel in Charleston, S.C., and Yale University before completing his M.D. at the Medical

College of South Carolina in 1948. He was formerly medical director of the Central Carolina Rehabilitation Hospital in Greensboro.

Dr. J. O. Weith of the Department of Biophysics at the University of Copenhagen in Denmark has been named visiting associate professor of physiology for this academic year.

Dr. Weith completed pre-clinical medical work at the University of Copenhagen and received his M.D. degree from the University of Aarhus in Denmark. He has done research work in the field of cell physiology.

The 35 assistant professorships came in the School of Nursing, the departments of anatomy, biochemistry-genetics, community health sciences, medicine, microbiology-immunology, obstetrics-gynecology, ophthalmology, pathology, pediatrics, physical therapy, physiology-pharmacology, psychiatry, radiology, and surgery, and the divisions
