FACULTY WILL AID JOBLESS

Elon's Novel Plan to Help Unemployed Calls for Free Extra Instruction Academically.

Dr. Smith suggested, in faculty meeting the other night, that Elon should do something to help the unemployed. His suggestion was that since Elon is not a financial institution and cannot give money, it is an educational institution, and can give something no one can take away.

The plan is for the professors to donate their time in the afternoons and evenings to teach those who wish to attend, free of charge.

The courses offered will be of such nature that they can be of service in everyday life, such as economics, domestic science, history of North Carolina, and U. S., English, religious education, Bible [illegible] and music. These courses will help to prepare one [illegible] for a profession. However, they will not be given college credit. [illegible] attend [illegible] the [illegible] of the campus. [illegible] D. Smith [illegible]
