Questions Run Out Before Time Called In College Bowl

Seven minutes before the official time was called to end the Elon-LR NSSGA College Bowl match Monday night, the moderator was left with no remaining questions to ask the teams. With the score standing at Elon 185-LR, 135 for the game, the match was declared "finished".

This game was one of two matches with LR, and total points declared the winner to be LR with 310 points over Elon with 255. The first match took place on the Lenior-Rhyne campus in Hickory on December 3.

The questions for the game had been prepared several months ago by professors from the schools in NSSGA. These questions were kept at the central office at Catawba until this week, and then were sent to Elon for the match. Only 55 questions were received. According to the regulations of the CB, the number of questions sent should be sufficient to last for forty minutes of play.

Members of the Elon team who played Monday were Bill Blomberg, Don Johnson, John Jones, and Tom Page. The campus co-ordinator is Valerie Spangler and the faculty advisors are Mr. James Elder, Mr. David Fee, and Mr. Tully Reed. The moderator for the event was C.C. Linneman, Superintendent of the Alamance County Schools. The match was open to the student body.

For further information see articles on pages 19-20. Also, "Ink Spots" and "Letters From Students."

Jr Class Holds Contest

"You must have been a beautiful baby..." was the campus theme song two weeks ago when the Junior Class held an amusing and interesting Baby Picture Contest. The idea for this contest came from Fred Stephenson, President of the class. At the summer camp where Fred worked this past summer, a similar contest was held. A baby picture of each person attending the camp was obtained secretly and shown at the annual camp banquet.

Fred thought this might be a good
(continued on page 2)

New Cheerleaders Chosen

Two new alternate cheerleaders will be helping to lead the crowds during the basketball season as a result of tryouts held two weeks ago. Bonnie McEvoy, who was on the regular squad last year, and Alice Mitchell were picked from a group of seven candidates by a panel of student-faculty judges. These two girls will substitute for the regular cheerleaders if there is an absence. The squad has also been divided into two sub-squads for away games. Because of the number of games played at other schools, it was decided that such a division would place less of a burden on all members of the squad.

Students Asked To Donate Blood

Elon students and all other members of the college community will be called upon to donate blood to the blood bank which is being established in the local area. The SGA Community Relations Committee, headed by Chuck Jackson, is supporting the program and asks that students co-operate.

The need for reserve blood was realized last year when two students were seriously injured in an accident and no blood was readily available from this area. Student of the college were hurriedly called upon to donate at that time.

Exact plans for the actual donations are not completed, but SGA will set up a "sign-up" station in the rotunda this week for interested students. Any student under 18 years who desires to donate is required to obtain parental consent. Permission blanks will be distributed to these students before the vacation. This project is one involving service to the community as well as to fellow members of the college. The call for blood may come at any time--won't you help?
