goin' into de auto busi-
ness.

THE MODERN WOMAN

We hear a great deal of talk to-day about the modern girl. Much criticism is hurled at her because of her way of doing things, her manner of dress, the way she wears her hair and so on down the line. There are some people who are fearful of the result of modernism on our girls of today. They feel that the rapid pace that she is setting will eventually bring ruin. However we do not entertain such fears and feel that the modern young woman is able to take care of herself. We believe that she is stronger and far superior to her sister of an earlier day. Of course the modern girl is not perfect, neither was the "old-fashioned girl," of the "good old days." But we do feel that the torrent of abuse and criticism that is heaped upon the girl of today is unnecessary and unjust to her. Some people have the mistaken idea that because a girl has "bobbed hair" she must be classed as a "flapper." This is indeed an erroneous idea. Just because a girl wears her hair short is no reason that she is not as serious, or as efficient as the girl with her hair puffed on all sides of her head and especially pulled down over her ears. With the advent of bobbed hair came the revelation to some of us that girls actually had ears. There was a time when it was considered bad for a girl to allow her ears to be in view.

Perhaps some of the things we have said about the modern girl have been said lightly, and maybe we have been unfair in our attitude toward her critics. But with all seriousness we believe she should be defended against those who would brand her as frivolous and lacking in serious thought. We believe that the modern girl of today is the hope of American womanhood. Her activities in college, in the home, in the business world today will mean that women are to have privileges that have long been denied her. We do not believe that they should be allowed to engage in some of the activities that must be carried on by men, but she should be given her chance.

Women are taking their place alongside men in business. She is dressing for the part. No one can deny that bobbed hair and short skirts increase the efficiency of the working girl. We must allow her some freedom. Would we have her go back to piling up switches on her head and put her back in bustles?

"SOM STU" by Som Stude

First let us correct a little mistake we made in the column last week. The expression "pretrescent cabbage" should have been "putrescent cabbage." If you fail to make any meaning out of this, why just compare the expression with the little overgrowth to which it referred.

—S—

We are glad to see the honor box make its debut in the North Dormitory. This will give those who maintain that the students of Elon are fundamentally honest, a chance to prove their contention.

A good bit of trouble was experienced with this system of selling candy at Carolina. Here is an opportunity for us to prove that Elon students are more honest than Carolina students.

This system of merchandising was tried here last year, with apples, and sad to relate some persons thought more of an apple than they did of their honor.

—O—

It looks like the class games are going to be a howling success, in that the title will not be finally decided until the very last.

It looks as if Captain-elect Braxton is getting in good shape for football next year. In fact we predict that if he proves up as fast in his football uniform as he is on the basketball court he will make good his pet contention—that he is a back field man.

—M—

It seems that the Phipps should have run a contest for the most "perfect man." If this had been done it would not have been necessary to advertise for him.

—STU—

ELON CAGERS WIN TWO OUT OF THREE GAMES

(Continued from Page One)

Huey stood out, but at no time did the contest show anything like speed or skill. Coach Corboy ran an entirely new team in toward the close of the first half and again at the middle of the latter period.

Lineup:
Elon Pos. A. C. C.
Byrd l. f. Tilghman
Newman r. f. Baucher
Crutchfield e. Mayfield
Huey l. g. McIlwean
Caddell r. f. Lawson
Substitutes: Elon, Atkinson for Newman, Alexander for Byrd, Parkerson for Crutchfield, Walker for Huey, Foster for Caddell, Crutchfield for Parkerson, Green for Crutchfield; Atlantic Christian: Ross for Baucher, Underwood for Mayfield, Merritt for McIlwean. Scoring field goals: Elon, Newman 6, Byrd 2, Crutchfield 2, Huey 4, Caddell 2. Atlantic Christian, Baucher, Mayfield. Foul goals: Elon.

JUNIORS STILL LEAD IN CLASS GAMES PLAYED

(Continued from Page One)

for the Seniors with two field goals. The final score was 15 to 8.
Seniors Pos. Sophomores
Gibbs r. f. Watts
Watson l. f. Woodie
Utley e. McLeod
Terrell r. g. Walker
Braxton l. g. Peel

The standing of the class games is as follows:

	Won	Lost
Juniors	4	1
Sophomores	3	2
Seniors	2	3
Freshmen	1	4

Miss Ruth Vancannon of High Point College, spent a few days here last week.

"Smutt" Foushee spent Sunday with friends here.

Mr. and Mrs. Fred Bingham, of Farmer, N. C., spent Sunday here. Miss Lyde Bingham, their daughter accompanied them home on a few days' visit.

Messrs. Curtis Price and Howard Lathan of Duke University, visited on the hill Thursday and Friday.

Blessed is the man that loveth little children for he never shall grow old. He who does no more than he is paid for will never be paid for more than he does.

When a man begins to slip in his religious life he finds the decline well greased for the occasion.

Pay your own way if you would be your own conductor.

A preacher is more than a Pullman conductor—being courteous to people and getting tips.

It is well to let a little sunshine out as well as in.

What we owe our children the church helps us to pay.

Character is the joint product of nature and nurture.

Religion is the mother, the church the nursery, of religion.

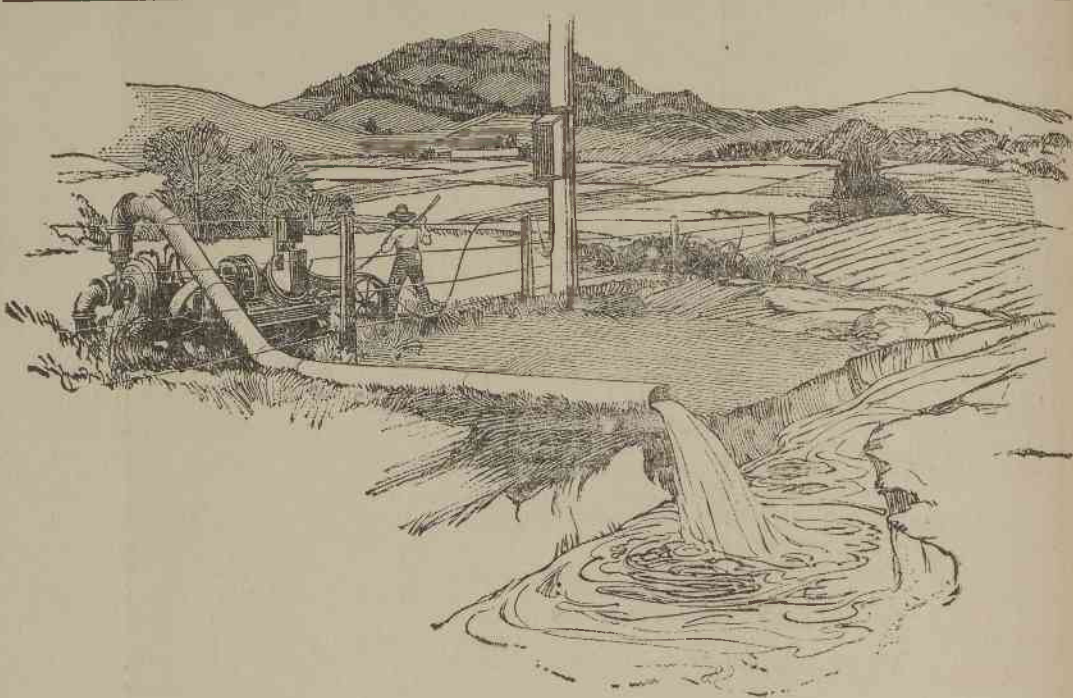

Mr. Man, your wife and children cannot answer "present" for you in church or heaven.

Are you lost, strayed or stolen, or have you safely returned? Dead in sin or dead to sin, which? God knows.

The church is God's way of saving, conserving and keeping humanity from moral degradation. Then go to church.

Faith and religion can accomplish more than any physician in keeping you well, bodily, mentally and spiritually.

The man who rests and worships on Sunday is far better qualified to do his best work on Monday.

Winning the West

Irrigation by electrically driven pumps has made hundreds of thousands of acres of desert land in the Intermountain West blossom like the rose.

For a few cents a month per acre, electricity—the giant worker—brings the life-giving water from distant lakes and rivers to rainless valleys, producing rich harvests of fruits and vegetables, cereals and forage.

The General Electric Company provides for agriculture little motors that do the farm chores and great ones that operate mammoth pumps to irrigate vast stretches of arid valleys.

If you are interested in learning more about what electricity is doing, write for Reprint No. AR391 containing a complete set of these advertisements.

What electricity is doing for the farmer is only a counterpart of what it is doing for Industry, Transportation, City and Country life or any of the professions. It is a tool ready for your use and which, wisely used, will make the impossible of today an accomplished fact tomorrow.

How electricity does these things is important to the student in a technical school—but *what* electricity can do is important to every college man or woman, no matter what their life's work may be.
