OCTOBER 22, 1971

DURHAM, NORTH CAROLINA

11 Faculty Changes Announced

OFFICIAL HANDSHAKE—Dr. Carl Eisdorfer, center, director of Duke's Center for the Study of Aging and Human Development, is congratulated by John D. Twiname, administrator of the Social and Rehabilitation Service of the Department of Health, Education, and Welfare, on Dr. Eisdorfer's appointment to the national Advisory Committee on Older Americans. At left is John B. Martin, U.S. commissioner and special assistant to the President for aging, who was a recent visitor to Duke. *(photo courtesy of Department of HEW)*

Richard Hayes Named To Position In Hospital's Development Office

Richard B. Hayes, corporate relations officer for Duke University's Office of Development for the past two years, has been named assistant director of development for health affairs.

Mr. Hayes' appointment, making him responsible for fund raising and development at the Medical Center, was announced by Director of Development J. David Ross.

The assistant directorship for health affairs previously was held by William G. (Gerry) Hancock, who has joined the campaign staff of gubernatorial candidate Sen. Hargrove Bowles.

A native of Sanford, Mr. Hayes received a bachelor's degree in business administration at the University of North

MR. HAYES

Three Duke Medical Center departments have added new members to their faculties and promoted others.

The appointments and promotions, 11 in all, were announced earlier this month by Duke Provost Frederic N. Cleaveland for the departments of pediatrics, psychiatry, and radiology.

Two men were promoted to full professor, while one other was named associate professor and the rest became assistant professors.

The two full professors are Dr. Jack K. Goodrich, director of the division of nuclear medicine in the Department of Radiology, and Dr. F. Stanley Porter, a hematologist in the Department of Pediatrics.

Dr. Goodrich, a graduate of the University of Tennessee School of Medicine, has been on the Duke faculty as an associate professor since 1965.

He did postgraduate study at Methodist Hospital in Memphis and at the Alton Ochsner Medical Foundation in New Orleans. Prior to his appointment at Duke, Dr. Goodrich was on the faculty of the University of Mississippi School of Medicine.

Dr. Porter, a graduate of Princeton University and the Johns Hopkins School of Medicine, came to Duke in 1964 as an associate professor.

Following an internship and residency at Johns Hopkins, he did a two-year fellowship in hematology at Children's Hospital in Boston. He had previously been on the faculty at Harvard Medical School and the University of Arkansas Medical Center.

Promoted to associate professor in the Department of Pediatrics was Dr. John F. Griffith, who retains a post as assistant professor of medicine.

A native of Canada, Dr. Griffith received both his undergraduate and medical education at the University of Saskatchewan. After an internship and
