

John Nicks:

The job of S.G.A. Treasurer is a very important one, and I feel that many students do not know just what this job entails.

I would like to acquaint each and every student with this job to the best of my ability. I know that it is a requirement that a monthly report be published, however, it has been presented only to students in the Senate. I know that each individual student would like to know how their money is spent. I will present this report in a form that everyone will be able to understand. In the past there has been a certain amount of money listed as miscellaneous. There have been several queries as to why these miscellaneous expenditures have not been itemized. This I will do.

As far as my qualifications are concerned, I am an accounting major and I feel that I will be able to handle this job. I have also had summer jobs which required bookkeeping and the handling of financial statements. I feel that with these qualifications I will be able to work hand in hand with the other officers of the Student Government Association in making it a more efficient organization.
