VOLUME 18, NUMBER 31

AUGUST 13, 1971

DURHAM, NORTH CAROLINA

COMPLETE INTERNSHIP PROGRAM—Twelve dietetic interns will complete their one-year program on August 27 at the Medical Center. The interns, all of whom have bachelor's degrees in foods and nutrition or institution management, will then be eligible for membership in the American Dietetic Association. The internship program is designed to promote personal and professional growth as well as to develop professional competency and leadership ability in the area of therapeutic and normal nutrition. The new graduates, from left to right, are Sharon O'Quinn, Deborah Waterman, Jo Ann Clower, Linda Rushing, Linda Kelley, Gloria Lemeske (back), Mary Ann Boland, Ann Leak, Elizabeth Davenport, Pam Shoaf, Linda Turley, and Jean Pharr. Seventeen Appointed to Faculty

Seventeen new assistant professors have been named at the Medical Center, including eight in the Department of Medicine.

The announcement came from Duke Provost Dr. John O. Blackburn.

Named assistant professors of medicine were Dr. Robert J. Bache, formerly a fellow in cardiology at the University of Minnesota; Dr. Stephen I. Chavin, who comes to Duke from a postdoctoral research fellowship in biochemistry at the University of Bristol, England; Dr. George J. Ellis, III, an associate in the Department of Medicine at Duke and Dr. John T. Garbutt, also a

Duke associate in medicine.

Other new assistant professors in the Department of Medicine are Dr. Charles M. Mansbach, II, an associate in medicine at Duke and head of the division of gastroenterology at the Durham Veterans Administration Hospital; Dr. Donald S. Miller, associate in medicine and clinical pharmacologist for Duke's clinical cancer research unit; Dr. Francis A. Neelon, a former chief resident and later associate in medicine at Duke; and Dr. William E. Yarger, who just completed a special research fellowship at New York University.

Visitor- Employee Parking Garage Gets Go Ahead

A bit of relief is in sight for frustrated patients and visitors who can't seem to find a parking place when they come to the Medical Center.

Plans have been announced for a 1,200 car parking garage, to be built on the site of the present Visitors' Parking Lot, which will include some spaces for employee cars.

The 220,000 sq. ft. building, constructed with traditional Hillsborough stone and concrete, will have two levels above the ground. The ground floor will hold about 450 cars with about 380 places on each of the upper two levels. Both elevators and stairs will be provided for users of the lot.

According to present plans, part or possibly all of the top floor will be available to certain Medical Center personnel on a rental basis once the garage is completed. Details about who will be able to park in the garage and what the cost will be have not yet been decided.

The Nellö Teer Co., general contractor for the \$2 million structure, should begin work on the project in September. The first phase will be completed in December and the entire project should open next spring, probably in April.

(See related story about parking on page two.)

Marshall Fowler, the Medical Center fire marshal, announced last week that fire drills may now be called anywhere in the Hospital at any time of the day or night.

Previously drills had been scheduled for certain days of the week.
