

"We specialize in hands and heads," says Sarah McLain, Deborah Sibbett, and Wanda Causey.

Technical Programs Plans

"The main purpose of the Technical Program here at SCC is to provide an occupational education for the students and prepare students for various job skills," according to George Howard, Dean of the Technical

There are two sections in the Technical Program. They are vocational and technical. For a student to receive a degree from the vocational section, he must attend school for twelve months (in consecutive quarters.)

The requirement of a technical student is eighteen months or two school year terms. Anassociate and Applied Science degree will be given to the technical stu-

Courses available for students in vocational and technical fields are automechanics, welding, TV and radio repair, practical nursing, cosmetology, business administration, accounting, executive secretary, legal secretary, medical secretary, and technical nursing (R.N.). Cosme-

Nursing News

The nurse of today serves as a key figure in a team of health workers. Since she is in close relationship with the patient, she coordinates services of the various groups in order to meet and understand the needs of each of her patients as an individual. Here at S.C.C. the A.D.N. program is in its second year.
The second year class is broadening its horizons to include pediatric and surgical care. In November the nineteen students will affilitate at Cherry State Hospital in Goldsboro for their psychiatric experience. They are a busy, energetic group who see graduation in June as a long sought after entrance into a professional career in service to others. The first year class is composed of twentyladies. from Fairmont, Lumberton, Whiteville, Dunn, Chadbourn, Nakina and one student. Barbera Bolton'is from New Jersey. They are enthusatic and find the program interesting, as well as, callenging. One student, Elizabeth Ann Ward from Nakina finds "no other school can compare to S.C.C." Most of the students have entered the A.D.N. program because of their desire to help other people.

The nursing program incorporates some of the newer trends in nursing education. The emphasis is on competent nursing based on skill and technique and applying interpersonal relationships and skills. In the L.P.N. program the second year class has begun with fifteen new students. These ladies represent Columbus, Robeson and Bladen counties. They are busy learn-ing the basic fundamentals of patient care and will soon be applying these principles at Co-lumbus County Hospital where they will have their clinical experience.

tology is a new course added to the vocational field this year.

"Since there is a building set aside for the technical program, the students and instructors felt very much a part of the college program. This is to the advantage to instructors and students," added Dean Howard.

Total enrollment in these courses, both day and night, make up 40% of the entire college enrollment. There are 158 students enrolled in the FTE program and 132 in the vocations. tional program.

Southeastern had three other vocational programs in progress away from the building. A stenographer's class in Elizabethtown, a sewing machine mechanics course in Chadbourn, and an auto mechanics course in Tabor City are these three courses. All of these course graduates will receive a vocational certificate from Southeastern.

Cosmetology, a new course, has helped in the increase of students in he technical program. There are fifteen students in the course. Technical nursing now has a sophomore class. Welding, auto mechanics, and TV -Radio repair have all increased by five students per

Girls Volleyball Intramurals Begin

Volleyball Intramurals for freshman and sophomore girls began on Oct. 16 according to Mrs. Sondra Nobles, Girls' P.E. Instructor. These games will be played on Monday and Wednes-

day afternoons at 4:30.
Sixty-six girls have signed up to participate in these games. Eight teams, six freshman and two sophomore, will play against each other in a single elimination tournament. Eight girls compose each team.

The girls on each team chose names for their particular team. Teams playing against each other in the first round are: Outer Bounds vs Dixie Darlings, Pop Tarts vs Volley Trotters, Clumsy Eight vs Push-Ups, and Glory-Seekers vs Rotations. The win-ners of the first game will play the winners of the second in the first match. The victorious team in this match will play the winners of the first and second games in the second match for the championship. All of the girls on the championship team will be given individual awards.

Won't it be interesting to see if the Dixie Darlings dixie over the Outer Bounds, the Pop Tarts pop on the Volley Trotters, the Clumsy Eight push the Push-Ups, and the Glory-Seekers rotate the Rotations?

Girls Bowling League Formed

Formation of a bowling league between the cosmotology and nursing students was announced by Mrs. Sondra Nobles, Girls' P.E. Instructor. Thirty-two girls will participate in this event. Two leagues, composed of six-teen girls will play against each other. These two leagues will also consist of eight teams with four girls on a team.

Games will be bowled on Monday nights at the 701 Bowling Alley. All interested persons are invited to watch these games each Monday night.

Mrs. Nobles would again like to emphasize the fact that anyone interested in starting other intramurals is invited to discuss their ideas with her.

The musical four! Linda Page, Roy Herring, Bill Glisson, and Larry Rooks sit and stand around the piano discussing chorus plans.

SCC Soccer Team Debuts Loose First Game

Southeastern's newly established soccer team went after the best and came out losers as they fought to a 0-3 loss to Wingate College in their first intercollegiate game in the history of the school.

Coming out on the field, the Rams showed extreme school spirit and attacked their foe with

confidence.

From the starting whistle the Rams showed hustle as Red Ward intercepted a pass and started a drive which the Wingate defense turned away.

Harry Foley was the offensive leader for SCC, but the former All-European could not penetrate the defense set up by the Wingate Bulldogs.

The Bulldogs set a four man front line with three halfbacks and three fullbacks causing extreme traffic in the middle in front of the goal.

Defense by the Rams was superb as they turned away shot after shot by the Bulldogs.
Rowland Phillips was the de-

fensive star as he turned away twenty-three shots by the opposition. The three goals scored by Wingate came in the second, third, and fourth quarters. They went in when a traffic jam formed in front of the goal and Phillips was unable to see the ball.

Bob Andrews and David Heath were also outstanding as defense as fullbacks. Many times the opposition would approach the goal only to be kicked out by the two fullbacks.

Others outstanding on defense were John Pfaff, Rudi Perkins, Greg Lane, Mike Johnson, and Marcus Rogers.

Right wing Robert Fuller suffered injuries in the fourth quarter when he was tripped. He suffered severed tendons.

The starting line-up was Rowland Phillips, Goalie; Bob Andrews, right fullback; David Heath, left fullback; Rudi Perkins, right halfback; John Pfaff, center halfback; Larry Reynolds, left halfback; Robert Fuller, right wing; Red Ward, right forward; Harry Foley, center forward; Henry Edmonds, left wing; and Tom Rothrock, left forward.

Substitutes were Mike Johnson, Larry Nance, Marcus Rogers,

Film Series Begins

Southeastern's Fine Arts Series presents each year a series of free movies for students and interested persons in the college community.

November 13--Hud January 15--Forbidden Games February 12--An American in Paris March 18--A Patch of Blue April 15--Rebecca May 13--Therese Desqueyroux June 12--Three Coins In A Fountain July 24--Shane September 4--Breakfast at Tiffany's

The Mouse That Roared, which was originally scheduled for showing on September 18, will be shown in January.
