

Week of September 23-30

By Linda C. Black

Aries (March 21-April 19). Be patient with whiners on Thursday and Friday. Unfortunately, you'll find them in abundance as the week draws to a close. You'll be awesome over the weekend. You may not know your own strength. You might win the prize in an athletic event and maybe in love, too. Stay busy the first part of the week so you can play with your mate later. Groups need your leadership from Monday and Tuesday. Let them know who is the boss, but be gentle when giving your orders. Be careful of people who stretch the truth on Wednesday, otherwise you may find yourself caught in one of their lies.

Taurus (April 20-May 20). You'll notice the workload increasing on Thursday, so you need to make sure you find time to get all the necessities done. You'll be antsy to get old projects done over the weekend. Stay focused on the most important tasks. Play the first part of the week so you'll be rested up for work that's coming next. There may be a test on Monday or Tuesday. Show you're ready for the next level. Around Wednesday you'll be ready to relax with your friends.

Gemini (May 21-June 21). From Thursday through Friday, put a lid on the wise cracks to advance in your career. Be sensitive. Your team will be red hot over the weekend, and you're right in the midst of the action. Shift things around at home the first part of the week so you can relax later. Monday and Tuesday are good for travel and romance. You'll be amazingly brilliant then, too.

Cancer (June 22-July 22). Thursday and Friday are good for creative projects. An older person might help you get what you want this weekend. Continue to study the first part of the week, and then start applying what you've learned. Figure out how much money you have on Monday and Tuesday. Around Wednesday, you're starting to get hunches again, and you're ready to try something new. Follow your instincts — and your good taste.

Leo (July 23-Aug. 22). You've focused on money for weeks. Around Thursday, you'll start acquiring new skills. Study

this weekend and master a new game. Somebody you meet can help. Heed a partner's advice on Monday and Tuesday. Work together, and you'll both get what you want the latter part of the week. Fight, and you'll both get nowhere.

Virgo (Aug. 23-Sept. 22). The weekend could be complex. Keep an eye on the basics Saturday. Keep travel to a minimum on Sunday. You've become even more perfect. Now that you've got it, flaunt it. Monday and Tuesday, stay busy and watch out for mechanical breakdowns. By about Wednesday, you should become more attracted to a partner. That's a business partner, of course. Together, you can make more than either of you would have alone.

Libra (Sept. 23-Oct. 23). Pay close attention through Friday. Learn about money with a partner over the weekend. Saturday will be ideal for a heart-to-heart with a friend, especially if you have been arguing. Sleep in Sunday, you need all your rest for the week ahead. You're getting luckier this week. The perfect way to spend Monday and Tuesday would be staying home with your sweetheart. Make sure you don't forget something important, though. Around Wednesday, your workload increases.

Scorpio (Oct. 24-Nov. 21). Around Thursday you'll get more introspective. Group activities go well the first part of the week. Whip your place into shape on Monday and Tuesday. From Wednesday through Friday, romance looks good if you don't let the past get in the way. You'll stay busy this weekend, but you could make some money, too.

Sagittarius (Nov. 22-Dec. 21). On Thursday, you may notice a conflict. It'll be complex on Friday, and it'll ease up around Saturday. Relax; you'll want to play hard over the weekend. Work for yourself, for a change. You've won a few and lost a few, but now you'll start having more fun. It's about time, too. Monday and Tuesday should be interesting; study then.

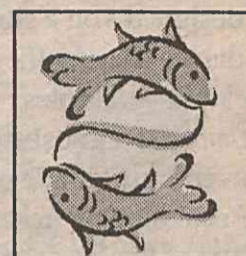

Capricorn (Dec. 22-Jan. 19). From Thursday through Friday, learn new skills. Stay home and take care of your family this weekend. You've had a fun few weeks, but it's just about time to get back to work. Monday and Tuesday are

good days to research the money. Where is it, and how can you make more of it yours? You'll find it as you push yourself a little.

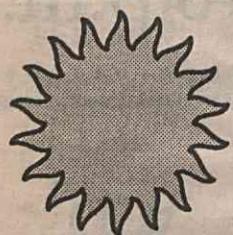

Aquarius (Jan. 20-Feb 18). Be practical through Friday so you can have friends over this weekend. Your life gets a lot easier this week. Vacation time is coming up. Take care of practical matters Monday and Tuesday. On Wednesday, you'll see ways to make money, especially if yours is in order by now.

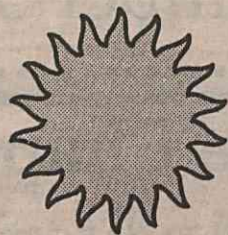

Pisces (Feb. 19-March 20). Take it easy through the week so you'll be in good shape to wheel and deal over the weekend. A partnership helps you get what you want this week. Monday and Tuesday are good for filling out paperwork. On Wednesday you'll get a boost; rely on your partner if you start getting dizzy with power.

If You're Having a Birthday This Week ... Sept. 21: Your input's important, so speak up, especially when your money's concerned. Sept. 22: Love and work will be a challenge but are quite rewarding. Sept. 23: You're sharp as a tack, but service is what's required. Sept. 24: The more you take care of others, the more they'll take care of you. Sept. 25: A partner will teach you to do amazing things. Sept. 26: Happy birthday TG.
