

need to get books as cheaply as possible.

Phyllis Register - Sophomore

I think an investigation of this type is long past due at this school. The students have enough expenses without having to pay exhorbitant prices for books and other supplies. Also, even though the honor system is enforced in all other areas of the school, a person entering the bookstore is treated as a potential thief until he has paid for his supplies and walked out.

Wayne Kanoy - Sophomore

I am all for the investigation to take place. I think the bookstore should accomodate the student as much as possible to save him money. I am sure the students here at Elon will be able to save on book fees, paper, pencils, etc, if the bookstore management would cooperate by being interested in the student's financial status.

Deetz Welch - Junior

I definitely feel that the bookstore ought to be investigated. If they refuse to submit to investigation, I feel another store should be opened in competition, operated by the student government. A book rental system would not be a bad idea.

Jerry Mayberry - Freshman

I do not think they overcharge for the books. However, certain books are not available when they are needed. The quality of some of the books could be improved.

Margaret Young - Freshman

I am very much in favor of such an investigation as I feel that the bookstore is unreasonable in many of the supplies and books which it sells. I have purchased inferior supplies at a higher price than other supply stores downtown.

Kent Mangum - Junior

This bookstore charges too much money for their books. You can get the same books cheaper at other bookstores. I know that the bookstore does not give out information on what books will be used for the next year so that near-by bookstores cannot stock up on them.

Lea Mitchell - Senior

I am in favor of a bookstore investigation. I would like to be able to buy paper back textbooks whenever the books are published in that manner. I have had the experience several times of purchasing an expensive hard back copy of a book and later finding that it is available elsewhere in paperback. I also find that other supplies - paper, erasures, pencils - are cheaper at stores in Burlington.

Kathy Krejci - Sophomore

I also feel that the prices of books in our bookstore are extremely high. An investigation of this matter should be made immediately. If there is no improvement, the student should take his business elsewhere!!

Harold O'Briant - Freshman

I think the prices are ridiculous because I know of various bookstores in Durham where the prices for the same articles available in the Elon College bookstore are much less.
