

Campus Rule Changes Sought

Dr. J. E. Danieley, president of Elon College, released on Tuesday morning, April 15th, a statement to the Elon students, faculty and staff a special statement concerning a petition which had been presented to him during the previous weekend concerning certain campus rules.

The petition, a portion of which was presented to Dr. Danieley on Saturday night, April 13th, by a small committee, first concerned a campus regulation concerning dress in the campus cafeterias at certain weekend meals. At that time Dr. Danieley agreed to discuss the matter with the group in his office the following week.

On the following night, a slightly larger group that included about 125 students by actual head count, which means that it included well under ten percent of the Elon student body, presented a petition to President Danieley in which six points of campus regulations were listed. It was this second petition that Dr. Danieley answered in his statement on April 15th. He stated that the students were very orderly in presenting the petition.

The petition listed the following issues:

1. Dress for men in the cafeterias.
2. Smoking in classrooms and cafeterias.
3. Dormitory rules for women.
4. Chapel point system.
5. Sunbathing rules.
6. Drinking rules

In his statement this morning, President Danieley took up each of the points in turn and discussed them. His statement follows:

(1) COATS AND TIES IN THE CAFETERIAS. For many years it has been traditional for men students to dress for the noon meal on Sunday. A few years ago, student leaders suggested that they would like to have one evening meal each week which would be somewhat special. They suggested Saturday evening, and a three-way agreement was reached whereby the cafeteria would serve steaks, and the students would dress for the meal. No request in any form from any

student regarding this issue came to my attention until I received the petition Saturday evening. I have talked with SGA President Noel Allen since the petition. He will consult with other students with regard to the possibility of terminating the agreement which was made about the Saturday evening meal and will report student reaction to me. At my request, he is also asking a representative group of students to recommend for consideration guidelines for dress for the noon meal on Sunday.

(2) SMOKING IN CLASSROOMS AND CAFETERIAS. We believe that there are valid reasons for these regulations. Smoking in the cafeteria results in using dishes as ashtrays, makes extra problems for the cleanup crew during and after mealtime, damages the facilities (there are more than 30 burned spots on the carpet in Harper Center cafeteria after less than five months of use) and creates the problem of some students remaining at the tables to smoke after finishing their meals, with the tables needed for others. Smoking in the classrooms causes problems in housecleaning, need for ash trays, damage to floor and furnishings and discomfort for non-smokers. In consideration of these problems and in view of health factors, which we are told are involved for the smoker, it does not seem wise to make any change in these regulations.

(3) DORMITORY RULES FOR WOMEN STUDENTS. Earlier this year President Allen appointed a student committee which worked with a member of the faculty and a member of the administration in proposing revisions of the rules for women. The Women's Interdormitory Council is working on some proposals which are yet to be presented. When those proposals are received, affirmative action can be taken and necessary revisions made.

(4) CHAPEL POINT SYSTEM. President Allen presented a request to the Education Committee on March 4 concerning the chapel point sys-

tem. On March 5, the board of trustees voted to continue the point system for the remainder of the spring semester and to name a committee to make recommendations for next year. The committee, including faculty, students, administration, alumni and trustees, has been named by the chairman of the board and

asked to report to the Board at its next meeting in May.

(5) SUNBATHING RULES. No student had mentioned the sunbathing rules prior to the presentation of the petition on Sunday evening. I am asking Deans Berry and Looney to review the regulations and to seek a solution which is acceptable to the majority

of our students.

(6) DRINKING RULES. Mr. Allen talked with the Education Committee of the Board of Trustees about the drinking rules on March 4. The board discussed this question at its meeting but did not take any action. A special student-faculty committee appointed by Mr.
