

# The Cougar Cry

THE VOICE OF WILKES COMMUNITY COLLEGE

VOLUME 7, NO. 5

WILKESBORO, NORTH CAROLINA

FEBRUARY 18, 1977

## Camera 12 Visits WCC

BILLY HOWELL AND CATHY GREEN IN PRE-SHOW FORM

On February 15, Camera 12 from WXII Channel 12 in Winston-Salem visited Wilkes Community College and gave the students a chance to speak their minds. Mr. Dave Plyler conducted the interviews. The students spoke on a variety of subjects including recreation at WCC and the importance of the entire Community College System. Barbara Bumgarner, President of the WCC Circle K Club presented Mr. Plyler with an official WCC Circle K Jersey.

The *Cougar Cry* takes this opportunity to thank the students for their participation and enthusiasm, and thank you Channel 12 for the interest that you have showed in Wilkes Community College and the other colleges throughout the state.

DAVE PLYLER GETS THINGS UNDERWAY

### Circle K Salutes Heart Month

Throughout the year Circle K has been involved in many worthwhile and rewarding activities. The month of February has been designated Heart Month. In honor of this, Circle K has set up three major activities. They are the Guessing Jar, a balloon sale, and a blood pressure clinic.

The Guessing Jar was in honor of Valentine's Day. A jar was filled with candy hearts. For a donation to the Heart Fund, an individual could make a guess as to the number of hearts contained in the jar. The winner was announced on February 15. Tim Eachus is now the owner of 1673 candy hearts. He guessed the exact number.

A contest is underway between the English classes. The English class which purchases the greatest

### Circle K News

The Circle K is involved in the K Pal Program. This program has matched 25 Kiwanis members with 25 Circle K members. The partners have common interests. This gives students more contact with the community, and it also enables them to learn more about their field of interest.

Plans are being made for the Circle K convention which begins the 18th of March. It will be held in Raleigh.

Mike Bumgarner, District Treasurer for North and South Carolina Circle K, attended a board meeting in Florence, S.C. February 12th and 13th. This was the second Tri K board meeting. Members of the Circle K, Kiwanis, and Key Club attended.

### Drama Department Will Present Two Plays

JUDY GREENE — Director

#### EPIPHANY

EPIPHANY is a provocative drama about a man who desperately tries to prove his masculinity to his wife. Firmly believing that his wife thinks him a homosexual, the man, an ornithologist, attempts to exert his dominance by proclaiming himself "king of the roost" and through epiphany, changing himself into a rooster. The unexpected soul-searching climax will leave a lasting impression for weeks to come.

EPIPHANY is directed by Judy Greene. The assistant director is Linda Jennings. The man is played by Don Church, and the woman is played by Karen Wheeling.

Curtain will be at 8:00 p.m., Friday and Saturday night, February 18th and 19th in the Teaching Auditorium.

-Lewis John Carlino

BARRY CANTER — Director

#### ERIS

A man stands on a bridge and looks at the water far below. Will he jump? This is just one of the scenes from the play ERIS. The play depicts a man who has lost someone very dear to him and he in turn has made a goddess of this lost one.

A violent anger will manifest itself inside those who watch. The man's unending pursuit of questions tends to drive one to his own self destruction, and that is exactly what he wants to do.

See ERIS. You will then understand.

ERIS is directed by Barry Canter. The assistant director is April Anthony. The two principals are played by Jack Smith and Mike Bailey. The policeman is Jim Tugman. Second stranger is Don Brown.

Curtain is at 8:00 p.m. February 19th and 20th.

-David Patterson  
-Lee Falk

The Math Club officers are, from left to right: Mike Bumgarner, David Swaringen, Gloria Beatty, Nan Nichols, and Linda McCann.

### Math Club Organizes

The Math Club, a charter club of Wilkes Community College, held its first meeting of the present school year in Room 312 at eight o'clock on February 11th. The first order of business was the election of club officers and a brief account of past club activities by Dr. Jo Hendricks, the Math Club Advisor.

Linda McCann was elected club President; Nan Nichols, Vice-President; Gloria Beatty, Secretary-Treasurer. David Swaringen was appointed club reporter, and Mike Bumgarner is in charge of social activities. A club project is already in the works to raise money for charitable causes.

The initial purpose of the Math Club, however, is to help its

members in their efforts to understand and apply the concepts of mathematics used in today's society.

For more information about the Math Club, contact any of the club officers or Dr. Hendricks. Any interested persons may join at the next meeting. The time and location will be posted in the student commons.

To get started in the right direction, try to solve this problem: If a fish weighs 10 lbs. plus half his weight, how much does the fish weigh? If you think the answer is 15 lbs., you are wrong. Look for the answer and the explanation in the next edition of the *Cougar Cry*.
