Elon Briefs

SGA Agenda

The Student Government Association (SGA) will be voting on changes to Amendment XI of the SGA Constitution at the Feb. 25 meeting.

Amendment XI governs the procedure of impeachment for executive officers and senators.

The changes include clarification of the notification timeline, the role of the accused senator or executive during the impeachment process and the transfer of power in making the final impeachment decision from the Judicial Committee to the Senate.

The changes are being proposed by Eric Hurwitt, Judicial Committee Chair, and come in the wake of three impeachment proceedings in the SGA in two years.

"Changing the impeachment process is really important," Hurwitt said.

"It is a change that I hope to see take place before I graduate."

The version being presented at the Thursday meeting comes after the changes initially proposed at the Feb. 11 meeting were voted down by the Senate.

"I believe that this new

amendment addresses the concerns raised two weeks ago," Hurwitt said.

The SGA meeting will be held at 7:15 p.m. in Moseley 215.

ICBL speaker visits Elon

Loung Ung is coming to Elon on March 3 to give a presentation entitled "Wars end. Landmines don't."

Ung is speaking on behalf of the International Campaign to Ban Landmines, a world-wide organization to promote legislation banning landmines and the continuation of land mine removal. The International Campaign to Ban Landmines won the 1997 Nobel Peace Prize for its work.

Ung was born into a middle-class Cambodian family at the height of that country's civil war. Her parents and two siblings were killed in the fighting, and she was forced to become a soldier during the war.

In 1980, she escaped her homeland and has settled in Vermont.
