

The week of May 4 - 10

By Linda C. Black

The sun is in Taurus all week, which is wonderful. Taurus is the sign of gardening and flowers. From Monday through Wednesday, the moon will be in Virgo, so conditions are perfect for preparing a garden. From Thursday through Friday, the Libra moon is your best time for planting flowers. Put in the vegetables over the weekend, while the moon's in Scorpio, and you'll have a bumper crop. If you're not into gardening, use the same outline for whatever you're doing. First prepare, then design, then produce.

Aries (March 21-April 19). Schedule a breakfast date for Monday morning. You won't have time for romance from then until Thursday. You'll be too busy. Thursday morning it's hard to make the connection with your sweetheart. You may be pleasantly surprised that evening, however. Love blossoms in an academic setting, so check out what's happening on campus. Money is tight on Friday, but that's OK. Pay debts on Saturday; more money is coming your way on Sunday.

Taurus (April 20-May 20). Make your decision Monday morning. Share it with your sweetheart that night and get busy with plans for your future. Also offer emotional support and even financial support if necessary through Wednesday. By then the crisis will be past and you can really get to work. Plant flowers and write term papers on Thursday and Friday and you'll reap all the benefits. Both activities should go better than expected. Ponder a tough decision on Saturday, but wait until all the facts are in, probably around Sunday evening.

Gemini (May 21-June 21). Study Monday morning so you can fix something at home that evening. Continue to clean up your place on Wednesday so you can have company over on Thursday or Friday. Those are your best nights this week for romance. They're also pretty good times for you to study, so why not invite someone to do your homework with you? You'll have more physical and less intellectual work over the weekend. That's a good time to clean out the garage or prepare a flower bed.

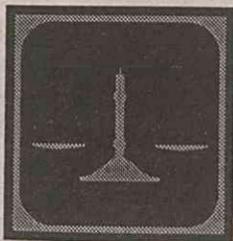

Cancer (June 22-July 22). You could have money coming in on Monday if you contact the right person and let him or her know what you need. Do research that night and on Tuesday with your friends. By Wednesday you should be ready to write up your findings. Thursday and Friday should both be good for entertaining at home, but Saturday and Sunday are really best for private romance. Get together with your true love then and leave the crowd behind.

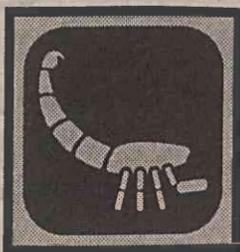

Leo (July 23-Aug. 22). Monday looks pretty good with the moon in your sign, but you will run into problems. Tuesday and Wednesday are your best days to ask for money or to get a raise. Remember to be respectful to an older person. That'll make a world of difference and will help you get what you want. Save Thursday and Friday for studying with friends and writing term papers, not necessarily in that order. Stay home over the weekend and put down roots. That could be literally as well as figuratively.

Virgo (Aug. 23-Sept. 22). The headache you woke up with will start to disappear by afternoon. So will the person who's been nagging you. Get new projects started Tuesday and you'll power right through a problem that shows up Wednesday morning. Go shopping on Thursday. Friday is a good day to get your office organized and take care of financial matters. By about Saturday afternoon, you'll start to be interested in studying again. Join forces and assets with a friend on Sunday to buy something you can both enjoy.

Libra (Sept. 23-Oct. 23). Meet with friends to make decisions Monday morning so you can get to work that afternoon with certainty. Submit paperwork on Tuesday that will help you achieve a long-term goal. Squelch a rumor about your work habits on Wednesday by proving you can get the job done on time. Try not to argue with your mate about money on Thursday or Friday, but if you do, get the matter resolved by Saturday night. That might involve your paying back a debt you'd like to have forgiven. If you make sure that everything is fair, a stronger commitment will develop by Sunday.

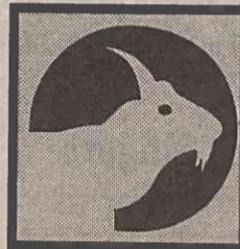

Scorpio (Oct. 24-Nov. 21). Ponder a career decision carefully on Monday. The work you've done lately is pushing you ahead of all competition. Celebrate with friends on Tuesday and take action to make another goal come true. If you don't already have a mate, a friend can help you find one on Wednesday. Scurry to submit paperwork on time Thursday and Friday. You could

be in the mood to make some serious decisions over the weekend, and possibly even a commitment. You're lucky in love right now, so follow a hunch.

day, too. Keep control of your temper and it'll blow over quickly. This weekend, you'll have lots of invitations, which could create problems.

Sagittarius (Nov. 22-Dec. 21). You could get to travel today in connection with a school activity. Take notes. There will be a quiz on Tuesday or Wednesday. Friends would love to help you celebrate on Thursday, whether you've won or lost the recent competition. You'll get another chance to show how smart you are on Friday. Consider your answers carefully. Saturday morning is your best time for group activities. From that evening through Sunday, you may prefer to be alone.

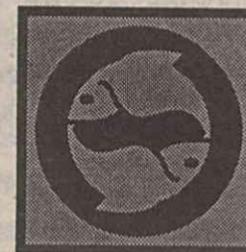

Capricorn (Dec. 22-Jan. 19). On Monday, you may have financial difficulties. There's something you can sell that will bring money in. It might be knowledge rather than a possession. Your curiosity may lead you to travel on Tuesday. Give away information for free on Wednesday to further your agenda. Watch out for pop quizzes on Thursday and Friday and a misunderstanding with a roommate on Fri-

Aquarius (Jan. 20-Feb 18). You're in for an interesting argument on Monday, that's for sure. There are bills to be paid on Tuesday and Wednesday. Don't be disheartened if it leaves you scrimping for cash. Further a long-distance objective with a phone call on Thursday. Love is strong, even if you can't get together quite yet. Study first, travel later on Friday. It's a good idea to visit your folks over the weekend.

Pisces (Feb. 19-March 20).

Start out Monday planning to do everything by yourself. A friend offers to help you study Tuesday and Wednesday. You're most sensitive Wednesday morning, so avoid meeting caustic types then. If you can't afford to pay the whole debt you owe on Thursday, make other arrangements. Travel looks very good from Saturday afternoon through Sunday, and strangely enough, could even lead to more income by Sunday night.
