

College Theatre Returns From Florida Trip

The College Theatre group returned from their trip to Florida on March 27. The tour of Junior and Community Colleges totaled 2,800 miles. The tour lasted eight days, in which time five performances were given of "The Brick and the Rose" and "High Sign." For relaxation everyone had an "enjoyable weekend" at Daytona Beach.

Mr. Mayes said the purposes of the tour were to stimulate interest in dramatics at W.C.C. and to exchange dramatic activities in Junior and Community Colleges. Mr. Mayes said that a group from Florida wanted to come to W.C.C. for the same purposes.

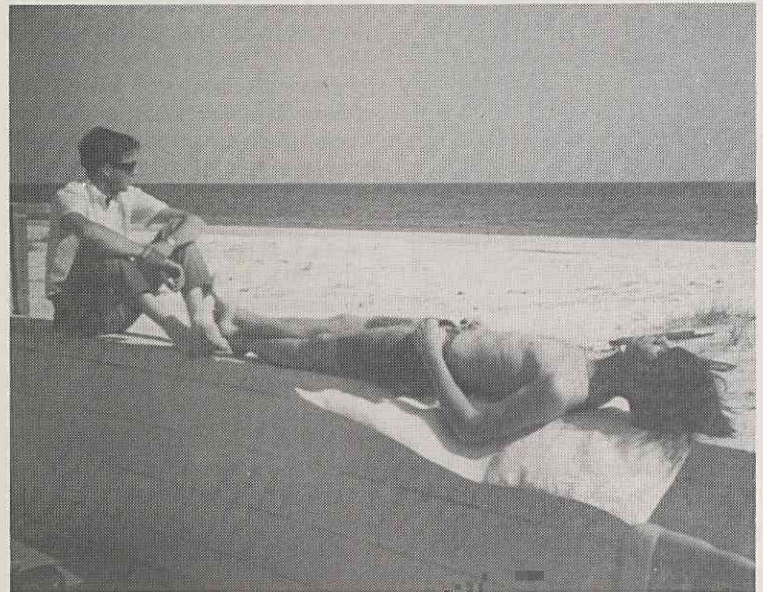

The two performances by the College Theatre were received

warmly by the small receptive audiences. The theatre group performed in a gym, an old elementary auditorium, a recreation room of a student center and in Pensacola, Fla., the College Theatre enjoyed performing in a "real" auditorium.

The theatre group stayed in individual homes except in Pensacola where they stayed in a dorm.

The members of the College Theatre agrees that at every place they performed, the atmosphere was different due to the receptiveness of the audiences.

The group especially performed well at Pensacola for Mr. Mayes because it was to be the last performance they would give.
