Tuck spent the weekend in Virginia, Va.

Latham and Williams spent several days in Oxford.

Meghee and Bosted of Hargrave Military academy spent the week-end at Elon.

Dean Hook and the members of the geography class left February ... for an imaginary trip around the world. The Maroon & Gold will give a brief summary of the places visited each week.

Dr. Smith returned to the campus Wednesday night after a very successful campaign at Holland, Va. in behalf of the college.

...by members of the San Carlo opera company, the most famous of all traveling companies. It has a symphony orchestra of ... musicians and a company totaling 120. The film version of the opera was sponsored by the National Federation of Music Clubs.

Although, according to those who attended, the production lacked the glamour of real opera, it presented an opportunity for many whose chances to see grand opera was limited to appreciate work of a famous company. The report of those who attended showed an appreciation of the remarkable dramatic work of the San Carlo artists. Although "Pagliacci" is a rather short grand opera, it made a fine production of suitable length.

During this month many opportunities of hearing musical artists are presenting themselves to Elon students. Two of the best known artists to be heard in this region this month are Lawrence Tibbett and Fritz Kreisler.

...ail. Thus the college can be easily reached by train, bus and from almost any direction in private car. Seven mail and passenger trains stop daily. This means that mail comes and goes frequently. Also telegraph, telephone, freight and express service are constantly at your command.

Elon is situated in a healthful and wholesome community. It is on a beautiful native oak plateau midway between Haw River on the northeast and the great Alamance creek on the southwest, each stream being about five miles distant. With the drainage afforded by these streams and their tributaries and with an elevation of 650 feet above sea level, Elon has a summer atmosphere pure, bracing and delightful.

Its Buildings.

Elon has a group of fine large three-story modern fire-proof brick buildings, organized into a most close and convenient arrangement. Five of these are arranged in the center on one system and are connected by stately arches supported by large colonnades. This system of buildings ranks Elon among the very best in the state for administration and class room equipment. West of this group there are two dormitories for ladies, modern in arrangement and equipment. All these excellent buildings are so closely and so conveniently arranged that the required walking is reduced to a minimum, time and energy are saved, and efficiency is easily increased.

The intellectual center of any college is its library. Elon has a splendid library containing more than 20,000 volumes besides a large number of reports, bulletins, etc. not included in this number. Several of the leading daily papers and the current magazines form a regular part of the reading material. The library has been the beneficiary of several libraries of ministers who have donated their book collections of a life time. From these and other sources an excellent collection of books on religious education has been made.

Recently a large addition of new and modern books along various lines has been obtained. Such conditions are now regularly coming in to add the latest thought on the various divisions of intellectual endeavor.

The summer school at Elon offers the regular courses generally offered by a college in the sciences, mathematics, history, languages and literature, besides industrial art, fine art, penmanship and ... number of strong courses in education which meet the needs of teachers from the primary to high school A certificate.

Its Faculty.

The teacher is the vital force in any school. As the teacher is so is the school. The good teacher inspires easily and instructs thoroughly. Such a teacher must be a master, able and well trained. Elon will use ten able, experienced, well trained, university trained teachers this summer.

Elon is in the center of a great net work of colleges and universities. Within a few minutes ride to the west is to be found the Greensboro College for Women, the N. C. College for Women, now a part of our greater State University, Guilford College, and High Point college. Less than an hour's ride toward the east brings one to our State university, the oldest State university in our nation, and next and nearby is Duke university. A little farther down we come to Meredith college, State College of agriculture and engineering and Wake Forest college, each one doing a fine piece of collegiate work and all forming a kind of intellectual and cultural atmosphere.

...this exhibitions of famous tricks in the recent ... ... ments promise to recreate for the modern public the artistic charm of magic shows. I commend the campaign as I believe it will introduce an even wider public to the fascinations of this form of entertainment."

Also typical of the expressions being heard among magicians is the comment of Pablo, the Spanish magician who works in pantomime. His Cigarette Illusions, incidentally, are famous ...

Mention Goes to Seven for Grades Averaging over 90

The students averaging 90 or above are to be commended for the fine work done this semester. The following are those who accomplished this remarkable feat:

William Horton	93
Hazel Martin	92
Elizabeth Barney	92
George C. Taylor	92
P. M. Wyrick	91
Fletcher Moore	91
Lanson Granger	90

Gleanings Of Wit

Why take life so serious! None of us will come out of it alive, anyway.

"I hope you will dance with me tonight, Mr. Bray."

"Oh, rather! I hope you don't think I came here merely for pleasure!"

How sad it is so soon to lose
Those sweet pronuptial thrills;
Behind us are the dove-like coos,
Ahead of us the bills!

Under the swinging street car strap
The homely co-ed stands,
And stands, and stands, and stands
And stands, and stands and stands
and stands.

Ruth Gamble: "That horrid conductor glared at me as if I hadn't paid my fare."

Esther Cole: "Well, what did you do?"

Ruth Gamble: "Why, I glared back as if I had."

Miss Walker: "I wonder why Bill Cooper talks so much?"

Johnson: "Oh, haven't you heard? He was accidentally vaccinated with a Victor needle."

Professor Barney: "Now we will run over the next lesson."

Ruth: "Honk! Honk!"

Bisang: "What would I have to give you for just one little kiss?"

Lib: "Chloroform!"

Professor Martin: "Sorry, old man, my hen got loose and scratched up your garden."

Coach Walker: "That's all right, my dog ate your hen."

... M...: "Fine, I ... ... over your ... and killed him."

...: "The best way to get ... most out of life is to fall in love with a great problem or a beautiful woman."

B...: "Why not choose ... and get both?"

... "What ... time did ..."

Where did the night fall?

Lack of Money is Proving no Bar to Students at Elon

When it comes to students like these at Elon, who want an education it is next to impossible to stop them.

A little thing like lack of money has no chance against them. Since the depression has taken most of the money away from them, some of the things used for money and to pay the bills are: Peas, chickens, pigs, fresh eggs, flour, apples, script, certificates of indebted counties, future certificates of opening banks, Standard Oil coupon books, reference books, checks, and a few greenbacks.

This not only goes to show that "where there's a will, there's a way" but "where there's a bill, we can pay."

College Calendar

MONDAY

10:00 a. m.—Assembly.
7:00 p. m.—Ministerial meeting.
7:30 p. m. — Clio-Psykaleon meeting.
8:00 p. m.—Basketball, St. John's at Annapolis.

TUESDAY

7:00 p. m.—Elon Singers rehearse.
8:00 p. m.—Basketball, American university, at Washington.

WEDNESDAY

10:00 a. m.—Chapel.
4:30 p. m.—Elon Singers rehearse.
7:00 p. m.—Philologian meeting.
8:00 p. m.—Basketball game University of Delaware at Dover.

THURSDAY

1:00 p. m. — Maroon and Gold meeting.
7:30 p. m. — Psiphelian meeting.

...

SATURDAY

8:00 p. m.—Basketball, High Point vs. Elon at Elon.

SUNDAY

10:00 a. m.—Sunday school.
11:00 a. m.—Morning worship.
6:15 p. m.—Vespers.

Three Added To Faculty For Coming Summer School

For the summer session beginning June 12, the faculty has been increased beyond that of the last summer session by the addition of three teachers who are specialists in their respective fields. Dr. W. C. Wicker, professor of education at Elon college, will teach courses in phychology, and be director of the session. Prof. Dwight M. Steer, who has rendered excellent service during the college year in the music department, will ... ... instrumental ... The summer school committee is fortunate in enlisting the services of Supt. Stough of Gibsonville, who will conduct classes in education and history. The summer school faculty is as follows:

Leon Edgar Smith, M. A., D. D., president.

Walton Crump Wicker, M. A., Lit. D., director of summer school and professor of education.

Alonzo Lohr Hook, M. A., M. S., dean and professor of physics.

C. M. Cannon, A. B., registrar and business manager.

Mrs. C. C. Johnson, A. B., matron and librarian.

John Willis Barney, A. B., M. A., professor of English.

Ned Faucette Brannock, M. A., M. S., Lit. D., professor of chemistry.

J. Allen Hunter, M. A., Ph. D., professor of education.

Lila Claire Newman, Ph. B., instructor in art.

Thomas Edward Powell, M. A., Ph. D., professor of biology.

Dwight M. Steere, M. A., A. A. G. O., professor of music.

T. E. Strough, A. B., M. A., Supt. Gibsonville school, instructor in education and history.

J. B. Roberson, A. B., M. A., instructor in education.

Carrie McLean Taylor, A. B., Burlington schools, instructor in primary methods and children's literature.
