It wasn't the Olympic games, but for Sigma Phi Epsilon fraternity and Phi Mu sorority, this year's Greek Week winners, the glory of keeping their titles was just as incredible.

The games were decided on Sunday, when Sigma Phi Epsilon won for the fourth consecutive year while Phi Mu gained the sorority title this year.

Sig Ep clinched the championship during Sunday's tug of war competition.

Andy Ellen, a member of Sig Ep, is excited about winning again this year.

"It gets harder and harder to win every year. We really faced some hardships with injuries and tough brackets. I am just glad we were able to control our own destiny," Ellen said. "It feels good to be graduating after winning Greek Week all four years I was here."

Phi Mu did not win the title until they defeated Sigma Sigma Sigma sorority in the flag football finals on Sunday. Most of the sorority was at the field to congratulate their players and begin celebrating another win.

"Even though I wasn't here last year, it's a good feeling to know

Students returning in the fall better not leave their computer skills at home when they visit the library.

Card catalogs will be replaced as the college officially joins a computer network of library resources.

Elon College is working in their third year with a five year, \$2.5 million grant from the federal government. This grant is designed to fund a library automation system linking the six schools in the Piedmont Independent College Association (PICA): Bennett College, Elon College, Greensboro College, Guilford College, High Point University, and Salem College.

This system will convert the

A group of Elon students are making an effort to get their peers involved in Tuesday's primary election. Several members of the college's chapter of the College Democrats are organizing an information session that will be held on Monday at 8 p.m. in the television studio of LaRose Resources Center.

Those who attend will be able to see a video, which explains Bill Clinton's views on the election issues. Afterward, the group will discuss the issues.

"I hope a lot of people take interest. We need to focus on the
