

The week of Sept. 3

By Linda C. Black

The sun's in Virgo all week long, helping us all stay organized. That will be especially good for budding entrepreneurs Monday through Wednesday, while the moon's in industrious Capricorn. That combination of Virgo and Capricorn is also good for partnerships, since Capricorn and Virgo qualities are supportive. From Thursday through Saturday, the moon's in Aquarius. Problems are likely to pop up during those days, but on Saturday and Sunday the moon in Pisces will help us come up with creative solutions.

Aries (March 21-April 19).

Work as if your life depended on it Monday and Tuesday and you might push up to the next level by as soon as Wednesday. Enroll a team to help you with a massive project Thursday and you'll get it done by Friday. Celebrate over the weekend by doing something you've always dreamed about. It'll be better than you expected.

Taurus (April 20-May 20).

Finish up old projects Monday and start new ones Tuesday and Wednesday. You're on a roll then. Just about everything you touch will turn to gold. Heed an older person's advice Thursday and Friday, to achieve something you want for your home and your future security. Friendship leads to romance over the weekend.

Gemini (May 21-June 21).

Learn how to provide what you need for your home this week. It'll be relatively easy and just about the only way you'll get what you really

want. Ask for the loan on Monday or Tuesday, Wednesday at the latest. To get it, you'll have to show wise spending habits. Imported goods are your best bet Thursday and Friday, and friends could make contact from far away then too. Invite them over, rather than going there to visit. Be tuned in to innuendoes over the weekend. If you only listen to what's being said, you're going to miss half of the communication.

Cancer (June 22-July 22).

A partner has interesting things to tell you from Monday through Wednesday. You can learn a lot if you listen and take notes. This person is on your side even if the advice seems occasionally abrasive. Put paperwork together to get the money you need on Thursday and Friday. This is also something you're learning, but this time you're learning to become wealthy. Over the weekend, travel is an excellent option. You can also find something you've been looking for.

Leo (July 23-Aug. 22).

There's no time for anything but work on Monday through Wednesday. The good news is that money is pouring into your coffers. Thursday and Friday, a partner wants attention. There's a matter to resolve that can't wait any longer. Money is the issue this weekend. Can you borrow enough to get what you want? If you're showing off to impress a loved one, forget it. He or she will be more impressed if you're showing good common sense.

Virgo (Aug. 23-Sept. 22).

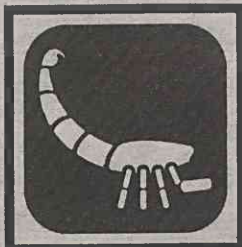

Your luck in love is excellent Monday and Tuesday. You might even be inspired to make a forever commitment or up the ante on the one you've got. Start an outrageous

project together. You and your sweetheart are awesome when you share the same goal. Get into the working part of the project on Thursday and Friday, even if it's really hard. You won't have as much to do over the weekend, but you'll be coming up with great ideas then. Jot them down.

Libra (Sept. 23-Oct. 23).

Get your friends to help with a household project the first part of this week. From Monday through Wednesday, conditions are great for taking things apart and putting them back together again, especially if you've got a whole crew to help. The focus is less on work and more on play Thursday and Friday. Discuss your next project then and make a few basic decisions. The work you do this weekend can help make a dream materialize. It's not easy, but it should still be satisfying.

Scorpio (Oct. 24-Nov. 21).

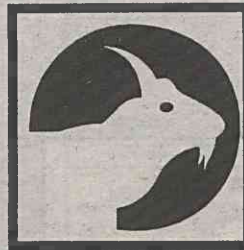

You're sharp as a tack on Monday and Tuesday. Learn by working with a person who knows what he or she is doing. If you pay close attention, you can use the skills on your own by Wednesday. Make that your objective. If you're looking for love, ask a roommate to line you up with a blind date on Thursday or Friday. It looks like the connection from a loved one to a friend is going to be beneficial for all concerned. If you're already in a committed relationship, you'll be making new friends that you'll both enjoy. The weekend should be lots of fun, too, but it looks kind of confusing. There are too many things going on to do them all. You'll have to choose. Pick a group that's going in the direction you want to wind up.

Sagittarius (Nov. 22-Dec. 21).

Money is your major focus Monday and Tuesday — where to get it and how to spend it. Use your brains plus something you have at

home to make a trade instead on Wednesday. You'll be great at solving puzzles on Thursday and Friday. Use this skill to impresses your professors. You get to be the referee over the weekend in a battle between an older person and a young one. Remind them how much they love each other and you'll reach a happy conclusion.

Capricorn (Dec. 22-Jan. 19).

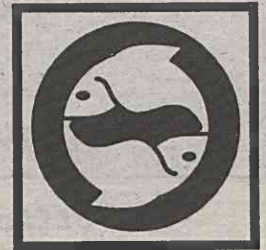

Finish old business first on Monday, then set your new plans into action. On Tuesday and Wednesday, you're awesome. You have the luck, the wits and the experience to make something fabulous happen. Go for it. Money is an issue Thursday and Friday, but if you have your goal established, you'll know just how to spend it. Invest it, don't waste it. If you promised a little more than you know how to deliver, no problem. This weekend is good for studying, so cram and maybe you can learn what you need to know by Monday.

Aquarius (Jan. 20-Feb 18).

Monday starts out OK, but the pressure increases as the day continues. Get used to it. That's going to be the situation through most of

Tuesday and Wednesday, too. That's OK. It'll get you into good shape for Thursday and Friday, when you should push hard to get what you want. It won't be easy, but you might convince your partner to go along with your scheme. You have the weekend to figure out where you're going to get the money.

Pisces (Feb. 19-March 20).

Your friends are really there for you Monday and Tuesday. Their advice can teach you how to achieve a mutual goal, possibly as soon as Wednesday. It's a team effort, but your creativity is what really makes it happen. Go ahead and be analytical Thursday and Friday. You might be surprised to find the answer in a flash of sheer genius. Do the prep Thursday and Friday. The stroke of genius could hit over the weekend.
