

REID THIS!

Earl Danieley probably won't like this column.

Aha!

Borrowing a trick from "A View From The Oak" columnist, Melvin Shreve, I hope that, as Shreve says it, "this alone will increase my number of readers."

I don't know why Earl was fussing about a column in a mimeographed paper to which Shreve was alluding, but I suspect that the columnist was fussing over something Earl thought oughtn't to be fussing about.

I am reminded of a time that seems so far back — Earl was an undergraduate with me along about this time — but if you expect me to rat on his age, you are mistaken. You will have to guess for yourself. I would think that sometime between 1943 and 1945 might be a good starting point.

Anyway, the dining hall back then was not exactly all it should have been. In short, it was terrible.

One day, we had a lunch that nobody could quite identify.

If you peek at the column head above this type, you will see I was in the Class of 1946. To this day, I have still not quite figured out what it was we had for lunch that day. I doubt if Earl knows either. I am sure he went down to the soda shop with the rest of us for a real lunch.

Obviously, we had a point to fuss about.

So, what did we do?

We went on a strike, that's what. I tacked a big old protest banner on Alamac Hall, and we talked revolution, but by noon that day we came to realize the folly of biting the hand that was feeding us.

We had a fine old time, but we got hungry as the mischief. So we went back to strange meals in the dining hall. Later, we did what we should have done in the first place. We talked it out with those in charge. Then we got favorable results.

The point I'm making is a sneaky one, just as the first couple of paragraphs were. If something is bothering you, I would skip the heroics of rebellion and go see old Earl. Although he might not look like it, he remembers when times were thin around Elon.

You might not always win your point with him, but I have known him long enough to assure you he will make you smile when he says no.

So, this column is a loser for many of you. No jokes. No gossip about teachers. Just advice.

Now, nobody likes my column.

Conference Makes New Grant-In-Aid Allotment

STANDINGS

(Final League Standings)	W	L	Pct.
ITK Black	9	0	1.000
Sigma Phi Gold	8	1	.889
Alpha Pi Red	7	2	.778
Raiders	7	2	.778
East Dorm	6	3	.667
Kappa Psi Nu	5	4	.556
Castaways	5	4	.556
Sigma Mu Sigma	4	5	.444
Breakers	4	5	.444
ITK Red	3	6	.333
Infernos	2	7	.222
Snakes	2	7	.222
Sigma Phi Black	1	8	.111
Alpha Pi Grey	0	9	.000

ITK Grabs Intramural Cage Lead

The ITK Blacks grabbed regular-season honors in the fast-moving Intramural Cage League, swinging through nine straight games without a defeat to top the strong Sigma Phi Golds, who finished in second spot with an 8-1 record. The two teams thus won the top-seeded spots in the past season tournament.

Barry Hodge, Jim Crutchfield and Joe Lee led the ITK Blacks in their unbeaten romp for honors, while John Gozjack, Jim Moore and George Wooten were offensive leaders for the runner-up Sigma Phi Golds, paced by John Gregory, and the Raiders, led by high-scoring Bob Denny. They get the other two spots in the titular tourney.

Scoring Leaders

As might be expected, the leading teams also led in scoring. The ITK Blacks grabbed first in scoring with a average of 63 points per game, trailed closely by the Sigma Phi Golds with an average of 62.4 points. The Raiders were third in scoring with 47.7 points per game, but a strong East quintet averaged even 46 points to edge the Alpha Pi Reds for fourth rank in scoring by one-tenth of a point. The Alpha Pi five averaged 45.9 points.

The top five defensive clubs showed a slightly different alignment, with the Alpha Pi Reds allowing only 31.8 points per game for the best record. Others in the top defensive echelon and the number of points they allowed per game were Kappa Psi Nu with 34.4, East Dorm with 36.9, Sigma Phi Gold with 37.3, with Sigma Mu and the Castaways tied for fifth with 37.8 records.

Individual Scoring

Fifteen individual stars averaged a double figures for the loop season, with Bob Denny grabbing top rank with an 18.3 average for the Raiders. He was trailed in the top group by Gary Taylor (East), with 17.0; Barry Hodge (ITK Black), with 15.5; John Gozjack (Sigma Phi Gold), with 14.9; and Jim Hammill (Kappa Psi), Ken Broda (Sigma Mu) and Leon Dickenson (Infernos), each with 13.9 averages.

Other players in double digits were Jim Moore (Sigma Phi Gold), with 13.0; Henrie Descheemaker (Snakes), with 11.6; Dick Smithers (East), with 11.3; Jim Crutchfield (ITK Black), and John Gregory (Alpha Pi Red), each with 10.8; George Wooten (Sigma Phi Gold), with 10.3; Tom Allred (Alpha Pi Grey), with 10.2; and Joe Lee (ITK Blacks), with even 10 points.

Willis Death

Continued From Page One

apparently well when he left a date about midnight Saturday and returned to his dormitory. He was last seen alive about 3 o'clock Sunday morning when two students saw him in the bathroom of the dormitory. They stated that he did not speak to them at that time, but they did not consider this fact strange, since he was of quiet nature.

Willis, who would have graduated at Elon this spring, had been a member of the Elon track team since his freshman year, participating in the mile and two-mile events. He was a member of Alpha Pi Delta social fraternity and of Pi Gamma Mu honorary social science fraternity.

He was the son of Mr. and Mrs. Harry Willis, of Beaufort, who are the only immediate survivors. Funeral services were held at Anne Street Methodist Church in Beaufort at 2 o'clock Wednesday afternoon, with the Rev. John S. Graves, Elon College chaplain, assisting the pastor in the final rites. Burial was in a Beaufort cemetery. The funeral in Beaufort was followed by a memorial service held in Whitley Auditorium on the Elon campus at 10 o'clock yesterday morning.

Dr. and Mrs. J. E. Danieley and Professor Graves were faculty members who attended the funeral at Beaufort, along with student groups representing Alpha Pi Delta, Pi Gamma Mu and the Physical Education Majors Club. Fraternity brothers of the deceased served as pall-bearers.

View From Oak

(Continued from Page Two)

When the Legislature meets in Raleigh, the Senators and Representatives rarely act on measures that concern the people they are representing without first getting their opinion on the measure.

Colleges should be no exception. Students should at least be able to express their opinions on matters that will have an effect on them, and the board members should weigh the opinions before they act.

There will be three additional athletic grants-in-aid for football and two for basketball under a new apportionment of athletic scholarships, which has just been adopted for the ten colleges which compose the Carolinas Conference.

The new allotment of grants-in-aid was announced last week by the committee of presidents of the Conference colleges, a group of which Elon's President J. E. Danieley is chairman. The allotment revises the number set up for the various sports under a plan which first went into effect last September.

Beginning last fall the Conference colleges had set a limit of 25 athletic grants, including 22 for football, 16 for basketball and three for other sports. The new apportionment allots 25 grants for football, eight for basketball and two for other sports such as baseball, track, golf and tennis.

This apportionment applies only to the seven Carolinas Conference schools which participate in football, among them Appalachian, Catawba, Elon, Guilford, Lenoir Rhyne, Newberry and Western Carolina. The three colleges which do not play football, including Atlantic Christian, High Point and Pfeiffer, will be allowed eight grants-in-aid for basketball and five for the other sports for a total of thirteen. The plan in effect last fall gave these schools ten cage grants and five others for a 15 total.

The new apportionment of sports grants had been approved by the college presidential group at a meeting held early in February, but formal announcement of the new figures had been delayed until last week pending plans to implement the new rules. In connection with the new allotments, it was announced that any academic scholarships would be charged against the athletic totals only in football and basketball.

HOOK PORTRAIT PAINTED BY STUDENT ARTIST

ELAINE APPLE

Elaine Apple, a first-year student from Burlington, who is a self-taught artist, recently completed an oil portrait of Dr. A. L. Hook, veteran member of the Elon College faculty, who has been at Elon as student and faculty member for more than half a century. Mrs. Hook is pictured at the left as she viewed the large portrait of her husband, while the youthful student artist is pictured above. Miss Apple is the daughter of Mr. and Mrs. H. L. Apple, of Burlington, and her father was a student of Dr. Hook during his student days at Elon.

BEST FREE THROW PERCENTAGE: 88.2 per cent, set by Jimmy Crump, with 158 of 179 attempts in 1956-57.

MOST AVERAGE REBOUNDS: 17.2, set by Ed Juratic in 32 games in 1955-56.

Silver Contest Ends March 31

Only two weeks are left in Reed and Barton's annual "Silver Opinion" scholarship competition, in which Wendy Cowall is the Elon College representative. All students at Elon are eligible to submit their choice of the three best combinations of sterling, china and crystal from the various designs shown.

There are ten scholarships offered, varying from \$500 for first place down to \$100 for the last four of the ten awards, along with 100 other awards of sterling silver, china and crystal. Students wishing to compete should contact Miss Cowall at once for entry blanks for the contest, which closes on March 31st.

Season Records For Team

MOST GAMES WON: 25, set in 26 games in 1951-52, tied in 32 games in 1955-56, and tied again in 30 games in 1956-57.

MOST POINTS: 2,869, set in 32 games in 1955-56.

MOST FIELD GOALS: 1,060, set in 32 games in 1955-56.

MOST FREE THROWS: 749, set in 32 games in 1955-56.

BEST FIELD GOAL PERCENTAGE: 46.8 per cent, set on 852 of 1,821 tries in 1960-61.

BEST FREE THROW PERCENTAGE: 74.6 per cent, set on 650 of 871 tries in 1960-61.

MOST TEAM REBOUNDS: 1,528, set in 32 games in 1956-57.

MOST AVERAGE REBOUNDS: 47.8, set with 1,528 rebounds in 32 games in 1955-56.

Track Team

(Continued From Page Three)

Miller set a new Elon record when he became the first distance man in Carolinas Conference history to break the magic ten minute mark in the two mile event.

Al McDonald and Tom Berry are two lettermen back for the hurdles, and John Gozjack is an experienced letterman in the javelin. Tim Kempson also throws the javelin, and Cameron Little looms as a threat in the weights, with Joe Cote a strong contender in the high jump.

PERKINS AT MEETING

Prof. T. E. Perkins, Elon College librarian, represented the college at the annual work session of the North Carolina Library Association held at State College in Raleigh on Saturday, March 2nd. Professor Perkins served as secretary of the College and University Section of the group.

Campus Election

Continued From Page One

plaster walls on the campus by use of tape, tacks, nails or similar attaching methods. Along with this ruling goes one that no campaign materials of any kind will be allowed in the Rotunda 24 hours prior to the voting and further that all candidates are responsible for removing their campaign materials within 48 hours after the election.

Several constitutional amendments were pending before the Senate at its regular March 13th meeting this week, and it is probable that any such amendments which were passed by the Senate at that time will be submitted to the student body at a special election on either March 18th or 20th.

Talking Sports

(Continued from Page Three)

pitching from Jerry Drake, Lefty Everett and Roy Erlandsen.

From the football and basketball rosters, the baseball squad lists such familiar names as Arthur Davis, Sonny Smith, Dan Kelley and Joe Dawson, all of whom may add strength on the diamond, and among the newcomers are such promising prospects as Gary Taylor, Carlton Highsmith, Mike Best, Belton Saunders and Harvey Keek.

Coach Sanford says, "If our pitching goes well, fielding is good and hitting comes from the sluggers, then we might just have a heck of a season," and certainly no coach could want more than that. If all those things come true, then one could well prophesy that our Christians will bid high in the Conference.
