**LEA HAS CARRIED
ELON ATHLETES
FOR FIFTEEN YEARS**

For fifteen years I have been carrying the Elon boys to the various colleges in North Carolina, Virginia, South Carolina and other states to play athletic contests. I never send my drivers for it means much to me just to associate with the BOYS. I will admit that it seems a little sad to carry a good player for three or four years and see him graduate and leave, but each time it seems that some one comes along to take his place.

I used to think when we had Hap Perry, "Chubby" Kirkland, Johnnie Johnson, Wade Marlette, Flower and others, we couldn't possibly have others as good. They graduated and left and along came Pete Williams, Zeb Harrington, Left Briggs, Dan Long Newman, Shepherd and others to take their places. Now they are all gone but I find we still have a group of fine boys and some mighty fine athletes. Elon never had a more loyal and harder working team than now, and I rejoice too when I think of the possibilities that ahead of this splendid group of young men. Elon is going places and C. A. LEA'S TAXI SERVICE EXPECTS TO BE WITH THEM

**ELON ATHLETES THINK
MUCH OF CHINT LEA**

"Chint Lea never attended Elon College, in fact he never attended any college." "Chint" was reared on the farm but decided early in life that farming wasn't his calling. While a very young man, he came to Burlington and started in the "Taxi Business." It was a small business in the beginning, but it was Chint's business and he put his whole time to it. Burlington was small and "Chint's" income was in keeping with the town. He gave good service and played the game fair with every one, and has been amply rewarded.

While his business was small, "Chint" started to carrying the Elon Boys from college to college. He has kept this up, and every student that has made an Elon team since 1922 knows "Chint". They like him, for he is a loyal friend and feels a keen interest in every contest Elon enters into. If Elon wins "Chint" rejoices, but if the tables are turned and Elon is defeated he takes it on the chin and says, "Boys you can't win all the time, we'll win the next game."

If it's advertising the students need to put out the school paper, "Chint" takes his part of the space. If it's a donation Elon needs to put over some plan the authorities have in mind, "Chint" can always be counted on for his part.

When Elon meets Guilford, tomorrow, old friends will also meet as rivals. Charles Leonard and Wade "Potts" Johnson, are stars of the Guilford eleven, and former team mates of Amos Shelton, Fred Koury and Regdon Grundman members of this year's varsity squad.

F. O. Perkins, '34 is now traveling for the L. Sonneborn and Son Co., 88 Lexington Ave., New York City. North Carolina is Mr. Perkins' territory and he is making his home at Fayetteville.

COMPLIMENTS

OF

W. E. LOWE

Elon College.

**W. E. LOWE LOYAL
SUPPORTER OF ELON**

W. E. Lowe has been one of Elon's loyal supporters for many years. While he never attended college here, he has made this his home and always found time from his work to do Elon a good turn. Very few, if any have meant as much to our athletic teams as Mr. Lowe.

Several students in school here now were put in touch with Elon by Mr. Lowe. He has been known to go out of his way, bearing his own expenses, to see prospective students for Elon. A few years ago Mr. Lowe came in with three applications and room fees at one time.

Elon appreciates the loyalty of its alumni and friends. The student body could never have reached 461 if it had not been for the loyal and thoughtful friends who have so unselfishly gave of their time and effort.

**Dr. Thompson
Speaks Here**

On Monday night, November 18, Dr. E. W. Thompson, professor of Rural Sociology at Duke University, delivered a lecture in the society hall, as guest speaker for the newly organized Social Science club. Dr. Thompson chose as his subject "Language and Race Relations, and illustrated it with anecdotes which he drew from his own personal experiences with "pidgin"—English while he was studying in Hawaii.

The lecture was followed by a brief discussion and after the discussion the members of the club held a short business meeting.

What I want to say this week is 'Beat Guilford!'

Remember, the student body can help the team win by organized yelling. Let's show our team that we are behind it until the game is over.
