

# Bored Stiff?

Things are changing. The jukebox, for example, used to charge 15 cents a play and two for a quarter. Now, it's 10 cents a play and three records for a quarter. Why was it changed? Because a few students cared enough to let the college administration know how they felt about the prices.

This year for the first time, we're having a yearbook. Why? Because a few students cared enough to express their opinion and work on a committee to organize it.

There are probably students who feel there is nothing to do at SCC. If students want things changed they have to let somebody know.

A large number of students ran for student government senator but only about ten people showed up their installation and an open forum held for all SCC students to suggest ideas or complain.

Reduced rates are available at the Whiteville Bowling Lanes for SCC students—50 cents a game and free shoes.

As a student at SCC, you may not be aware of the activities going on. Whose fault is that? Do you skip reading the weekly bulletins and posters on campus and the paper because you feel nothing is going to happen? Then you're missing out. You are entitled as a member of the Student Government Association (includes all students who have paid student activity fee) to certain privileges and if you feel some changes need to be made let an SGA officer or senator know. If you're bored stiff with SCC, it's your own fault.

## You Have To Care

On September 22, 1971, eight new senators were added to the Student Senate. These officers were elected by their fellow students to represent the Freshman at the college. The election went as most have at the college, the candidates campaigned and worked hard to win the largest amount of votes. Everyone in the SDC, everyone who was in the Senate already (Sophomore Senators), and especially the officers and sponsors of the SGA were anticipating the outcome. All of these people look an active part in the election. The entire school was concerned, except for one group that usually remains in the background at most SCC gatherings; the students themselves. This reporter would like to go on record as saying that we have one of the best Student Senates around and believe me, I am thankful. I don't know exactly who to be thankful to because with so few people voting it's pure luck to come up with really responsible personnel.

On a day that every student should try to make it to an SCC gathering, Stump Day; a day when they are able to face the candidates and hear them speak so that they could size them up, there were 46 students present. There were nearly that many candidates and campaign managers there to speak.

To really close this election season with a strong lock on the day when the officers were installed in their offices,

a general meeting of the entire SGA (Student Government Association - every student - in case anyone doesn't know what SGA means) was held to inform the new members of their jobs and responsibilities and to allow the students to meet their senators.

On that day the reporter was a few minutes late arriving to cover the story, but it didn't much matter, there's not much to tell.

You see, to have a story there is a need for news and for news you need concern, and for concern you need concerned people. The students make the news. So, some good people were installed in office; what's that unless the students care.

Here is a list of your new senators: College Parallel; Paula Thompson, Tony Greer, Mary Ann Strickland and Pat Wooten Technical; Rachel Barnes, and Kathy Britt, Vocational; Peggy Dennis and Barbara Gore.

Please meet these people and tell them whatever you have on your mind. They want to help you help SCC so SCC can better serve all of us. First you have to care.

Mrs. Balogh

MR. KATSUMI IWAKA

Dr. Cottingham
