VOLUME 18, NUMBER 45

DECEMBER 3, 1971

DURHAM, NORTH CAROLINA

Paul Vick Thanks U.F. Contributors

"We want to thank the many, many Medical Center employees who helped us with the United Fund drive this year," Paul Vick, Duke coordinator of special events and chairman of the 1971 UF drive, told *Intercom*.

Medical Center employees contributed \$31,230.78 toward Durham's goal of \$670,000. The city actually collected some \$694,000.

Mr. Vick singled out James L. Bennett, Jr., executive assistant to the vice-president for health affairs, for his help coordinating the Medical Center's portion of the 1971 United Fund campaign.

He also expressed thanks to Drs. George Brumley, Norman Conant, and William Peete for their help in contacting all members of the Medical Center faculty and staff.

"There are many other people who helped us reach bi-weekly employees in each department," he added, "and we want to thank them for it publicly."

Mr. Vick said that three Medical Center departments contributed about twice their expected goal. They were the bi-weekly employees on the General Surgical Unit, the bi-weekly employees in the Print Shop, and both staff and bi-weekly employees in the Pharmacy.

Other Medical Center departments surpassing their goal for contributions included the following:

Anatomy—monthly and bi-weekly employees; *Microbiology*—monthly employees; *Biochemistry*—monthly and bi-weekly employees; *Pediatrics*—monthly and bi-weekly employees; *Pathology*—monthly employees; *Anesthesiology*—monthly and bi-weekly employees; *Surgery*—bi-weekly employees; *Medicine*—bi-weekly employees; *Ob-Gyn*—bi-weekly employees; *Ophthalmology*—monthly and bi-weekly employees; *Undergraduate Medical Education*—monthly employees; *Community Health Sciences*—monthly and bi-weekly employees; *Clinical*

UPGRADED—Sixteen employees are now PCA III's after successfully taking an intensive five-week training program. RN's Cynthia McCaskill and Inez James taught the classroom section of the program, while clinical preceptors on the employees' units gave them practical instruction. The employees were given certificates at an awards ceremony and reception Nov. 12. From left to right, first row, are Frances Pickett, Myrtle Spears, Castoria Patterson, Gladys Williams, Hazel Parker, Rosa Bass, Alice Barbee, and James Hart. Second row: Velvet Webb, Christine Strudwick, Beverly Stroud, Catherine Hannah, Gloria Minor, Barbara Fletcher, William Parker, and William Perry. (photo by Phyllis Cole)

Lindsay Fills Allied Health Post

Duke Medical Center has named a new associate director of medical and allied health education.

He is Dr. Dale R. Lindsay, associate commissioner for science with the federal Food and Drug Administration. In that position, which he has held since 1969, Dr.

Lindsay is the principal scientist advisor to the commissioner of the FDA.

His appointment was effective this week. Dr. Lindsay will be responsible to Dr. Thomas D. Kinney, director of medical and allied health education.

Dr. Lindsay will assume, among other duties, the allied health functions which have been the responsibility of Dr. Roger J. Bulger. Dr. Bulger will become the executive officer of the new Institute of

Medicine of the National Academy of Sciences. Dr. Bulger will serve as deputy to the president of the 110-member institute, which is an advisory group to the general public on major health care issues.

Dr. Lindsay, a native of Bunker Hill, Kan., received his A. B. degree in 1937 from the University of Kansas and his M. A. there the following year. In 1943 he earned his doctorate in entomology at Iowa State College.

From 1943-53 Dr. Lindsay was a medical entomologist for the U. S. Public Health Service. During that period he was in charge of the Communicable Disease Center activities in Pharr, Tex., and Thomasville, Ga.

For the next 10 years, he worked in the National Institute of Health's Division of Research Grants and rose to chief of
