

The Campus Crier

Volume 1

October 20, 1962

Number 1

The Publicity Committee of Student Government presents to you, "The Campus Crier" --a student newsletter in answer to your requests for a visible voice in campus and student affairs. This newsletter will be printed monthly and will contain SG news, editorials, monthly columns, and entertaining features. The Publicity Committee is not attempting to print a journalistic master-piece, but "The Campus Crier" has been established for the exchange of student opinions and ideas.

There have been feelings on campus that students are not made aware of SG happenings--behind committee doors. Thus, this publication will serve as a co-ordinating correspondent. The Publicity Committee will attempt to give you news of legislative measures before they are passed so that you can aid your class senators with your opinions; to give you news of committee ideas in discussion and of committee decisions; and to serve you in the most informative way possible of campus activities.

Also we feel that complaints, constructive criticism, and new ideas have too long been kept behind dorm doors or within small student and SG groups. It is time for you as students to come forth with your ideas and present them to the college--the Administration and Student Body--where they will be received and discussed and may do some good. Therefore, we now give you an opportunity to participate in written discussion on any subject dealing with campus affairs. Beginning in the next issue, letters from students will be published. Also, a column will be written by Jim Buie, SG President, in which he will answer questions from students. The Publicity Committee urges your interest and response.

In conclusion, you are reminded that this newsletter is on trial and that it cannot be continued without your active support. You are urged to do your part by reading and discussing the given information and by sending in your own opinions. You as students have expressed a desire for such a publication--will you now support it?

STUDENT SENATE

On Wednesday, the legislative body of the Elon College Student Gov't will swing back into action. With the Homecoming activities behind, the road will be open for a variety of bills and recommendations.

Several of the legislators are planning to present bills sometime between now and Christmas. Sen. Sally McDuffy is working on a measure to ask the Art Department of the College to contribute some paintings to the Student Union. Fred Stephenson, President of the Sophomore Class, and Sen. Karen Fischer are working on a proposal that the Cox House be improved for those students living there.

Sen. Wally Sawyer, with the assistance of Jim Shirley, is working on a bill which will permit the Dance Committee to purchase chairs and tables instead of having to rent them year after year. John Paul Jones, Vice-President of the Sophomores, is checking on the registration program, and will make a report to the Senate for a recommendation to the Administration. Students are being kept better informed of the Senate's activities this year through minutes of the meetings which are published bi-weekly on the Student Government bulletin board. The Senate has also appointed a reporter who writes about the activities for the Maroon and Gold.

COMMITTEE NEWS

Orientation Committee

Russ Phipps, Chairman of the Orientation Committee, reports that the Orientation Program of 1962 was a tremendous success. "The best ever," says Chairman Phipps.

One of the particular improvements was the change in registration. This gave students ample time to get their necessary chest X-Ray without having to stand in line. Another attributive factor of registration was the assignment of advisors for each student. The annual pictures were not taken
