

Boosters' Club Shows Up Well In Initial Program Given Here Saturday Night

PURPOSE IS GOOD

Program Attended by Students and Faculty Members. Large Audience Present.

GYM. MEN DO FINE WORK

Prof. Barney Speaks on "Why We Go To College," Spiced With Wit and Humor.

The Boosters' Club began its program Saturday night of last week when it held its initial entertainment at home in the Whitley auditorium. This program was well attended by the students and faculty members, and was enthusiastically received.

While the program was more or less tentative and some substitutions were necessary for that particular night, the program clearly demonstrated that it was built upon the basis of its appeal to high school students, for which purpose it was primarily designed.

Following the engagement here the Boosters' program was given at Gibsonville Tuesday night, where it received a hearty reception. Thursday night of this week the members of the club go to the Alamance High School near Greensboro, where an alumnus of the college, Prof. O. C. Johnson, is principal, to give their program, and next week three engagements are scheduled for the boys, Monday night at Mebane, Wednesday night at the Altamahaw-Ossipee High School, and on Friday at Haw River.

The program as given Saturday night here consisted of two major divisions, the first part consisting mainly of music and the second part of gymnastic stunts.

The orchestra of nine men rendered six selections, and for an encore the college song. Their number "Uncle Tom's Cabin," was especially enjoyed by the audience.

The reading by Miss Mary E. Scully and the vocal solo by Gordon Crymes were interesting and appreciated items of the program. Leon Williams, M. G. Stanley and F. K. Thomas, composing the trio rendered four selections which bore the titles of Southern and romantic melodies, and which were well rendered.

Professor Barney added humor and wit to the program in his speech on "Why We Go To College."

But the number which probably drew the most attention was the performance of the gymnasium team, represented by F. K. Thomas, F. L. Gibbs, Milton Wicker, and T. R. Ruston. They were masters at the art of pyramid building, and the tumbling and stunts were well presented, as was also the work on the horse. Especially did the students evidence an interest in the pyramid building of the gym team as they had not had the opportunity before to see this type of gymnasium work.

The orchestra consisted of the following members of the club: W. N. Huff, B. W. Everett, J. N. Denton, Gordon Crymes, Burnett Johnson, Harold Barney, T. R. Ruston, Milton Wicker, and Fred H. Prescott.

Taken as a whole the program of the Boosters' Club as presented here Saturday night showed that it will meet with a splendid success in high school communities, and will encourage on the part of prospective college students a desire to attend college and avail themselves of the many and varied activities of the campus.

HALLOWE'EN PARTY TO BE GIVEN HERE FRIDAY

Hallowe'en will be celebrated at Elon Friday night. The Religious Activities Organization with the assistance of Mrs. Ring is planning a good time for the students and faculty.

The party will be held in the boys' gymnasium at 7:30 p. m. All who attend are urged to mask and wear costumes. However all are wanted regardless of this.

A good program consisting of games, stunts, marches, speeches, and refreshments is being planned. Prizes will be given for the best costumes. A good time is promised to all those who attend.

ELON-TRINITY GAME AT TRINITY ON SATURDAY

Get That Old Elon Pep. On To Trinity Saturday!

Elon will play Trinity College Saturday at Trinity in their annual gridiron clash. Elon has been having pretty tough going this season so far. The team is practically new and many of the men suffered severe injuries in the games played recently.

However this game promises to be hard fought for the two institutions are keen rivals. Elon is doped to lose heavily and it is true the odds are against her, but dope has been upset before.

Many Elon students are planning to go to Trinity and back their team in this fight.

Miss Thelma Taylor spent the week-end in Norfolk, Va., with friends.

PRESS ASSOCIATION TO MEET IN GREENSBORO

Meets at G. C. W. for Three-Day Session. Terrell, Wicker and Gordon Will Attend.

The North Carolina Collegiate Press Association is to hold its fall session at Greensboro College on October 30, 31, and November 1.

This association is composed of the college publications of eighteen of the leading colleges and the university of the state. It meets semi-annually. Maroon and Gold entertained this body at Elon in its 1924 spring session.

W. B. Terrell, M. G. Wicker and Clyde Gordon will represent Maroon and Gold at this meeting. Mr. Terrell is vice-president of the Association. A good meeting is promised and a splendid program has been arranged. The first session will be held Thursday night.

Miss Margaret Grissom spent the week-end at her home in Henderson.

CLASSES ARE BEGUN IN DUKE SCIENCE BUILDING ON MONDAY

Building Given by Messrs. J. B. and B. N. Duke of New York is Practically Equipped

Building is Fire Proof Throughout and Contains the Best Modern Equipment. Cost More Than \$100,000.

One year ago Monday Messrs. J. B. and B. N. Duke of New York notified President Harper that they would pay for the erection of a science building to complete the group of five buildings in the Elon rebuilding program necessitated by the fire of January 18, 1923. The other buildings in this group are the Alamance administration building, the Carlton library building, the Whitley auditorium building, and the Mooney Christian Education building.

Monday at 2:00 o'clock, one year from the day when the letter was received saying that these generous friends would donate this building, class work began in Geology and Biology with Prof. T. E. Powell in charge. But for the fact that some of the furniture was broken in shipment for the Chemistry and Physics departments classes would have begun in these departments also today in this new building.

The Science building is given in memory of the mother of the Duke brothers whose maiden name was Artelia Roney. Mrs. Duke was born in Alamance county about twelve miles northwest of the college in 1829. She died in the year 1858 at the early age of 29, and lies buried at Haw River. Her distinguished sons have recently built a beautiful stone wall around the cemetery wherein her remains lie interred, and have constructed a mausoleum over her grave. In addition to this they have perpetuated her name by this handsome science building on the campus of the only college in her native county.

The Artelia Roney Duke Memorial Science Buildings is fire-proof throughout. It is 120 feet long and 64 feet wide, and three stories high. There is also a basement for the generation of gas and an aquarium where the animals used in Biology are grown and preserved. The building has composition floors laid on concrete, and the roof is slate laid on concrete.

Mr. Herbert B. Hunter, the architect, spared no effort to make it a model science building in every particular. The Kewaunee Laboratory Furniture Co., have supplied the equipment throughout the building, which they claim is modern in every respect, and is the very latest word in up-to-date laboratory furniture. The Fales' Chemistry desks are also used in the Chemical laboratory.

The building and equipment have cost slightly more than \$100,000.00.

JUNIOR CLASS HOLDS ITS REGULAR MEETING

The Junior Class met in regular business session, Saturday, October 25th, when many things of interest to the class were discussed.

Mr. Gordon L. Holland was appointed advertising manager for the class to serve on the Maroon and Gold staff, Mr. F. L. Gibbs having resigned on account of conflicting duties.

Mr. F. D. Bullard was appointed reporter for the class. These men are well known in the college circle and are wide-awake young men. They will appreciate your co-operation in making our college paper the best.

GROUP OF STUDENTS OF THE BUSINESS ADMINISTRATION COURSES

NEW BOOKS RECEIVED FOR BUSINESS STUDENTS

Commercial Department Places One Hundred Volumes in Library. Will Be Great Aid

For the past several days the librarians have been busy with several large shipments of books which have just been received for research work in the Department of Business Administration, of which the Commercial Department is a part. These books, comprising over a hundred volumes, are the latest published in the field of business and industry, and cover every phase of Business Administration. They will be a valuable aid to the students of this department, as well as the student body in general, and make a fine addition to the library.

The Commercial Department here is recognized as a vital part of the College, probably as much so as the courses in Education and Science. That it is popular with the students is evidenced by the number enrolled. Fifty-six students, divided into two sections, pursue the Business Administration I course; sixty-one take typewriting; thirty-eight stenography, and nine banking. The spacious quarters of this department, designed on an efficiency basis and located in the Alamance Building are furnished with the very best equipment that can be had, which includes all up-to-date office appliances such as mimeograph, addressograph, bookkeeping and calculating machines, etc.

A particularly unique feature of this Department is the College Bank. This is a real bank with complete banking

ELON IS DEFEATED BY EMORY AND HENRY TEAM

Elon Holds Virginians Until Third Quarter. Alexander Makes 60-Yard Run for Christians.

Although they failed three times to score when within the shadow of Elon's goal and did not finally tally until the third period the Emory and Henry Wasps experienced little difficulty in defeating the Christian eleven by a score of 12 to 0 at Emory, Saturday. Elon threatened to score only once. Receiving the initial kickoff of the second half Alexander raced 60 yards to the Wasps' 25-yard line but the team lacked the necessary drive to carry the ball over.

Line-up and summary:
Emory & H. Pos. **Elon**
 Baileyl.e. Elder
 Cole (c)l.t. Whitesell (c)
 W. Hessingerl.g. Dean
 Hullc. Braxton
 Davisr.g. McCauley
 Hillmanr.t. Cardwell
 Lawrencer.c. Beogher
 Fletcherq.b. Richardson
 McCreadyl.h. Byrd
 Hornr.h. Parkerson
 Wolfef.b. Alexander

Score by periods:
 Emory and Henry ... 0 0 6 6-12
 Elon College ... 0 0 0 0-0
 Substitutions—Newman for Parkerson; Smith for Elder; Elder for Newman. Scoring touchdowns: Davis, Fletcher. Officials: Referee, Brunting, (V. M. L.); Umpire, Boyd, (W. Va.); Headlinesman, McCornell, (Virginia).

Prior to 1817 paper of all kinds was made in America by hand.

MASS MEETING HELD BY STUDENTS ON TUESDAY

Discussed College Spirit and Support of Athletic Teams. Many Speakers.

With a view of getting better co-operation among the students, and creating more interest in college activities in general a mass meeting was held in chapel Tuesday morning. The purpose of the meeting was to revive the Elon spirit which has been somewhat lacking on the campus this year, and especially in regard to the support of the football team.

Many speakers appeared on the program, both faculty and students. They were: M. G. Wicker, Miss Frances Turner, J. B. Gay, cheer leaders; E. E. Snotherly, R. W. Utley, Lemuel Harrell, W. C. Elder, Prof. Barney and Coach Corboy. All the speakers lamented the fact that there was so little interest shown in college activities and the lack of support of the football team.

The meeting was very interesting and many thoughts were brought out which will no doubt change the attitude of the students in regard to some things on the hill.

At night a "pep" meeting was held in the girls' gymnasium and new yells and songs were given. Further meetings will be held this week and it is hoped by Saturday many students will have decided to go to Trinity with the team.

According to the laws of Australia a man who is required to work on Sunday must be paid four times his daily wage.
