

The Wayne Communiqué

VOL. 1 - NO. 3

WAYNE COMMUNITY COLLEGE, GOLDSBORO, N. C.

JANUARY 26, 1970

Student Union

President Clyde Erwin announced that completion of the new Student Union Building is hoped for by September 1. In a meeting in his office last week, President Erwin met with Dean of Students, Bob Waller; Student Government Association president, John Sullivan; SGA vice president, Mike Powell; and two members of the Student Union Committee, Carole Hardee and Ken Brown.

Erwin stressed the necessity for unbiased discussion. Everyone will not be pleased with

the decisions made, but the major aim is the student body as a whole.

Decisions were made concerning the type of food services to be offered in the new lounge, patio and recreation areas, furniture arrangement, study areas, and a meeting room for clubs and committees.

The main purpose of the meeting was to reach a decision on what kind of food service the lounge is to offer. The question that confronted the committee was whether to have across-the-counter service or vending machines. After much discussion, pro and con, vending machines were selected.

Vending machines were chosen mainly because the pipes and fixtures for the machines can be installed more easily during construction of the building than after it is completed. If the future brings about the across-the-counter service, it will not be as hard to install.

President Erwin suggested that a patio be built on the southeast end of the building. He added that picnic tables and ping pong tables could be placed in this area for the student enjoyment. It could also serve as an extra eating locality.

The question of recreation facilities such as pin-ball machines, pool table, and "juke" box, was discussed. Unanimous approval of these facilities was expressed. Placement of the facilities was undetermined but they could be placed in the northwest corner of the lounge.

Arrangement of furniture, lounge chairs, sofas, and the type of eating tables was brought up. Also discussed at this time was the addition of individual study areas similar to those in the library for students' convenience. These questions were discussed and confirmed if space allows.

Mr. Erwin added that the lounge plans show more space than originally thought. Space was appropriated for a meeting room for the different clubs and committees.

A unanimous vote favored a permanent wall for the SGA office instead of folding doors. Discussion was left open as to whether the wall in the club and committee room would be stationary or removable (sliding doors).

College Rolls Continue Growth

Cincinnati, Ohio -- (I. P.)-- A total of 7,750,000 students, an increase of about 3.3% are enrolled this fall in the nation's colleges and universities, according to Dr. Garland G. Parker, University of Cincinnati vice provost for admissions and records and a national authority on collegiate enrollments.

As harbingers of future total enrollments, incoming freshmen numbers are always significant. Dr. Parker estimates that there are nearly one million freshmen, an increase of almost 4%, in the four-year accredited colleges and universities and their affiliated two-year units. He indicated that there are about two million new freshmen.

"With the apparent softening of the Vietnam situation and the consequent easing of the military draft pressure, we can expect a resurgence of graduate and professional enrollments next year," Dr. Parker said.

And he added, "the burgeoning two-year colleges will provide even more students at the upper division level for the four-year schools and senior colleges to accommodate in the years ahead."

Programs for recruitment disadvantaged students, especially blacks, and the continued demand for trained people also account for some enrollment rises, he reported.

"Population data, along with buoyant social and economic pressures, indicate that colleges and universities will continue to need increasing support in terms of facilities, faculty, and finance in the decade of the 70's."

C. MUNROE BEST

A Memorial Dedication to A Good Friend

Clement Munroe Best, a leader in Goldsboro civic, education, and business affairs, died Saturday, January 10, 1970, at his house at 1906 East Walnut street. He was 60.

Mr. Best won national recognition for heading up a drive to raise funds for the new Wayne County Boys Club. It was the most spectacularly successful fund-raising campaign ever conducted in Goldsboro.

He was president of W. H. Best and Sons, Wholesale Distributors of building supplies.

Mr. Best was a member and trustee of First Presbyterian church, past chairman of the Goldsboro Board of Education and the Salvation Army Advisory Board, a member of the board of Trustees of Wayne Community College and the Board of Visitors, of St. Andrews College in Laurinburg, and the past president of the Goldsboro Rotary Club.

In addition, he was chairman of the Wachovia Bank Board of Managers and a member of the Board of Directors of Goldsboro Savings and Loan Association.

Mr. Best was also very instrumental in getting the Wayne Community College Student Lounge Fund kicked off. This was one of his pet projects.

Mr. Sam Hocutt said that Mr. Best was the best friend he ever had and the finest fellow he ever met. He also stated that Mr. Best was sincere and very dependable.

The students, staff, and faculty wish to extend their sympathy and grief, along with their appreciation for what a Great Man has done to make Wayne Community College a Better school.--Judi Tarlton.

New Draft System

Many questions have arisen concerning the random selection procedures of the Selective Service System. Local Board #97 of Wayne County has provided the following questions and answers concerning the new system:

Q. I am 18 years old and will not be 19 until after December 31, 1969. Do I have a selective service random sequence number?

A. No. Your random sequence will be determined by the first drawing held after you become 19.

Q. Once I received a random sequence number, will this number change from year-to-year as new drawings are held?

A. No.

Q. I am 20 years of age, currently deferred in Class II-A. My deferment will terminate in June 1970. What will be my liability after the termination of my deferment?

A. If you are placed in I-A and found to be acceptable for military service, you will be placed at the top of the available list, provided your number was reached while you were deferred. If your number was not reached while you were deferred, you will be placed in a lower priority group, whether you were deferred until June 1970 or for the entire year.

Q. I am a 22-year-old student classified II-S. Because of my high random sequence number, I wish to be classified in I-A rather than II-S. How can I get a I-A classification?

A. You will remain in II-S as long as the reason for your deferment exists. Your local board was obligated to classify you in II-S, since this was the lowest classification for which you qualified. However, if your local board receives evidence from your school that you have ceased to be a satisfactory full-time student because you have withdrawn, graduated, terminated your enrollment, or became a part-time student, then your local board will have a basis to reclassify you from II-S.

Q. My random sequence number is 262. I have heard that my chances of being called for induction during 1970 are slim.

A. There is no way to determine when any registrant in I-A, who is subject of random selection, will be called for induction.

Q. I was ordered for induction to report in December 1969. My local board postponed my induction until February 1970. Does the lottery affect me?

A. No. Unless there is some reason for your being deferred, you should expect to report on the date in February that the local board advised you to report. The lottery does not affect the status of any registrant who is ordered to report for induction. When the original reporting date is prior to January 1, 1970.

Q. Suppose I transfer for induction and the board I trans-

fer to orders me to report in January 1970?

A. Your case is just like that of a postponed registrant. You will be expected to report for induction as ordered by the transfer board.

Q. I am registered with a local board in North Carolina. Will my local board send me a notification of my random sequence number?

A. No. You can determine your random sequence number from charts published in the newspaper and posted in local board offices.

Q. What effect does the random selection method have on deferments?

A. Local board deferment policies are not affected by the random sequence method of selecting registrants for induction.

Q. When will there be another random sequence drawing?

A. Plans call for a drawing to be held during each calendar year, but no date has been set for the drawing to be held during 1970.

Q. Has the random selection system caused any changes to be made in classification regulations, policies, and procedures?

A. No.

Q. I am 19 years old and in I-A. If I stay in I-A all of 1970 and my random sequence number is not reached during 1970, how will it affect me?

A. Whether you are in I-A or in some deferred classification, if your number is not reached you will be placed in a lower priority category.

Q. I have just been placed in Class I-A, but will be 26 years of age in March 1970. If I request personal appearance and appeal, will I still be subject to induction if I reach age 26 before my appeal is settled?

A. Yes, if your random sequence number is reached before you become 26 of age. No, if your random sequence number is not reached prior to your 26th birthday.

Q. I have a II-A classification which terminates in August 1970. I will be 26 years of age in May 1970. What happens to me when my occupational deferment terminates?

A. You will be placed in a lower category whether or not your number is reached, and you would be called only if policy changed.

HELP

Do you have absolutely no talent at all? Do you have school spirit, a lot of interest to spare, and some get-up-and-go? If so, we are just what you need!! In planning and organizing the Wayne Communiqué, we need you and maybe we are just what you need. If you are interested or know of anyone who is, contact Bill Daniels in the Dean of Students' Office. Who knows, maybe you can help us --and vice versa.
