

Bison's Bellow

BY COACH LEE

Basketball, the winter sport stays alive by many activities during fall, spring and summer. Fall is practice, practice and hard work, running, conditioning and getting in shape for those close fourth quarters in late February. Spring is recruiting season, selling our fine school to prospective players and hoping they will select the best. Summer is coaching clinics, to help the coach keep current on basketball skills and knowledge, so he can be ready for those important decisions so necessary in a crucial moment. Late summer also is a time for last minute recruiting and rounding out your schedule for the coming winter. Coaches' work is year-round. We strive as all, for the very best to represent our fine school for all to see.

Last year was a wondrous season for our school - our record - 23 wins and only 8 losses - runner-up in the state among all community colleges as well as Eastern Division Champion. Last year was fine, but another year is the challenge, a challenge to make our school among the finest in the state.

All players, except one will return. Clifford White - all conference, all-state; Andy Solomon - all conference, all-state; Leamon Bryant, James Melvin, Lennox George, Jamie King, Jerry Wilkerson, Levi Hicks. Allen McCullers dropped out and Marion Edwards graduated. New recruits are Billy Andrews, 6'4" forward from Durham, Ronnie Thompson, 6'5" forward from Pikeville, Pat Edgerton, 6'2" guard from Pikeville and Thurman McCuller, 5'10" guard from Goldsboro. These freshmen are good players and come to us with high recommendations for their ability and attitude. Currently we are trying to recruit one more player; among prospects being sought are 6'10" Al Grafton, 6'7" James Saunders, from Durham and Raleigh respectively.

Other prospects are: 6'6" Joe Bridges of Raeford, 6'3" David Miller from Hickory, Tom Byers, 6'2" from Kings Mountain. Our schedule is as follows: (almost complete)

Job Placement

Bill Frazier, counselor from the office of the Dean of Students and also Job Placement Officer, requires those students seeking part-time employment to register with him giving name, address, age, telephone number, and work experience so that this type of information is readily available when an employer calls to fill a particular job.

For permanent employment students approaching graduation are asked to fill out a resume form listing references, work experience, location desired, and other pertinent information. The Placement Office then arranges interviews, whenever possible, between prospective employer and students. One completed resume is given to each graduating student prior to graduation.

At some later date, approximately six months, the graduate will receive a follow-up study sheet, which, when completed, will furnish this office with facts concerning the problems and successes encountered in adjusting to work experiences. This information may be used to improve the school's present and future programs.

Counselors

What are you really like? Are you sure of where you are going? Are you headed in the right direction?

Certain jobs require certain types of temperaments and personalities. Does your personality fit the occupation you are planning to enter? In our Guidance Department, we have job interest, personality and temperament tests and inventories. We will be happy to have you come in and take any of these tests to help you decide whether or not you are suited for your curriculum.

Intramural News

The Physical Education department would like to say hello and welcome to all the new students coming to WCC this year. Also, we would like to extend an invitation to the new and returning students to participate in intramurals. This fall we will start with a clinic for those interested in learning the rules and how to play the game of Carolina football. This will be announced in the daily bulletin. Remember: the intramural program is for you and it is only good if you participate.
