Dodgers could be the dynasty that baseball hasn't seen in a while. Darryl Strawberry is here now to provide more offensive muscle. Brett Butler arrives here also, to rid Dodger Stadium of the ghosts of Davey Lopes and Steve Sax, key Dodger leadoff men from the past.

Bobby Ojeda and Kevin Gross are also on the new arrival list. Both will have to aid Ramon Martinez in the pitching department since Fernando Valenzuela was released and while Orel Hershiser is still recovering from shoulder surgery.
