engaged in Boy's Work in Richmond,

While here Wednesday Mr. Folger interviewed a number of students, in addition to meeting the Y. M. C. A. Cabinet and speaking to Prof. Van Cleave's Class in Ethics. The Cabinet feels that this gentleman's visit would have been very much worth-while if he had done nothing but attend that one meeting. The Ethics Class really enjoyed the splendid talk which Mr. Folger made to them. After an interview with Mr. Folger, Flick Johnson, President of the Senior Class, signed up an application for entrance to the Graduate School in June. If accepted, Mr. Johnson plans to remain in the Graduate School until he receives his M. A. degree.

We hope that there will be others, both boys and girls, who will place their applications with the Graduate School for the summer at Blue Ridge at least. Mr. K. B. Hook was our only Elon student at Blue Ridge last summer. There have been several in the past, however, among them being Misses Graham and Birdie Rowland, Ruth and Rosebud Kimball, Alma Rountree, Caroline Powell, Susie Elder; and Messrs. Dale Sanders, J. Paul McNeill, George Kelly, Wayne Snow, and Frank Alexander.

Mary Rawles Jones, Senior, Heads Virginia Club

K. B. Hook, Senior, Vice-President.

This morning at the usual hour for conferences and group meetings, the Virginia Club met in Dr. Swann's classroom. The chief purposes of this meet ing were to elect new officers and to decide on the time for taking our picture which will appear in the Phipsicli.

Miss Mary Rawles Jones of Holland, Virginia, was elected President with K. B. Hook, Winchester, and Marietta Our Responsibility Moore, Chuckatuck, Vice-President and Secretary respectively.

Following the election several other matters of importance were discussed and plans were begun for the Club's thirty o'clock.

Philologian Literary Society Meets

The Philologian Literary Society held its regular meeting Wednesday night, Jan. 7, 1931, and the following officers were

As Students of Elon College

Each person has a character either good work during the Spring semester. All or bad. The same is true of a college, students and faculty members from Vir- Do the president, the dean, and the faculginia are invited and urged to line up ty build the character of a college? Yes, as active members of the Virginia Club. The Club picture will be taken at the the students of Elon College, who play East Gate of the College Campus to- the greatest part in the building of its morrow, Friday, afternoon at two- character, for it is in you and me that the real Elon exists and not in these beautiful buildings which are made of insensi tive materials. They can never utter a word nor perform an action, either vile or noble. They are only temporal dwelling places. Your life and mine, taken as a unit, form one great soul, which is the soul of Elon. A soul that is immortal. And the life of our college is your responsibility and mine. The kind of reputation that she bears is your responsibilty and mine.

Our faculty and college officals, taken as a whole, are men and women of Christian character. With the cooperation of the student body our college can be an ideal place, but before this can be realized each student must assume his or her personal responsibility.

What is your influence on the lives of new students and on the lives of visitors who come to our college? Do they feel after meeting you that they have met with real worth-while folks? Do they carry away something that will enrich their lives or do they go away filled with disappointment and disgust because of some action or speech they have seen or heard. We are making Elon what it is. My conduct and yours reflects on our college as much so as it does on our families. Our honor is Elon's, and our shame is hers. So-

"If you wish Elon were better, Let me tell you what to do Set a watch upon your actions Keep them always straight and true."

The responsibility of the Elon students is a great and very real one-that of living up to the college's motto, "Christian Character First and Always at Elon." It is our responsibility because we owe to the students who are yet to come to Elon a clean, healthful atmosphere, one that will inspire and bring out the best that is in them into a full and happy life. Today you and I are creating this atmosphere and setting moral standards by which they will measure. If the "smart set" on the campus, so to speak, make heroes of the "rough necks." the entering freshmen are going to do the same, even though they can't quite underself as believing that Elon is now facing stand why it should be done. If the girl on the campus who can curse the loudest and longest and smoke the most cigartivities, aspiring freshmen girls are going to follow her example. Anything to win

Not only are we debtors to the future students but to those men and women Among other visitors at Elon during who have come within Elon's portals and the week were the following: Dr. W. have gone out to fill places in the world. Knighton Bloom, Washington, D. C.; Dr. They love Elon and have fought bravely J. Edward Kirbye, Raleigh, N. C.; Mr. to secure for her the honor that she de-F. F. Myrick, Greensboro, N. C.; Colonel serves and has borne in the past, and we Junius H. Harden, Burlington, N. C.; and have no right to blemish and deface their works. Elon's reputation reflects upon them in the daily walks of their lives Also, the character and reputation that we are making for Elon reflect upon her faculty and president. Just as parents are judged by the conduct of their children, so the officials of our college are being judged by our conduct, to a certain extent. They are our benefactors, all of us must agree, and we can show our gratitude to them and to the alumni in no better way than by living true Christian lives. They better or worse by having met us, and ask for nothing better.

portunity to enter college was presented ations. to us we became greatly indebted to society. We, as college men and women, are So let us cooperate in building for Elon going to play influential parts in setting a character so splendid and mighty that standards for society.
