The total area of the face of the largest clock in the world is 163,296 square inches.

Saxony has 860 persons per square mile.

The Sennor Dam has a storage capacity of 140,000,000,000 gallons. It cost \$43,000,000.

The largest clock in the world weighs six tons.

LITERARY

Clio

Officers of the Clio Literary Society for the last scholastic quarter have been elected, and have already entered upon their duties. They are as follows:

- A. W. Laxton, president.
- C. J. Thomas, vice president.
- G. E. Ring, secretary.
- O. W. Deaton, first censor.
- M. Carrow, second censor.
- B. D. Jones, first critic.
- A. Rodriguez, second critic.
- P. Rakestraw, chaplain.

The program Tuesday night was encouraging to those interested in society work. Darden Eure gave a reading that won for him the honor of first place on the entire program.

"Big Brother" T. D. Eure gave some good current events. His description of the Moravian services was especially vivid and interesting. The debate, "Resolved, That prohibition is a failure," was affirmed in a convincing way by Romie Davis and G. E. Ring; but the argument of the negative speakers, Alberto Rodriguez and George Robertson, was still more convincing, as evidenced by the decision of the judges in favor of the negative.

Aeroplanes was the theme of the Philologist program of last Wednesday evening. C. P. Thompson gave a splendid discussion on the various types of aeroplanes. He spoke of the different uses made of them and their value in the commercial world. J. E. Watts then gave a very effective and practical discussion of Lindberg in aviation.

The question for debate for the evening was: "Resolved, That aviation promotes world peace. Albert Weston and Ray Moses were the two contending parties. Each produced much argument which resulted in a very heated affair. Both gave numerous instances in which the aeroplane has played important roles in peace and war, and used these facts to carry their respective sides. The negative, however, won. J. E. Watts gained the distinction of being the best orator of the evening.

ELON WINS 8 TO 2 FROM PENN STATE ON HOME FIELD

(Continued from Page 1)

Von Alta was greeted with a clean double by Walker who was hitting for Fowler.

The outstanding features of the game for Penn State was the all-round playing of Lungren who played first base. For Elon, H. Briggs starred in the field, handling twelve chances without a miscue. "Red" Smith was the leading player with the willow, getting a triple, double and two singles out of five times at bat.

WAKE FOREST GAME

Elon lost to the Wake Forest Deacons by the score of 1 to 0. The game was fast, being played in one hour and fifty minutes. Both teams played a perfect game in the field, neither making an error. The pitching of Fowler for Elon was the outstanding feature of the game, he allowing the Deacons but one hit during the contest. Landing, the lanky southpaw for the Wake Forest club, allowed Elon five scattered hits. The Deacons scored their lone tally in the fourth inning when Fowler walked the first man up in this frame, a sacrifice and the one Wake Forest hit scoring the only and winning run.

The fielding honors were about evenly divided with the entire team giving both pitchers the best of support. Dawtin, second sacker for Wake Forest, made several beautiful stops, that looked good for base hits, while Clark and H. Briggs were the outstanding performers for Elon.

The Sennor Dam, on the Nile, near Makwar, is the largest and longest dam in the world. This dam is 9,925 feet long.

SOCIAL

The Nevele Club met with Miss Savage at West Dormitory on the evening of April 3rd. The program consisted of facts about the life of Dorothy Scarborough by Mrs. Alexander, a discussion of recent books from the press by Mrs. Cannon and Campus Capers, in the form of limericks bringing in each member of the club, by Miss Stearns. There was a fine attendance, and after the program Mrs. Tower provided Easter and April Fool stunts which were much enjoyed. Miss Raine received a prize for making the handsomest Easter bonnet. Pear salad was served in the shape of bunnies surrounded by Easter eggs.

N. C. FEDERATION OF MUSIC CLUBS CONVENES IN SANFORD

(Continued from Page 1)

which is found in a growing number of centers in the Old North State, there will appear on the program Marie Montana, soprano soloist of the Metropolitan Company of New York City. The public does not generally know that Marie Montana is Ruth Kellogg Waite, who, like many artists, adopted her native state as her professional name when she made her operatic debut in Italy as "Musetta" in "La Boheme." She is one of the most celebrated singers in American music today. The New York critics are unanimous in acclaiming her as an outstanding artist. She has been engaged by the Ann Arbor Festival for the solo work in their coming Spring Festival. She is to give her program before the State Convention in Sanford on the evening of April 18th.

Another artist of charming ability and a native of North Carolina who has made good in music circles in New York City, is Ruth Rankin. Miss Rankin is a pianist of outstanding ability. She was reared in Boone, N. C., but for the past several years has been studying and giving concerts in New York and other parts of the country. She won the Juilliard Foundation Scholarship for three successive years. Her return to her native state for a concert at the State Federation Convention is an outstanding event. Her concert is to be given on the evening of the 19th of April. She will be assisted in her recital by the Alamance County Choral Club, directed by Prof. C. J. Velie of Elon College.

Mrs. Vera Bull Hull of the National Music League, New York City, is to appear on the program on the morning of the 19th. She will deliver an address on how the National Music League discovers, encourages, develops, and in other ways assists, young artists in various parts of our country.

HIGH POINT PANTHERS ARE SNOWED UNDER BY ELON

(Continued from Page 1)

were the air-tight pitching of Briggs and Murrow and the fielding of H. Briggs and Clark. For High Point the all round work of Hendricks in the outfield and on the mound and the work of Blosser in the field were the outstanding features.

The entire Elon team hit well. Clark was the brightest light in the hitting roll. H. Briggs and Smith also came through with two hits each.

"The United States has no monopoly on fools."—Lloyd George.

One egg of an ostrich contains as much as two dozen hens' eggs.

The ostrich can kick with great power. It has been known to kill men as well as other large animals.

The native animals of Tibet are the wild yak, kyang, or wild ass, wild dog and bear.
