**Previous SGA Experience:** Math/Science Academic Council Senator 1998-99; chair of the Special Events committee (Tailgating and OAIC); member of the Academic Ethos committee.

**Why are you running for this position?:** "My reason for seeking the position of SGA Executive Treasurer is to provide the students of Elon College with an experienced and dedicated leader in the handling of SGA's financial affairs. I have served with many organizations as treasurer and I am entering my second term as financial coordinator of the Adventures in Leadership program. As a pro-active senator on this year's SGA, I have fought for the interests of all students in making the SGA more responsible to the student body. My plan is, with your support, to do the same with the duties and responsibilities invested in me as the next SGA Executive Treasurer."

**Why are you running for this position?:** "I think this is one of the most important jobs in SGA, short of that of the president. I think the person who is elected for treasurer needs to have an eye for the future. We need to get more money to bring some big names to the campus. We need to understand that we can't be spending wastefully just because we have the money. If I get elected, I want to learn what has been done right and I want to continue the good things that have been done."

I want to help improve Elon and make it a better college, not only for myself, but for students to come. I want students to realize the power that they have at Elon and I'd like to do that through SGA."
