

CHRISTIANS TRAMPLE LENOIR-RHYNE, 14-6

Bid Night Nets Twenty-five Neophytes For Greek Clubs

Fraternities Nab Sixteen Hopefuls

Sororities Pledge Nine

Twenty-five more or less unexpected bids were given out last Saturday night, at the semi-annual Bid Night for the seven fraternities and sororities on the campus. The October edition of the perennial 'whoopin' and hollerin' was carried out with a minimum of discomfort, and with a maximum of satisfaction for all concerned.

The Beta Omicron Beta sorority bestowed its colors on Nancy Hoylman, of Clifton Forge, Va., Mildred Craven, Ramseur, N. C., Mabel Vanderford, Burlington, N. C., and Marie Mangum, Burlington, N. C.

Tau Zeta Phi pledged Helen Pace of Burlington, N. C., Margaret Nash, Elon College, N. C., and Elizabeth Markham, Durham, N. C.

Delta Upsilon Kappa added two pledges, June Leath, Burlington, N. C., and Evelyn Holmes, Creedmore, N. C.

To the Iota Tau Kappa fraternity were pledged Craton Stephens, Hertford, N. C., Tom Perry, Jonesboro, N. C., Kenneth Huffines, Elon College, N. C. Ike Fesmire, Greensboro, N. C., Amos Shelton, Greensboro, N. C., and Silvio Caruso, Riverside, N. J.

Sigma Phi Beta pledges are Wallace Kernodle, Elon College, N. C., Charles Pittman, Wilson, N. C., and Hall Brooks, Roxboro, N. C.

Kappa Psi Nu pledged Kenneth Register, Sanford, N. C., DeRoy Fonville, Burlington, N. C., and Dewey Hooper, Mebane, N. C.

Alpha Pi Delta's numbers were increased by four pledges, Claude Lawrence, Mt. Airy, N. C., A. P. James, Roxboro, N. C., Roger Inman, Mt. Airy, N. C., and Jack Foushee, Elon College, N. C.

College Press Room Scene Of Activity As Printers Speed Up

Last year another press was secured by the college to do job work that could be done by an ordinary shop. This year further enlargements are taking place, with more type and other equipment. A motor is being purchased to pull the job press that was formerly peddled by foot. Already several jobs have been printed for the college. Among these there were programs for the college musical recitals, some ticket jobs, a blank form for the Phipps, and the Student Christian Association lapel tags.

Two regulars, Wesley Holland and Frank Donovan, were used last year to print the Maroon and Gold, and a special force was rounded up to print "Elon Colonades," the college magazine. This year a new student, James Heritage, has been added to learn the trade to fill in next year, and also to help take care of the extra flow of work this year. It seems that the Elon College Press is definitely in for a very busy year.

There are still many people on the campus who do not know where the pressroom is located. This article is also an invitation to come by and see the force in action. Headquarters are located in the front corner room of the Science Building next to the Alameda Building.

Phi Psi Cli Work Now Well Under Way

The preliminary work for the 1939 PhiPsiCli actually got under way this week. Tentative plans for the layout were made by the staff with a representative of the Bush-Krebs Engraving Company of Louisville, Kentucky.

Photography work started Monday morning under the direction of the Dunbar-Daniels Studio of Raleigh, and over 300 individual sittings were made. Group pictures will be taken of the various organizations very soon.

This year the staff plans a large section to be devoted to informal snapshots, and the staff will welcome any pictures that the student body can contribute.

Progress Shown As Elon Is Active In County Education

The program of collaboration between Elon College and the Alameda County Schools is making great progress this year. This program was begun last year with the aid of a grant from the General Education Board to develop science studies in rural secondary schools. Elon College and the Alameda County Schools cooperate in the program. Mr. M. E. Yount, superintendent of Alameda County schools and President Smith recently signed a further agreement for extended cooperation.

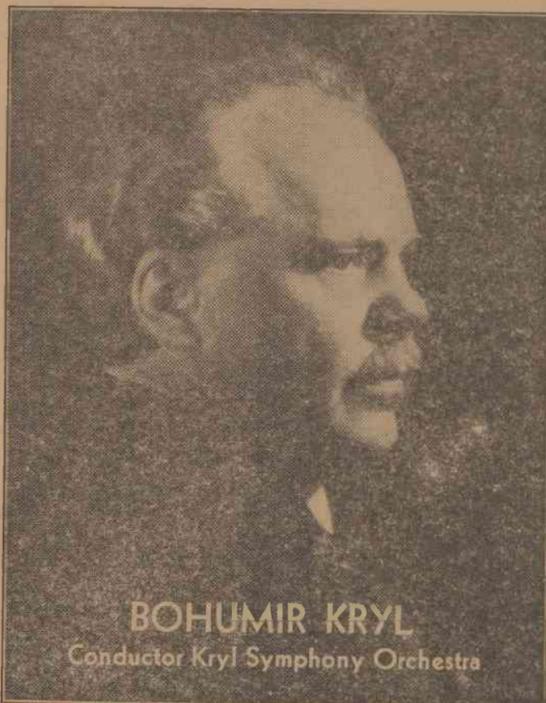

The program, carried out by Professor George Beecher of the college Education Department, is based on the belief that public school education (particularly in rural areas) should be education for living in a particular environment. In order for the rural schools in Alameda County to educate students for living in Alameda County, in the Piedmont, etc., it is necessary to know the characteristics, resources, and problems of this area.

Work began last February on the resources for study of the sciences as means for participating in and understanding the local activities and problems which draw on the natural sciences. The science teachers in all the county high schools are cooperating in working out programs with classes which will make clear the functioning of biology, physics, chemistry, etc., in local living.

In order to make clear what problems and resources there are for use in the schools, Professor Beecher this past summer wrote the bulletin, Science and Change in Alameda County Life, which contains about a hundred and fifty mimeographed pages. As its subtitle indicates, it is the background for development of science studies.

It is an attempt to show changes being brought about by the sciences, to show local work or living situations in which the sciences play a part, and to show the kinds of materials, processes, and resources that are here to be used in the study of science in the schools.

The plan is to make a similar study with all the leaders in the Alameda County schools in investigating resources for the social studies. The object will be to draw up the social and historical picture of the County and to use the material in the schools as an indication of what the social studies classes have at hand to work with.

BOHUMIR KRYL
Conductor Kryl Symphony Orchestra

Kryl Symphony Plays In Whitley Thursday

Soprano: Florine Zebach, Violinist: Barbara Le Brun, harpist: Dorothy Dickerson, Coloratura and Burtis Preston, Baritone, to Appear.

Elon College is presenting Kryl and his Symphony Orchestra as a special treat for students and the general public of the county. This famous orchestra will appear in Whitley Auditorium Thursday afternoon, October 27 at 2:30 p. m. This concert is not on the regular Concert Series, but is a special presentation of the College.

Elon has had some fine concerts by little symphony orchestras, but this is the first time a complete symphony orchestra has appeared here. There are about fifty musicians in the orchestra. Bohumir Kryl is considered one of the world's greatest conductors as well as a good conductor. He is now making his thirty-fifth coast-to-coast tour. Last year the Orchestra played to 162 audiences during the season, and were acclaimed everywhere for outstanding programs and brilliant performances. In addition to the numbers by the orchestra, four soloists will appear during the program: Dorothy Dickerson, coloratura soprano; Florian Zabach, violinist; Barbara Le Brun, harpist; and Burtis Preston, baritone.

Elon Team To Engage Appalachian Saturday

Next Saturday afternoon the Christians meet the Appalachian Mountaineers in what will be the third North State Conference tilt for the Elonites. Elon fans will remember with a bit of pain the results of the last engagement between the Christians and the Mountaineers. The Teachers rolled over the frost-bitten Christians to the score of about 31 to 0.

The Appalachian team for this year is practically the same as it was last year. They lost only two first-string linemen and Captain Angel. The team is rated as being much better than it was last year. Wilson, their fullback, seems to be the biggest threat in their backfield and the line in front of him doesn't do bad at opening holes for him to wriggle through.

The game is scheduled to start at 2:30 p. m. in the Memorial Stadium in Greensboro. Coaches Kidd Brewer and Flucie Stewart seem to be pretty optimistic about the game, and it promises to be one of the best games of the season.

Elon College is presenting Kryl and his Symphony Orchestra as a special treat for students and the general public of the county. This famous orchestra will appear in Whitley Auditorium Thursday afternoon, October 27 at 2:30 p. m. This concert is not on the regular Concert Series, but is a special presentation of the College.

The program has been carefully chosen, not only for its musical worth, but for its appeal to the layman as well as to the trained musician. Bringing special and outstanding concerts to the Elon Campus is a venture, and it is hoped that the entire student body will take this unusual opportunity to hear a fine symphony orchestra.

In order to help defray the necessarily large expenses of such a concert, there will be an admission charge. General admission will be one dollar but, since one of the chief purposes of bringing such an organization to Elon is to afford every student the opportunity of attending, there will be a special student admission charge of only twenty-five cents. Announcement will be made later as to the sale of tickets to students.

CHAPEL NEWS

Science is realizing more and more the place which visual aid has in education, and it seems that not only does science see its importance, but other fields as well. The Reverend Allison Ray Heaps, speaker at our Church Services on last Sunday morning. Also the Reverend Heaps had charge of the Vespers service Sunday night.

At the Vespers service pictures were shown. These pictures were intensely interesting and gave us an idea of what is being planned out for future work in the field of visual aid.

On last Wednesday and Friday Reverend David Eaton, Rector of the Episcopal Church of Burlington, was our Chapel speaker. Reverend Eaton is one of our annual speakers here at Elon, and we are always glad to have him in our midst. He will also speak on next Wednesday of our Chapel Service.

On next Friday Dr. Highsmith, who is the director of the Division of Instruction Service Office of the Superintendent of Public Instruction in Raleigh, will be the Chapel speaker.

Cannonade Victorious Over Bears In Last Night's Game

Dramatic Club Holds Meetings and Elects Year's Officers

A right smart group of Thespians turned out Wednesday a week ago for the Elon Dramatic Club's first meeting of the year. Students who have trod the Elon boards before came out in a body. And a fine group of new students manifested their interest in things dramatic by putting in an appearance at the meeting.

The main purpose of the meeting was to elect officers for this year. The officers chosen were President, Gwen Tillmanns; Vice-President, Kay James; and Secretary-Treasurer, Mary Lewis Walker. Dr. Collins, faculty advisor for the club, spoke briefly concerning plans for plays to be presented this year, and also discussed the prospect of taking one or two original and non-original plays to the University of North Carolina to compete in the dramatic tournament next spring. Committees to read plays and to consider what original plays to present were chosen; Maxine Hudgins and Walter Fonville were chairmen of the respective committees. Last Thursday the club held its second meeting, and reports of these committees were given.

LIBRARY NEWS Magazines' Contents Have More Reader Interest This Year

Browsing in Oma's sanctum last Tuesday I picked up a magazine, shuffled through the pages, and was just putting it back in the rack — not in the proper place, of course — when I spied these words: "There has always been in this country a sound appreciation of the artistic cusser." Surprising? Why it was astounding! And so's the whole story: "Westbrook Pegler" by Milton Mackay. If you've ever read any of Pegler's copy you'll read the story I'm sure, and if you've denied yourself this pleasure, read the story of his life, anyway. It starts on page one of the October Scribner's. When you've finished, then turn on over and read "I Quit Smoking".

If you are a public spirited guy at heart, don't pass up "The White Collar Chokes," by Adams in Harper's. For just plain fun, try reading "The Goose Hung High" in Pictorial Review — a simple story with no oppressive moral or intellectual strain.

Of special interest to those noble souls who studied Bugology this summer, and those interested in insects, will be the recently acquired Fabre's Book of Insects, a well written book with many colored plates. The Canadian Pacific, a history by John Gibbon, has more whiz-bang action than an ordinary Saturday Horse Opera. To those who love adventure and the beauties of high mountains, crystal lakes, and blue skies, we sincerely recommend this story of today's Northwest passage. Best American Wit and Humor has been purchased, but it is enjoying such wide spread popularity that I doubt you'll find it on the shelves. You might, though, so ask for it anyway. Contributions by Ring Lardner, Peter Arno, Will Rogers, and Milt Gross are included as well as some fifty-odd other outstanding American humorists.

Christians Take Conference Lead

Opponents Were Favored

The Elon College Christians met the Lenoir-Rhyne Bears under the lights last night in Hickory, N. C. This was the second North State Conference game for the Elonites and the third for the Bears.

The Bears lost only two men from last year, and the team this year is much better than the team of last year. The starting lineup was practically the same as that of last year with the exception of Perry, backfield, and Womack, lineman. Sigmon and Quinn had been rated as the big threats in the backfield of the Bears. The line front of them averaged over 190.

The Lenoir-Rhyne team had been touted as the "top" team in the conference, and several sports writers had picked them to walk over the Christian aggregation. Last year the Elon team won by a score of 27 to 6 with Abbitt, Shelton, and Golombek leading the Christian Cannonade.

The game is over now, though, and the pigskin followers may draw their own conclusions as to how the North State loop roster shapes up for this season.

The following table shows the standings of the North State Conference teams before last night's game.

Teams	Won	Lost	Tied	Pct.
L. R.	2	0	0	1000
Elon	1	0	0	1000
Catawba	1	0	0	1000
Guilford	0	0	1	000
W. C. T. C.	0	1	0	000
High Point	0	1	0	000
Appalachian	0	0	0	000

Edwards Will Present Next Faculty Recital

Thomas A. Edwards, Instructor of Voice, will present the second of the current series of faculty recitals next Wednesday night at 8:15 p. m.

Robert Morgan, Instructor of Piano and Organ, will accompany Mr. Edwards. This is the first year at Elon for both Mr. Edwards and Mr. Morgan. Mr. Morgan's splendid piano recital on September 26 was greatly enjoyed, and Mr. Edwards' appearances as soloist in Sunday morning services have given an indication of the musical treat that is in store for the faculty and students next Wednesday.

"Wake Up And Live" Showing Here Now

Adventures of Marco Polo Starring Gary Cooper. To Be Shown Next Week-end.

Feuding time. Mrs. Winchell's little boy Walter and Ben Bernie are at it again in this week-end's film musical entitled "Wake Up and Live". There is plenty that merits this title when one takes into consideration the singing, acting, and the presence of vivacious Alice Faye.

The supporting cast includes Patsy Kelly, Ned Sparks, Jack Haley, Grace Bradley, Walter Catlett, Leah, Joan David, Douglas Fowley, and Miles Mander.

Passing from musical pictures to straight drama, "The adventures of Marco Polo" will be the feature for October 22.
