

- Great Course Selection
- Smaller Classes
- Online Courses
- Internship Opportunities
- Chance to Improve you GPA
- Enhanced Student/Teacher Interaction
- Opportunity to Earn Additional Credits

April 10, 2003

Dear Students,

Elon University offers a dynamic summer school program featuring a wide variety of exciting courses that will satisfy general studies requirements, major/minor requirements, elective credits or fulfill your ELR. By attending Summer Session I and/or Summer Session II, you can earn additional credits in a short period of time while working to improve your GPA. You can choose from traditional on-campus courses or take courses online, study abroad or enroll in an internship. There really is something for everyone!

Summer College 2003 will allow you the chance to get ahead or catch up. You can take full advantage of the many opportunities that are associated with Summer College, including smaller classes, convenient parking, enhanced student/teacher interaction and the ability to focus on a more concentrated course load.

Take it from Sammy, Elon is the place to be this summer!
