

# LETTERS TO THE EDITORS

To the Editors:

Preregistration! What is it? I have been told that it is an opportunity for one to register early for his next semesters classes. However, when you get right down to it, you are only signing up to register again when you should be in class.

Here is Sally Senior signing up for 15 hours. When she returns, if she is lucky, there will only be one class for her to take. So what does she do. Well, there is still an opening in Art 12, P.E. 12, and Chemistry 51. Of course, she can't use any of these but who cares? After all, she can come back next year and try again.

It seems to me that preregistration should be done by class, not by the last name. The seniors should register first and then work down to the freshman. After all, the seniors have been here four years and they now want to go to work and settle down.

Why do we have to finish registration during finals? Why not a day break to finish registering or studying for finals?

Well, so long and better luck in the future!!

A Worried Junior.

Dear Editors:

A German Club appeared on Elon's Campus this fall, and from all reports it seems to be doing very well. It seems at first to strike the observer not as a club but as a group of people getting together to have fun.

The most unique thing about the Club is the fact that it collects no dues and has no official officers. It has only a program committee which plans the entertainment for its meetings and takes care of the Club's business. The Club feels that by using this form of organization it avoids all the long business meetings that afflict most of the other clubs on campus and still enjoy most of the activities which are connected with belonging to a club.

The get togethers of the Club thus far this school year have consisted of everything from color slides of Germany shown by Mrs. Bridgewater to the singing of old favorite carols such as Silent Night and Oh Christmas Tree at Christmas time. It has discussed the problem afforded the Free World by Berlin and had an interesting program presented on the night life of the divided city.

The Club's goal is to leave no stone unturned in discovering what Europe in general and Germany in particular is really like.

The future meetings reflect their striving toward this goal. They plan to have some films of Germany sent from the German Consulate in Atlanta for the next meeting. The following meeting will feature such things as polka parties and German folk song fests.

At this time the Club would like to express its gratitude for all the work and help given by Mrs. Brigewater, our advisor. We wish to extend a big "Thanks" to her.

Our next meeting will be in A-200 at seven o'clock Friday evening, March 19. Everyone interested is invited. Go to the next meeting. You'll enjoy it.

The German Club
