

Fashion advice: How to become a local celebrity

Schuntel Reddock
Reporter

Being a celebrity requires poise, attitude and strength while enduring everything life has to offer. Your life is your job and your fans become your supporters. So how can you become your own Local Celebrity? Well, it's quite easy ...

Rule #1: ATTITUDE is the key to presenting yourself to the world. Remember, a good attitude is always a quality that everyone enjoys in a celebrity. Start off having this classy quality and it will take you down the red carpet of Hollywood.

Rule #2: TALENT is not only a must, but a want from the fans. What's the use of a celebrity if they don't have talent?

Rule #3: STYLE is also a must have. On the red carpet it's the studs vs. the diamonds, and your style must be as they say in Hollywood, "fierce." Style does not only include your dress but accessories, hair and make-up. Style requires taste, so if you are fuzzy in this area, seek advice.

Rule #4: TRENDSETTING is always wearing something trendy and different. A trendsetter not only sets trends, but gives meaning to the definition of fashion and style. A trendsetter does not care what people say or think but, embarks on a goal to change the preconceived notion of style. They bring back retro styles or re-invent new styles.

Rule #5: BOOK SMARTS is very important when interacting with your fans and the paparazzi. Book smarts helps with basics in math (how can you keep track of your expenses?), science, reading and of course health. Staying knowledgeable in these areas

serves as a great tool in the world of celebrities.

Rule #6: STREET SMARTS is "common sense" but understanding and relating "street" mentality to the real world. For example, a life lesson your parents instilled in you such as not talking to strangers can be considered "street smarts." All celebrities need to have it.

Rule #7: FASHION is not what you wear but how you wear it. If you need help, seek the advice of true friends. They will tell you what's hot and what's not. Local celebrities always makes sure they have one friend that's not afraid to "tell all."

Rule #8: CLASS is a term often used but never interpreted. After all, being a local celebrity is a job above all other jobs that requires attention. So what is class? Well, it's waking up in the morning and feeling like you can conquer anything life throws at you, being in charge of your life and always carrying yourself in the "best light" possible.

Rule #9: CONFIDENCE is also the prime reason why being a "local celebrity" is so exclusive. It is all about self-confidence. Your fierce personality and eye-popping fashion sense should never get in the way of your confidence to be YOU at all times. Indeed having confidence can benefit and strengthen your character and ability to be recognizable by the public and your fans, of course.

Rule #10: SMILE! It's the main reason why you should become a "local celebrity." No matter what you do in the world of the rich and famous, you can still have your smile.
