

the interests of the Student Body. Also there should be monthly treasurer's reports as to the financial condition of the S.G.A.

What qualifications do you have for this office?

First I have no Senate experience here at Elon. Outside I have had experience in several clubs and this past summer my work with people, from young children through adults, in leadership training in several aspects of my work has given me qualifications for this office.

Because of the widespread discontent here on campus do you feel that this election is likely to be based more upon issues and less upon personalities involved?

I think so. I think that at present the issues at hand will be of primary importance.

Do you foresee any particular points of friction between students and Administration?

Yes. I think this would be a continuation of the friction which now exists between the Administration and the Student Body. I think that this friction will grow before graduation, but I also feel that the points of conflict can be resolved. With work and understanding between the S.G.A. and the Administration this friction can be done away with.

What exactly are the Vice-President's functions.

The Vice-President is the Speaker of the Senate and has the responsibility for taking over for the President when required to. As Speaker of the Senate he must be able to conduct the meetings in an efficient manner.

David Johnson

Why do you want to run for this particular office?

Well, I've been interested in Student Government for as long as I've been here really. I have attended about as many Senate meetings as possible and I have read the rules of Parliamentary Procedure and have been fascinated by the job of Vice-President. I'd like to do it and I think I can.

What suggestions do you have regarding the S.G.A. in general and regarding the office for which you have filed as a candidate?

I think the S.G.A. in general could be a little more helpful to the students. I think there is quite a bit of incoherence about what they are doing. There is a definite lack of communication. People just don't quite know what is going on in the S.G.A.

This lack of communication exists because of the conservative policies of our Administration. They feel apparently that we are not big enough to take on our own government and handle things the way we want to; and
