SOUTHEASTERN COMMUNITY COLLEGE

1971

To inform students of activities and entertainment.
Students need some way to communicate and thus the newspaper is a very good way!

To inform the students about what's going on.

So students will be able to work in some way to be active in the school.

A student paper has the selective hard job of keeping up with the kids and letting the kids keep up with each other.

The use and purpose of the paper is to show people what's going on in the school or the way we gotta have one to satisfy the kids who are craving for knowledge and new ideas. It's good for wrapping fish in too. n.l.b.

The student newspaper's duty to S.C.C. is to keep the staff and students informed about activities at S.C.C.

The student newspaper enables the students to publish their feelings about almost anything. It is also helpful in keeping the students + staff well informed.

To inform the students of past events, to stimulate good by voicing your opinion.

It's the the fastest media to get to all the students.

I feel the duty of a student newspaper is to relate, inform and help students learn things about the campus.

We should have one because, seemingly, it helps students to enjoy the school more. It's kinda fun reading about the fine things that happens around.

It should be interesting, informing and creative.

To project the opinions and ideas of the students as well as report important events of the school. To provide an outlet for the students to their voice will be heard

To be interesting + inform people of what's going on, so everyone can find out what's going on + get involved
