

Dr. J. O. Atkinson Speaks On Missions

"The Victory" Is Subject of Third Lecture.

Atkinson Is Mission Secretary of The Christian Church.

If you ever become despondent, before you despair, read the Bible. If you have problems that you cannot solve, read the Bible. If you have doubts, and face dark situations, read the Bible. The Bible faces more problems, confronts more situations, deals with more despair, throws light upon more clouds and darkness than any book ever written. And there is not a despondent line on any page of that Book, nor word of doubt confronting any situation. It is the most optimistic, the most cheerful and re-assuring Book of all time. This is because it is revealing the mind of God, showing us the attitude of God, and declaring the power of God. Nothing is more illustrative of this than the last Book of the Bible, Revelation. One can no more analyze that Book than one can analyze the grand hallelujah chorus. From start to finish it is a shout of triumph and of victory. And yet that Book was written by an old man, homeless, banished, living upon a lonely isle, bereft of friends, deprived of property and left to die alone. And yet the Book he wrote is nothing else than a song of conquest and victory.

John had to clothe his language in figures and mystical forms. Had he written out plainly what he was writing about, I guess the Romans would not have banished him; they would have hung him. (Continued on Page 2)

Prize Contest Attracts One Million Letters

Awards To Be Made As Soon As Possible.

Winston-Salem, N. C.—More than one million letters were received in answer to the recent one week's national newspaper advertising campaign announcing prizes in connection with the new cellophane wrapping for Camel cigarettes, according to announcement today by R. J. Reynolds Tobacco Company.

So great was the response that officials estimated that it would take the judges and their staff several weeks to read all of the entries and select winners of the thirty-eight prizes offered.

Officials of the Reynolds company, in thanking the more than one million persons who wrote letters in the contest, also paid high compliment to the efficacy of the newspaper advertising. They pointed out that newspapers were used exclusively in advertising the contest, with the exception of radio announcements, and that never before had such overwhelming returns been received in a short-time national contest.

The announcement stated that entries were received by every conceivable means of transmission, in almost every language, in tiny packages and in large express packages, and on thousands of different kinds of paper. It was estimated that more than 4,000,000 persons, including entrants and their families, or more than three percent of the nation's population, will be interested in the announcement of final awards.

"Officers and directors of R. J. Reynolds Tobacco Company" said a statement issued by the company, "are deeply appreciative of the interest shown by more than 1,000,000 Americans, who sent answers to its contest announcement, and wish to thank each and every one of them."

"We want also to assure the public that every single letter, despite the enormity of the task, is being carefully read and studied by the judges and their staff.

"We ask the public to be patient, for such careful consideration takes time, and it probably will be several weeks before the judges' decision will be announced as quickly as possible."

QUARTET SINGS AT MORNING SERVICE

Sermon Subject Is "I Want To Be Like Jesus."

Sunday morning, March 15, a large crowd heard Rev. Alfred W. Hurst present a very interesting sermon from the subject "I Want to be Like Jesus." Through his sermon he gave concrete illustration to prove that our greatest desire should be that of wanting to be like Jesus. He said we should guard our everyday actions so they may meet the approval of Jesus, and in everything we undertake to do to remember Jesus is watching us. A male quartet sang very impressively at the close of the sermon "Lord, I Want to be a Christian." Everyone went away with new impressions and inspiration.

CENSORSHIP VS. FREEDOM

The editor of the Daily Cardinal, Wisconsin undergraduate paper, in a recent editorial took exception to the statement of the editor of the Stanford Daily opposing censorship of the humor magazines in the various colleges.

The Wisconsin editor strongly favored some form of supervision, believing that in no other way could obscene language and art be entirely eliminated.

Mr. Tschudy, editor of the Cardinal, went on to say, however, that there was probably little good accomplished by censorship, as the writer of any obscene or scurrilous wit only disguised it by writing the same thing over in slightly different form. So the question seems no nearer solution than before.

But aside from the difference of opinion between these two editors, the humor magazine situation has been a bone of contention for some time. Only recently was the board of editors of the Harvard Lampoon taken to task for printing a sketch of the so-called scrub-women's banquet, relating to a situation some time ago at Harvard which caused some little trouble. And last year, at a large midwestern university, the fun book was banned from publication by the university authorities for the issuance of a more or less sexy story about a marble statue. For the last few years, another large institution in the south has constantly been in hot water about its Humor magazine, each editor being questioned for supposedly licentious material appearing in his book. And many other schools have added their troubles to the list.

There has been a recent trend toward the more intellectual type of humor, which will possibly tend to overcome the troublesome stories and sketches which sometimes appear in our college fun magazines. It is necessary for the editor of every humor magazine to keep abreast of the times, and by keeping a little higher tone of humor, the real purpose for which the magazines are published need not be sacrificed, and those who wish to read between and under the lines may still do so.

BASEBALL TEAM IS ROUNDING INTO FORM

Prospects Are Bright.

Cold weather for the past week put a temporary check to practice on the Elon diamond, but a week of work has served to indicate something of the probable of the team for the coming season. The team will apparently be fairly strong at the stick, but weak in the defense because of the absence of seasoned battery material.

Coach Walker has seven letter-men on hand around whom the team will be built. Of last year's team, Briggs, Clark, F. Caddell, and Graham were lost by graduation and Holt failed to return. There is no one on hand to take the place of "Lefty" Briggs, who has carried the heavy end of the pitching job for several years. The loss of the other men will be felt, too. Caddell and Clark, who played second and right field respectively, were heavy hitters, both hitting around the 500 mark last season. Holt was a good man both at bat and in the backstop position.

Last year's infield is almost intact with Fogleman, at third, Capt. E. Harrington at short and Williams at first. The place left vacant by Caddell at second will probably be filled by Johnson who is out for baseball for his first time, or by Abernathy who served as utility man last year. Roberts is the only letter-man who has had a regular berth in the centerfield, but D. Caddell and W. Clark have both had some experience in that department of the game. In addition to these H. Harrington looks good enough to make somebody hustle for a position.

Coach Walker's biggest problem is that of developing battery material. Mann is the only letter-man on hand for that position. Walters, Ross, and Campbell are other candidates for this job. Latham, who played at first during the season of '29, is being given a try-out behind the bat, and is in competition with Chandler for that position.

Elon's season opens on April 3rd with a game against Davidson.

All Students—Notice

New Amendment Accepted by Students.

An amendment was voted on at the regular Tuesday Assembly in the chapel of the Christian Education Building creating to some extent a new office in the student body. That is: at the present time the President of the Student Body is automatically the President of the Student Senate. The new amendment proposes to separate the positions in such a way that the President of the Student Body will be one person and the President of the Student Senate will be another person.

The amendment was favorably passed and the President of the Student Senate, in the future, will be elected just as the President of the Council is elected now, and the President of the Student Body will be elected by a vote of all the students. The nominee must be from the rising senior class but may be either a man or woman.

The amendment was proposed by a vote of the Senate and Council in joint session.

The duties of this new officer will be to preside at all joint meetings of Senate and Council, and to welcome out of town speakers and visitors to the campus.

Yesterday in chapel the Electoral Committee of five members were elected to conduct the Australian Ballot. The primaries will be conducted in the new future by members of the various classes and the main election will take place the second Tuesday in April.

The Committee elected were:

L. W. Register, Chairman,
F. Johnson,
K. B. Hook,
George Kelley,
Moyle Fite.

One of the most brilliant social events of the season was the seventh annual banquet of the Pi Kappa Tau Sorority Saturday evening. The sorority members and their guests met in the reception hall of the West Dormitory, and were led by Miss Alta Dick, the toastmistress, and her guest, K. B. Dofflemeyer, to the Y. W. C. A. banquet hall.

The color scheme of purple and gold, the sorority colors, was carried out in an Arabian tent, for the orchestra, and a canopy for the toastmistress. A delicious five-course dinner was served.

COLLEGIANA

Notable Happenings in the College World.

An unusual amount of "pull" was exerted the other day by the action of U. S. Senators from Massachusetts and Florida in gaining the reinstatement of two midshipmen, who some time ago smuggled two girls into the mess hall by dressing them in the midshipman uniform, for which the boys were promptly expelled from the Academy.

On his recent trip through the southwest in behalf of the drought stricken farmers, Will Rogers stopped for lunch with a fraternity at Oklahoma State College. Will had previously requested bacon and beans, so the menu was a constant round of cornbread, beans and bacon.

Upon finding that only 25% of the school children had ever seen a calf, and only 50% had seen a cow, the Los Angeles Board of Education now has a truck containing two calves and a cow drive past all school buildings every afternoon.

New York University and the Catholic University of Washington have established an air law academy, which will make possible the research and study of aeronautical and radio law.

Whatever the purpose, a recent survey at Virginia University showed that 99% of the men wore four in hand ties, and 50% of the ties were solid in color, with blue prevailing.

And this calls to mind the Lun'oner who, while standing in front of the buffalo cage in the Detroit Zoo, remarked to 'is myte: "Hi eye, hit says bison on the sign—and Hi've always thought that a bison was something to wash in."—Ex.
