

Media Services offers wide selection of materials to students

Laura Cunningham
Reporter

Lately, class presentation after class presentation has been forcing me into a comatose state of sleep. Why do students spend hours of work on their

projects and presentations to produce something mediocre? Do you want to sit through a boring PowerPoint or poster presentation – or even worse – be the presenter? No? To spice up your next presentation, take advantage of Elon's technological resources.

Media Services, located in Belk 101 (next to the circulation desk), can help you master those tough projects and presentations by turning bits and pieces of work into an "A" piece. The student workers provide technology support to faculty and students to aid in creating technological approaches and solutions for teaching and learning. Basically,

they help make presentations exciting and worthwhile. Bring an idea, some information and materials and consult a Media Services' employee.

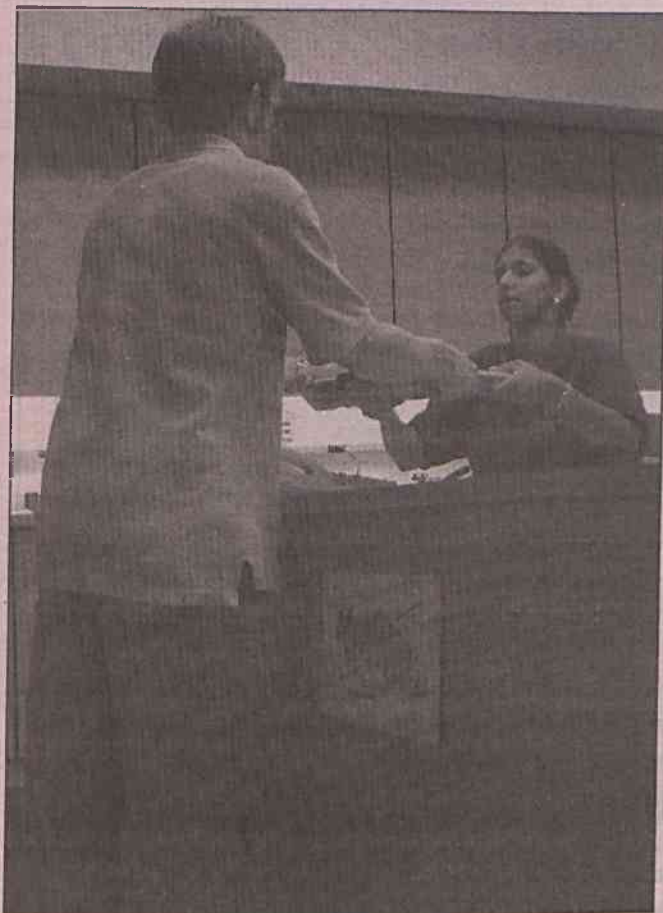

Within 48 hours, a quality project will be completed. Their production serv-

ices range from large posters to transparencies to slides to DVD and CD duplication. Presentation equipment such as projectors, laptops and much more can also be borrowed for your presentation.

So, before you turn in that plain text and basic clip art PowerPoint presentation or use transparencies and black and white copies, head over to Media Services and spice up your hard work. Make your work look like it took hours and earn that "A" you deserve. For information on Media Services call ext. 6598.

Contact Laura Cunningham at pendulum@elon.edu or 278-7247.

Sophomore Maya Aujla helps senior Kevin Haines check out equipment from Media Services in Belk Library.

What students can access from Media Service:

Three-Hour Equipment

Laptop Computers Data Projectors
Digital Cameras Zip Drives (250 MB and 750 MB)
Mini DV Cameras Fenders

The late fee is \$5.00 for the first day for EACH piece of equipment and \$10.00 per day until the equipment is returned. If a student owes a fine, under no circumstances are they allowed to check out other equipment.

***Any person requesting equipment for every class period during a semester will only be allowed to make reservations one month in advance.**

Two-Day Equipment

Equipment cannot be reserved. Availability is based on a first come, first serve basis. Film Projectors, Overhead Projector, Slide Projectors, Opaque Projectors, Portable Projection Screen, Record Players, Tape Players, TV/VCR, Cassette Records, Boom Boxes, Flip Chart, Microphones, Powermates, Easels (class period only) and a Portable PA.

The late fee is \$0.50 per day for EACH piece of equipment until the equipment is returned. If a student owes a fine, under no circumstances is he or she allowed to check out other equipment.

Production Services

Posters ...

Media Services makes posters in three common sizes: large, standard and small.

Posters can be mounted for extra stability, laminated for an extra coat of protection (great for those posters that are reused!) or simply printed.
