

Somewhere on this great campus of our beloved Elon College there will be a person or two who reads everything. Even this.

These people will be the type checking credits on TV shows. You know — who directed, who did the musical background, who manned the cameras. The very astute Maroon and Gold reader, by Page Two in what we in the trade call "The Masthead," will have determined that this prose is dispensed by one H. Reid, identified as "Alumni Editor."

You freshmen may care to know I am a real person, a sort of aging one, albeit, who does this for free because he likes the school a great deal. A long time ago, the school liked him. So, we are evening it up, as it were.

As to what the devil this column is, is something else. It tries to show you younger folk that an alumnus is not some left field jerke who harbors no interest in what you all do. At the risk of sounding untoward, I will, without slightest trace of blush, assure you that this old coot is vastly intrigued with, for example, an Elon, whom I suggest may well have the best limbs since Senior Oak. All right. So I'm being cute. On a serious kick, I am quite impressed with the aspirations of one Scott Crabtree, a ferocious footballer with gentle manner. He tells me he plans to take graduate work at William and Mary, a house of learning I, too, took in in my academic rounds. Actually, I was surprised young Mr. Crabtree would tell me anything, as I interrupted his date when we discussed, of all things, master's degrees.

This is a column wherein a lot of recollections of my undergraduate days will come to light—about how Dean Theo Strum played clarinet in our Elon band that looked like something out of the Bowery; about how a big daddy swatted timely hits in baseball but who threw lousy water bombs (his name is Dr. J. Earl Danieley—he has some fairly important job on campus, now, I understand), and maybe, on an off day, you'll find something worthwhile to read. That might include Dr. A. L. Hook's giving a smart alecky clod a break to make good and I can brag by saying I made the most of the opportunity he extended me.

Well, this is a dumb column this time and I know it. I have simply tried to define what it is for you newcomers.

Maybe if I promised you a revealing report on some parlor activity in West during my time twenty years ago, you'll be back. All right, I'll write you an eye opener next time out.

Simkins Speaks

(Continued From Page One)

who assisted in composing the world-famous Conant Report, who will be at Elon on November 2nd; Warner Wells, editor of "Hiroshima Diary," who appears on November 15th; and to conclude the semester on January 3rd, the famous international law expert, Arthur Larson.

The climax of an outstanding series of Forum presentations this year will occur April 25th through April 29th, when the group will present for the first time at Elon College an entire week devoted to a festival entitled "The Changing Image of Man." Never in the history of the college has there been gathered together such a brilliant array of scholars of all disciplines. The entire week will be devoted to lectures, informal sessions, teas, exhibits and a play.

Good recipe for after-dinner speeches—use a lot of shortening. If you want to be heard, whisper.

Fifty years ago minding one's children did not mean obeying them.

Quakers Top Elon Eleven In 7-0 Tilt

By JACK DeVITO

Despite a last-minute desperation drive by Elon's Fighting Christians which was thwarted by a pass interception in the end zone by Guilford's Danny McQueen, the Quakers made a third-quarter TD and a 7-0 lead stand up for one of the biggest upsets of the new season in the Carolinas Conference.

HOW IT HAPPENED

Elon	Guilford
4	7
63	151
62	46
1	105
24	11
5	3
42	14
43	119
3	4
14	0
9	11
35.0	35.9
96	45
2	1
85	75

Elon	Guilford
0000-0	0070-0
Guilford Touchdown — Grayson	
1-run. Extra Point — Grayson (Kick).	

The Quaker touchdown came after McQueen had grabbed an errant Elon pass on the Christian 39-yard line, setting up a drive which showed Guilford's Tommy Grayson carrying the ball on five of six plays and finally berging over the goal from the one-yard marker. Grayson also kicked the point for the winning 7 to 0 count.

The Christians and Quakers battled through a defensive first half without a score, and the second half started in the same fashion with the ball swapping hands on punts, fumbles and intercepted passes. It was the third time the Quakers got the ball in that final half when Grayson spearheaded the drive for the winning touchdown.

The final Christian threat began when Sonny Pruette grabbed a Guilford punt on the Elon fifteen and returned it to the Christian twenty-eight, from where Tyrone McDuffie launched a belated passing attack. He tossed three consecutive completed passes to Gary Jordan for 30 yards, 8 yards and 10 yards, and then a Quaker penalty and a McDuffie carry moved the ball to the Guilford fifteen. It appeared that Elon might score, but a Quaker interception in the end zone ended the Christian bid for the TD and the chance for the win.

Scratch Sheet

(Continued From Page Three)

There was a little article in the Philadelphia newspaper which said that Wilt "The Stilt" Chamberlain, who was blocking many shots by rookies in a Philadelphia 76ers' scrimmage, was amazed himself when he went up in the air to make a shot and found the ball stuffed back on him by none other than Elon's greatest basketball, Jesse Branson.

In "Sporting News" a couple of weeks ago, there was a story about a baseball pitcher who withdrew from medical school to make a comeback in baseball. The pitcher is the former assistant to Coach Bill Miller by the name of Billy Graham. The last I heard about Billy was that he was heading for a club strikeout record and that he had a 12-8 record with a second-division team, the Syracuse outfit of the International League.

Wisps of Wisdom

The small boy who voluntarily washes behind his ears is probably looking for his gum.

The most disappointed people in the world are those who get what is coming to them.

The world owes us nothing—it was here first.

A lady recently wrote to her local newspaper the frightful warning that the Soviet Union could wipe us out without firing a single shot. All the Russians have to do is poison the glue on our trading stamps.

SCENE DURING 'COED NIGHT' AT ALUMNI GYM

The above picture shows the pause that came for refreshments during the annual "Coed Night," which was held at Alumni Memorial Gymnasium on Wednesday, September 22nd, under the sponsorship of the Women's Athletic Association. The event was planned to introduce the women students at Elon to the program of activities which the WAA group conducts during the college year.

WAA Holds Coed Night Gym Party

The Women's Athletic Association, always one of the most active groups on Elon's campus, will operate this year without a president and will probably be the only group on campus working under such a situation.

This situation does not mean that the WAA girls will operate without leadership, for the group will be under the very capable leadership of Vice-President Sandy Bergman, of Uncaesville, Conn., who moved into the seat of authority when the regularly-elected president failed to return to college.

Steve Augustine, of Westfield, N. J., was chosen president last spring, but she was married since that time and is not back in school. The constitution of the WAA does not provide for vice-presidential succession to the presidential title. Instead, it simply says that in the absence of a president the vice-president shall serve, so the WAA girls will be led by an acting president this year.

Other officers of the association, all named last spring, include Myra Boone, of Durham, secretary; Betty Jones, of Durham, treasurer; and Jarole Popowski, of Sayreville, N. J., reporter.

The WAA is already off to an active start, having been host to the women students at a "Coed Night" program at the gymnasium last Wednesday, September 22nd, when an entertaining program of games and stunts was enjoyed by all. The girls also heard an interesting and informative talk by Coach Gary Mattocks, Elon's head grid mentor.

Lejeune Game

(Continued From Page Three)

In their first game, the Marines gained 140 yards rushing to 22 for the Marines and turned in 55 yards in passing to 89 for the Marines.

Tyrone McDuffie, the senior quarterback from Lumberton, who stepped into the vacated shoes of Ed Wheelless after himself playing defense last fall, turned in a fine performance as he completed 12 of 20 passes for 140 yards and personally ran the ball for enough yardage to give him 200 yards in total offense for the game.

Coach Gary Mattocks, who made his head coaching debut for the Christians in this game, was pleased with McDuffie's showing and declared himself well pleased with the overall performance of his team, although he did express disappointment that the Christian goal line offense bogged down more than once inside the Marine 10-yard line.

Players Open New Season In November

The Elon Players, student dramatic group, will open the new campus stage season with a three-night presentation of Tennessee Williams' "A Streetcar Named Desire" in the Mooney Chapel Theatre on Thursday, Friday and Saturday nights, November 4th, 5th and 6th.

Tryouts for parts in the first play of the new season were held this week, and the full cast will be announced in the next issue of the Maroon and Gold, according to Prof. Sandy Moffett, who begins his third year on the Elon campus as he directs the upcoming show.

Professor Moffett, who served as stage manager for the "Lost Colony" show at Manteo for the past three seasons, was produced stage manager for the Asolo Theatre Festival in Sarasota, Fla., this past summer. The Festival, state theatre of Florida, offers a series of top plays each summer with professional actors and technicians.

Another Elon Player figure in summer theatre was Tom Jeffery, of Bethesda, Md., a regular on the Elon Player technical staff for the past two years, who also directed the one-act play, "Zoo Story," which won high rating in the Carolina Dramatics Association contests last spring. Jeffery was for the second summer assistant stage manager for the "Lost Colony" at Manteo.

Improvements

(Continued From Page One)

outright rejection notices went to more than 39 per cent of the applicants.

In closing his remarks to the faculty, Dr. Danieley reminded the faculty members that their prime purpose in being at Elon is to teach, and he cited a number of articles and studies which stressed the importance of motivation, stimulation, encouragement, leadership, guidance and counselling as parts of the teaching program.

Newcomers Join Elon Faculty

Orchestral Group Holds Organizational Meeting

The Elon College-Community Orchestra, which is now beginning its third year of activity, held its first meeting of the 1965-66 college term on Thursday night of this week, with strong interest shown in the orchestra program for this year.

The initial gathering of the community-wide orchestra was held in the band rehearsal room on the third floor of Alamance Building

Wasp Battle

(Continued From Page Three)

Gentry, who took the ball at his own 35-yard line and scampered 22 yards to the Emory and Henry 43-yard marker, only to have a clipping penalty move the ball back to the Elon 41-yard line.

The Elon gridders started from here on their only sustained drive of the night, marching fifty-nine yards in eleven plays with Gary Jordan, 220-pound halfback, scoring from one yard out. The Christians made the point conversion when McDuffie pitched out to Fred Stewart, who tossed a halfback pass to Jordan in the end zone.

It looked as if Elon might score again as the Christians moved from their own 33-yard line to the Emory and Henry eighteen in the final moments of play, with Fred Stewart picking up 43 yards in two carries to give him a total of 106 yards for the night. McDuffie passed to A. W. McGee for ten yards as time ran out.

The game was a well-played one for both the Elon offensive and defensive units. Stewart topped the attack with his 106 rushing yards, but Tyrone McDuffie had a fine game at quarterback as he completed seven of fifteen passes for 36 yards and chipped in with a number of nice runs. The play of the two co-captains, Joe Dawson and Morris Thomas stood out in exceptionally fine line play by all the Elon forwards.

Bowden Guest Speaker At Summer Graduation

Speaking on the topic of "On Being Human In A Dehumanized World," Dr. D. J. Bowden, director of the School of Religion at Indiana University, told members of the Elon College summer graduating class here on Sunday, August 22nd, that "to be truly human is to be at-one with both God and man."

The speaker, who was for many years dean of the college and dean of men here at Elon College, opened his discussions with the question, "What is man?" He then mentioned several historical answers to the question to show that man is a product of his biological heredity and his physical and social environment, but he further declared that man is just as much a "programmed" being as any modern computer.

Dr. Bowden's address was the feature of the graduation convocation held in Elon College Community Church that Sunday, which opened with the invocation by Dr. J. E. Danieley, Elon College president and included the scripture read-

ing by Dr. W. J. Andes, pastor of the Community Church.

Diplomas and degrees were presented in a special program held in Whitley Auditorium at 2:30 o'clock that afternoon. Among the 47 graduates were two who graduated with honors. They were Ruth Lea Mitchell, of Burlington, who graduated magna cum laude, and Leroy Glenn Ford, also of Burlington, who graduated cum laude.

In addition to the two honor graduates, other summer graduates were Brenda Dover Bolt, Burlington; Carole Ann Boyle, Alexandria, Va.; Rebecca Shepard Brandt, Greensboro; William Robert Bray, Burlington; Thomas Elwyn Brees, Johnson City, N. Y.;

Lynwood Jesse Brown, Hillsborough; Nancy Lou Butler, Tariffville, Conn.; Nellie Davis Cheshire, Hillsborough; Patricia Ann Compton, Mebane; Thomas Savage Corbett, Pocomoke City, Md.; Florence Moore Elleberg, Burlington; Jerry Walter Faulkner, Burlington; Lewis Tildon Fowler, Mebane;

Sarah King Griffin, Burlington; Kenneth Leon Harper, Henderson; George Michael Herbert, Portsmouth, Va.; Bobby Aaron Hoyle, Franklin Springs, Ga.; Sandra Kay Jeffreys, Burlington; Evelyn Bell Kent, Granite Falls; Billy Robert Maness, Burlington; Thomas Hughes Masten, Roxboro; Nina Marie Matlock, Elon College;

Bonnie Ray McEvoy, Burlington; Joan Carol Michael, Burlington; Douglass Edwin Moe, Elon College; Sandra Navy Monger, Allendale, N. J.; Faye Richard Moody, Burlington; Albert Sidney Morrison, Portsmouth, Va.; Joan Cowan Nichols, Jacksonville; Clark Benny Patterson, Elon College; Russell Allen Phipps, Virginia Beach, Va.;

Kenneth Wayne Pope, Henderson; Andrew Fred Rohrs, South Deerfield, Mass.; Gary Ann Saunders, Bluffton, Ind.; James Lee Self, Burlington; Ashby Lee Shifflett, Harrisonburg, Va.; Gary Wayne Sisk, Burlington; Roger Headley Suddeth, Point Arena, Calif.; Herbert Wayne Turner, Chester, Va.;

Ann Aaron Wallace, Burlington; Ronald Nelson Weaver, Burlington; Robert Shaw West, Durham; William Ransom Whittenton, Reidsville; David Alton Winfrey, Valley Station, Ky.; and Albert Rodman Woodward, Wilmington, Del.
